#### REMARKS OF THE SPEAKER.

GENTLEMEN OF THE ASSEMBLY: I accept the office of Speaker, sensible of its honors and appreciating the delicate duties it imposes. A presiding officer can do much to expedite legislative business. In the organization of committees (upon which so much depends), he puts in motion the law-making machinery, and by an impartial and rigid enforcement of the recognized rules for the observance of order, he leads in preserving the dignity of the House, and securing for it the respect and confidence of the community. In these and all other matters appertaining to my office, I shall bring to my aid whatever of ability and experience I possess, and shall under all circumstances be actuated by an anxious solicitude to do right. But to insure success as a legislative body, there

must be an everpresent realization of individual responsibility. Industry and application must be brought steadily to bear upon every proposition that is offered for our consideration. No vote should be thoughtlessly given nor definitive action taken on any subject without due deliberation. In making laws, the interests of the public should occupy the paramount place in our purposes, and every official action should be directed by an enlightened regard for the people's happiness and advancement in the scale of prosperity and civilization. Their wishes, as expressed in the late canvass, or as they may be made manifest by petition, ought to influence our deliberations and meet with a ready response from this Chamber. They who have honored and commissioned us as their representatives, demand some radical modifications of systems tried and found oppressive. This remark especially expresses the sentiments predominant in San Francisco. In behalf of my colleagues and constituents, I bespeak the coöperation of all in aid of much needed reformatory measures for the metropolis. She asks us to inaugurate a system that shall keep pace with her progress and permit her people to exercise their energy, untrammelled by the mistakes of our predecessors. But our attention must not be confined to the wants of the commercial center. The interests of the most sparsely settled districts demand a corresponding care and are entitled to receive our best consideration. If we observe these general rules, public expectation will not be disappointed, the general good will be promoted, and we will return to our respective constituencies confident of their approbation.

Gentlemen, I return you my most grateful acknowledgement for the honor you have conferred on me.

It shall be the duty of the Committee on Public Lands to take into consideration all such petitions and matters or things respecting the lands of the State as shall or may come into question and be referred to them by the House, and to report from time to time their opinion thereon.

26.

It shall be the duty of the Committee on Public Expenditures and Accounts to examine the books and accounts of the several public departments; and to examine particularly into laws making appropriations of money, and to report whether the moneys have been disbursed conformably with such laws; and also to report from time to time such provisions and arrangements as may be necessary to add to the economy

of the departments and the accountability of their offices; and to report from time to time the character and amount of the various appropriations made by the Legislature.

## 27.

It shall be the duty of the Committee on Military Affairs to take into consideration all subjects relating to the military establishment and public defence which may be referred to them by the House, and to report their opinion thereupon; and also to report from time to time such measures as may contribute to economy and accountability in said establishments.

## 28.

It shall be the duty of the Committee on Internal Improvements to take into consideration all such petitions and matters and things relating to roads and canals, and the improvement of the navigation of rivers, as shall be presented or may come into question and be referred to them by the House, and to report thereupon.

## 29.

It shall be the duty of the Committee on Public Buildings and Grounds to consider all subjects relating to the public edifices and grounds within the Seat of Government, which may be referred to them, and report their opinion thereon.

## 30.

It shall be the duty of the Committee on Mileage to ascertain and report the distance for which each member shall receive pay.

## 31.

It shall be the duty of the Committee on the Culture and Improvement of the Grapevine to consider and report upon all matters relating to the culture of the grape and the production of wine in this State.

## 32.

It shall be the duty of the Engrossing Committee to compare all bills ordered or considered engrossed by this House with the engrossed copies thereof; and before they pass out of the possession of the House see that the engrossed bill is a true copy of the original, with the exception of correction in grammar, orthography, and punctuation.

## 33.

It shall be the duty of the Committee on Agricultural, Mining, and Mechanic Arts College to consider and report upon all matters which will be referred to or come before them.

No Committee shall be permitted to employ a Clerk at the expense of the State without first obtaining leave of the House for that purpose.

When a motion is made to refer any subject, and different Committees shall be proposed, the question shall be taken in the following order:

The Committee of the Whole House.

A Standing Committee.

A Select Committee.

Unless otherwise ordered by the House, every bill shall be referred to the appropriate Standing Committee, as indicated by its name given herein. Every Committee of the House to whom a bill has been referred shall report the same to the House within fifteen days from the time the bill is received by the Chairman of the Committee, unless further time to report is granted.

In forming a Committee of the Whole House a Chairman, to be named by the Speaker, shall preside. Bills committed to a Committee of the Whole House shall, in Committee of the Whole, be read by sections. All amendments shall be noted and reported to the House by the Chairman. After report, the bill shall again be subject to amendment before the question is taken.

The rules of the House shall be observed in Committee of the Whole so far as may be applicable, except limiting the times of speaking, and except that the ayes and noes shall not be taken.

A motion that the Committee rise shall always be in order, and shall be decided without debate.

#### DECORUM AND DEBATE.

If any member, in speaking or otherwise, transgress the rules of the House, the Speaker shall, or any member may, call to order, in which case the member so called to order shall immediately sit down, unless permitted to explain; and if called to order by a member, such member shall immediately state the point of order. If the point of order be sustained by the Chair, the member shall not be allowed to proceed; but if it be not sustained, then he shall be permitted to go on. Every such decision from the Chair shall be subject to an appeal to the House; but no discussion of a question of order shall be allowed unless an appeal be taken from the decision of the Chair.

When two or more members shall rise at once the Speaker shall name the member who is first to speak.

Every member, when he speaks, shall, standing in his place, address "Mr. Speaker," and when he has finished he shall sit down. No member shall speak more than twice during the consideration of any one question on the same day and at the same stage of proceedings without leave; and members who have once spoken shall not again be entitled to the floor (except for explanation) to the exclusion of others who have not spoken.

If any member be called to order for offensive words spoken in debate, the person calling him to order shall report the words excepted to, and they shall be taken down in writing at the Clerk's table; and no member shall be held to answer, or be subject to censure of the House, for language used in debate, if any member has spoken or other business has intervened after the words spoken and before exception to them shall have been taken.

Any member may rise to explain a matter personal to himself, with leave of the Chair, but shall not discuss a question in such explanation.

If a question pending be lost by adjournment of the House and revived on the succeeding day, no member who shall have spoken on the preceding day shall be permitted again to speak without leave of two thirds of the House.

#### MOTIONS, ETC.

No motion shall be debated until the same be seconded, and distinctly announced by the Speaker; and it shall be reduced to writing, if desired by the Speaker or any member, and be read by the Clerk, before the same shall be debated. A motion may be withdrawn at any time before amendment or decision.

A motion to adjourn shall always be in order. The Clerk shall enter on the Journal the name of any member moving an adjournment, and also the hour at which the motion was made.

When a question is under debate, or before the House, no motion shall be received but: to adjourn; to lay on the table; for the previous question; to postpone to a certain day; to commit or amend; to postpone

indefinitely—which several motions shall have precedence in the order in which they are named, but the first three shall be decided without debate; and no motion to postpone to a day certain, to commit, or to postpone indefinitely, being decided, shall again be allowed on the same day and at the same stage of the proceedings. A motion to strike out the enacting clause of a bill or resolution shall have precedence of a motion to amend, and if carried, shall be considered equivalent to its rejection.

48.

The previous question shall be in this form: "Shall the main question be now put?" and its effect, when sustained by a majority of the members present, shall be to put an end to all debate and bring the House to a vote on the question or questions before it.

49.

All incidental questions of order arising after a motion is made for the previous question, and pending such motion or previous question, shall be decided (whether on appeal or otherwise) without debate.

50.

The previous question shall only be put when demanded by three members.

51.

When a question is postponed indefinitely the same shall not again be introduced during the session.

52.

Any member may call for a division of the question, which shall be divided if it comprehend propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the House. A motion to strike out, being lost, shall preclude neither amendment nor a motion to strike out and insert.

53.

No motion or proposition on a subject different from that under consideration shall be admitted as an amendment. No bill or resolution shall at any time be amended by annexing thereto or incorporating therein any other bill or resolution pending before the House.

54.

A proposition to print an extra number of any document or other matter shall lie on the table one day for consideration, unless otherwise ordered by unanimous consent of the House.

55.

No bill or other matter shall be printed without first being specially ordered by the House, and the Sergeant at Arms shall be required to certify to the reception by the House of all such printed matter, and the quantity, before payment shall be made or bills audited.

Maps accompanying documents shall not be printed under the general order to print without the special direction of the House.

In filling up blanks the least sum and shortest time shall be first put.

All questions relating to the priority of business shall be decided without debate.

When the reading of a paper is called for, except petitions, and if the same is objected to by any member, it shall be determined by a vote of the House without debate.

On the day succeeding that on which a final vote on any bill or resolution has been taken said vote may be reconsidered on the motion of any member; *provided*, notice of intention to move such reconsideration shall have been given on the day on which such final vote was taken, by a member voting with the majority; and it shall not be in order for any member to move a reconsideration on the day on which such final vote was taken. Said motion of reconsideration shall have precedence over every other motion except a motion to adjourn. No notice of reconsideration shall be in order on the day preceding the last day of the session. But there shall be no reconsideration of a vote on a motion to indefinitely postpone.

In all cases of election by the House the vote shall be taken viva voce.

The ayes and noes shall be taken when called for by three members present, and every member within the bar of the House, when his name is called, shall (unless for special reasons he be excused) declare openly, and without debate, his vote. In taking the ayes and noes, and upon call of the House, the names of the members shall be taken alphabetically, and the Clerk shall enter on the Journal the names of those demanding the ayes and noes.

No member or other person shall remain by the Clerk's table while the ayes and noes are being called or while the votes are being counted.

No person shall vote on any question in the result of which he is personally interested or involved.

Upon a division and count of the House on any question, no person without the bar shall be counted.

No member shall be allowed to explain his vote or discuss the question while the ayes and noes are being called, and no member shall be allowed to change his vote after the vote is announced from the Chair

#### CALL OF THE HOUSE.

Upon a call of the House the names of the members shall be called over by the Clerk and the absentees noted, after which the names of the absentees shall again be called over. The doors shall then be shut and those for whom no excuse or insufficient excuses are made, may by order of those present be taken into custody as they appear, or may be sent for and taken into custody by the Sergeant at Arms wherever to be found, or by special messenger to be appointed for that purpose.

#### MISCELLANEOUS.

No standing rule or order of the House shall be rescinded or changed without a vote of two thirds and one day's notice being given of the motion therefor, but a rule or order may be suspended temporarily by a vote of two thirds of the members present, except that portion of Rule 7 relating to third reading of bills.

No member shall absent himself from the service of the House without the leave of the House, except in case of sickness, and if any member or officer of the House absent himself without leave his per diem shall not be allowed him, but no member shall obtain leave of absence or be excused without a vote of two thirds of the House.

No persons except Senators, State officers, Governors and ex-Governors of States, Members of Congress, Judges of the Supreme or District Courts, members of the press, when accredited by their respective journals, ladies, when specially invited by a member of the House, shall be admitted within the Assembly Chamber, except in the galleries, during the session of the House; but a majority may have the floor of the House within the bar cleared of all such persons. The Speaker is charged with the enforcing of this rule.

No smoking shall be allowed within the Assembly Chamber during the session of the House.

The rules of parliamentary practice contained in Cushing's Law and Practice of Legislative Assemblies shall govern the House in all cases to which they are applicable, and in which they are not inconsistent with the Standing Rules and Orders of the House and the Joint Rules of the Senate and House of Assembly.

The Assembly room shall not be used for any public or private business other than legislative, except by unanimous consent of the House.

Witnesses summoned to appear before the House or any of its committees shall be paid as follows: For each day a witness shall attend, the sum of two dollars; for each mile he shall travel in coming to or going from the place of examination, the sum of twenty-five cents; but nothing shall be paid for traveling home when the witness has been summoned at the place of trial. No mileage shall be paid except where the witness has actually traveled for the purpose of giving testimony.

It shall be in order for any member or members to protest against action of the House and have such protest entered upon the minutes.

All bills reported to the House by either Standing or Special Committees, after receiving their second readings, shall be placed upon a General File, to be kept by the Clerk; and no bill shall be considered by the House until the regular order of business shall have been gone through, and then bills shall be taken from the General File and acted upon in the order in which they were reported, unless otherwise specially ordered by the House, but engrossed bills shall be placed at the head of the File in the order in which they are received. The Clerk shall post in a conspicuous place in the Chamber a daily statement of the bills on the General File, setting forth the order in which they are filed and specifying the alterations arising from the disposal of business each day.

A substitute shall be deemed and held to be an amendment, and be treated in all respects as such.

When a member shall ask leave to have a bill taken up out of its regular order, he shall, in making the motion, give the number and title of the bill.

No increase of pay nor shall any extra pay be allowed any officer or attaché of the House by resolution, except by unanimous consent.

The Engrossing Clerk, Enrolling Clerk, and Copying Clerks shall engross, enrol, or copy the bills which shall come to their hands for such purposes, respectively, in the order of time in which the same shall be acted upon by the House. Each of the said Clerks shall be responsible for every violation of this rule by his assistants or deputies; nor shall any Clerk of this House, or his deputy or assistant, demand or receive from any person any compensation other than that provided by law for any services performed by him in regard to the bills or preparation of bills before this House.

The report of the committee was adopted, and on motion of Mr. Gray the usual number of copies were ordered printed.

Sacramento, December, 1871. }

*To the Assembly of the State of California:*

In accordance with the provisions of an Act entitled "An Act to provide for the liquidation of all claims against the State not otherwise provided for by law," approved April first, eighteen hundred and seventy, I hereby transmit to your honorable body the Report of the Board of Examiners, showing the various claims recommended for payment, and those recommended for rejection, in accordance with the provisions of said Act.

H. H. HAIGHT,  
Governor.

OFFICE BOARD OF EXAMINERS, }  
Sacramento, November 4th, 1871. }

*To the Assembly of the State of California:*

In accordance with the provisions of an Act entitled "An Act to provide for the liquidation of all claims against the State not otherwise provided for by law," approved April first, eighteen hundred and seventy, we have the honor to submit the following report:

The following claims were laid before the Board, an abstract of which was published as provided for by the statute:

Legrand Lockwood, for bond number two hundred and thirty, issued May sixteenth, eighteen hundred and fifty-five, with accrued interest.....	\$972 50
Samuel Scott, for Indian War Bond, with coupon attached, and Treasurer's certificate.....	417 00
Thomas Scott, for coupons of Indian War Bonds and certificates of indebtedness.....	1,600 00
Henry Kohn, for loss sustained by purchasing, in eighteen hundred and sixty-five, forged Soldiers' Relief and Bounty Claims .....	8,905 04
E. W. Morse, administrator of the estate of William H. Moon, deceased, for Indian War Bonds, with coupons attached...	315 92

John Mullan, for professional services rendered the State in swamp land cases.....	2,000 00
Milton S. Latham, for coupons of Indian War Bonds and certificates of indebtedness.....	45,566 00
A. D. Bayles, on behalf of citizens of Trinity and Humboldt Counties, for expense incurred in fitting out expeditions against Indians.....	2,000 00
John I. Meeredy, for loss sustained on contract to perform certain work upon the Asylum building for the Deaf, Dumb, and Blind, for amount to be determined by Board.	
J. S. Emery, for loss sustained on contract for mason work of Asylum building for the Deaf, Dumb, and Blind.....	28,580 60
Isidor Wormser, for Indian War Bonds, with coupons attached, and for three Controller's warrants, issued December first, eighteen hundred and fifty-six.....	768 84
C. H. Reynolds, agent of Edward Dodge, for coupons of Indian War Bonds and certificates of indebtedness (coupons and certificates not accompanying claim).....	21,233 50
C. H. Reynolds, agent of L. C. Clark, for coupons of Indian War Bonds and certificates of indebtedness (coupons and certificates not accompanying claim).....	7,913 69
C. H. Reynolds, agent of Jay Cooke & Co., for Indian War Bonds, with coupons attached.....	6,059 12
C. H. Reynolds, agent of William Hoge, for coupons of Indian War Bonds (coupons not accompanying claim).....	5,120 00
C. H. Reynolds, agent of Clark, Dodge & Co., for Indian War Bonds, with coupons attached (bonds not accompanying claim) .....	441 36
H. C. Rolfe, for Indian War Bond of eighteen hundred and fifty-seven .....	22 37

Of the foregoing claims, we beg leave to report favorably upon the following, and recommend that appropriations be made for their payment:

Claim of Legrand Lockwood, for amount claimed..... \$972 50

It appears that the bond which constitutes the basis of this claim was sent from New York to the Treasurer's office to be funded under the Act of eighteen hundred and fifty-seven, and that it was returned, with the information that the new issue was exhausted. The record in the Treasurer's office discloses the fact that there were two bonds for five hundred dollars, number two hundred and thirty, and that one of them only was funded under the Act of eighteen hundred and fifty-seven. The only doubt as to the validity of the claim was created by their being certain marks upon the face of the bond which gave some appearance of its having been funded; but as there is no evidence that such was the case, we consider the claim a valid one.

Claim of Henry Kohn, for eighty per cent of principal claimed and six years interest thereon..... \$7,284 02

We recommend the payment of this claim, upon the ground that the claimant purchased the forged claims in good faith, at an average price of eighty cents on the dollar, upon the representation, faith, and credit of the genuine certificates of the Adjutant General of the State, and that the powers of attorney to receive the money from the State were delivered to him by the chief clerk of the Adjutant General's office. No one questions that the then Adjutant General of the State was innocent of the fraud perpetrated in his office, but it seems no more than strict justice that the State should reimburse those of her citizens who were led to invest their money upon the faith of the genuineness of his signature. The business of buying and selling these claims seems to have been conducted in this wise: When there was no money in the Soldiers' Bounty and Soldiers' Relief Funds, the soldiers sold their claims and gave the purchaser their power of attorney to receive the money from the State; but when the soldier was at a distance, not being able to attend to the matter in person, he transacted the business through the medium of the Adjutant General's office by sending to that office his power of attorney, they selling his claim for him and delivering to the purchaser the power of attorney. A number of fraudulent claims were concocted by Gelston, chief clerk of the Adjutant General's office, who attached to them similarly fraudulent powers of attorney, and it was such claims as these, certified in the usual way by the Adjutant General to be correct, that the claimant bought, and for which he solicits reimbursement. We think he is entitled to the amount actually expended upon such claims, together with interest at the rate of ten per cent per annum.

Claim of James T. Boyd, for amount claimed..... \$251 50

This claim is for professional services rendered the Commissioners of the Deaf, Dumb, and Blind Institute during the year eighteen hundred and sixty-eight. It appears that these Commissioners were empowered, by Act of the Legislature, to sell the Institute property in San Francisco, which sale was effected in November, eighteen hundred and sixty-seven. But the attorneys of the purchasers objecting to the title and refusing to complete the purchase on that ground, it became necessary to employ counsel for the purpose of having the defect in the title cured. This was effected by the claimant, but the terms of the Commissioners expired without any arrangement having been made by them for his payment, and no part of his claim has as yet been paid. We therefore recommend its payment.

Claim of James T. Ryan for..... \$2,000 00

This is a claim for services rendered the State as War Debt Commissioner. It appears that claimant was appointed on the ninth day of January, eighteen hundred and sixty-two, a Commissioner of the War Debt, in place of J. W. Denver, resigned; and that the amount appropriated by the Legislature (nine thousand dollars) having all been exhausted by the Commissioners and their clerk before his appointment, he was left without remuneration for his services. As the claimant has furnished evidence that he performed the duties of the office, and as the State has made no remuneration therefore, we recommend the payment to him of two thousand dollars, one thousand dollars being deducted on account of services performed by his predecessor.

Claim of Isidor Wormser for three Controller's warrants..... \$300 00

It appears that these warrants, numbers seven hundred and eighty-two, seven hundred and eighty-three, and seven hundred and eighty-five, respectively, were drawn on the Capitol Fund, December first, eighteen hundred and fifty-six, when there was no money in that Fund, and that before the replenishment of the Fund the whole State debt was declared to be unconstitutional. It further appears that these warrants were mislaid at the time the State was funding her debt under the Act of eighteen hundred and fifty-seven, and could not be presented until it was too late to take advantage of the Act. We think these warrants are valid claims against the State and should be paid.

Claim of John I. Meecredy for.....\$25,000 00

We recommend the payment of this claim, to the amount of twenty-five thousand dollars, upon the following grounds:

It appears that the claimant made a contract in August, eighteen hundred and sixty-seven, with the Commissioners for the erection of the Institute building for the Deaf, Dumb, and Blind, to do the whole of the carpenters' and joiners' work, plasterers' work, painters' and glaziers' work, plumbers', gas fitters' and bell hangers' work, and tinsmiths' work, and deliver the same to the Commissioners free of all liens and charges. Subsequently to the execution of this contract, the materials for the walls were changed and various alterations made in the mode of construction, for none of which the claimant was responsible, and by means of which he sustained considerable loss. Further losses were sustained by the increase in the expense of hauling, on account of the sub-contractors for this work abandoning their contract; by the injury or destruction of materials deposited on the ground under the supposition that the work would proceed according to the original contract; by the extra expense of laying floors, etc., caused by the alterations in the masonry of the building, and the rapid rise in the price of lumber and other materials which took place immediately subsequent to the time when the claimant would have completed his contract, had there been no delays caused by alterations in the original plan. Besides, the claimant made his estimates upon the basis of ten hours for a day's work, so that by the enactment of the eight-hour law he sustained great loss. Had there been no such delays as have been mentioned, the claimant would not have been affected by the new law for more than a month; as it was, he was affected by it for more than a year and a half. It appearing that the claimant is indebted to a number of his sub-contractors and material men, we recommend that an appropriation, not exceeding twenty-five thousand dollars, be made to the Directors of the Deaf, Dumb, and Blind Institute, and that they be required to disburse the same in the order and manner following:

*First*—Such amounts to those sub-contractors and material men specified in claimant's memorial as are found to have equitable claims against him for work performed or materials furnished in the construction of the Institute building.

*Second*—Such amounts to the claimant as the Directors deem to be equitably due him.

*Third*—The surplus, if any, to be expended by the Directors in the support of the Institute under their charge.

We recommend the rejection of the following claims:

Claim of James W. Shanklin and John Mullen, for amount to be determined by Board.

This claim is made for services alleged to have been rendered the State in swamp land cases before the United States Surveyor General, Commissioner of the General Land Office, Secretary of the Interior, and Attorney General, under the fourth section of the Act of Congress of July twenty-third, eighteen hundred and sixty-six. We do not consider this claim a valid one, for the reason that the claimants were not authorized, by any one competent to make such employment, to perform the services alleged to have been rendered. The claimants, acting without competent authority, and rather in the interests of their private clients than in that of the State, we cannot consider their claim a valid one.

Claim of John Mullan for..... \$2,000 00

This claim is similar to the one last mentioned, and we therefore recommend its rejection.

Claim of A. D. Bayles, on behalf of citizens of Humboldt and Trinity Counties, for.....\$2,000 00

This claim is made for expenses incurred in fitting out expeditions against the Indians. As these expeditions were purely voluntary and undertaken without competent authority, the State is neither legally nor equitably bound for reimbursement.

Claim of J. S. Emery, for loss sustained on contract to do the mason work for the Deaf, Dumb, and Blind Institute, for....\$28,580 69

We recommend the rejection of this claim, for the reason that no evidence whatever has been laid before us that would tend to prove that anything is due the claimant, either in law or equity.

This disposes of all the claims that were submitted to the Board, with the exception of claims for payment of Indian War Bonds, coupons of such bonds, known as "detached coupons," and certificates of indebtedness issued by the Board of War Debt Commissioners. In regard to these, we beg leave to state that we had neither the time nor the facilities which would enable us to arrive at any definite conclusion as to what were or were not valid claims against the State. At the same time, it would seem to be an imperative duty to institute a thorough investigation of this class of claims, and make provision for the payment of such as have validity. It is certainly time that this business should be finally settled and payment made to those to whom the State has obligated herself. Had all the claims of this class now outstanding been presented to the Board, we would have made an effort to finally settle them all; but as this was not the case, our settlement would, at best, have been but partial, and, even as to the claims acted upon, highly unsatisfactory, because the matter demands more investigation than it is possible for us to give it.

As to the War Bonds of eighteen hundred and fifty-seven, there can be no doubt that the State never obligated herself to pay them, and that none of them at present unredeemed are valid claims against her. The Act which provided for their issue stated distinctly that they were to be paid out of moneys appropriated by the United States, and the bond

itself did likewise. Congress appropriated, by Act of eighteen hundred and fifty-nine, four hundred thousand dollars for the payment of this class of claims, and it would seem by the report of Commissioner Smith of date July twenty-seventh, eighteen hundred and sixty-two, that provision had been made for the liquidation of such as were valid. At all events, the State is neither legally or equitably bound to pay any that may be outstanding. There is but one bond of eighteen hundred and fifty-seven submitted to us, and that was for the trifling amount of twenty-two dollars.

In regard to the twelve per cent War Bonds of eighteen hundred and fifty-one, and seven per cent War Bonds of eighteen hundred and fifty-two, the State expressly bound herself to pay them, in case the United States Government did not. In August, eighteen hundred and fifty-four, Congress made an appropriation for this purpose, to the amount of nine hundred and twenty-four thousand two hundred and fifty-nine dollars and sixty-five cents, which was supplemented two years subsequently by an Act which provided that only such expenses should be paid which had been incurred prior to January first, eighteen hundred and fifty-four; and that before any bond should be redeemed by the Secretary of War, it should be indorsed as correct by the War Debt Commissioners of the State. These Commissioners indorsed as correct the bonds, with interest up to January first, eighteen hundred and fifty-four; and to the holders of the twelve per cent bonds, the coupons of which fell due in September and March, they gave a certificate of indebtedness for the interest from January first, eighteen hundred and fifty-four, to March first, eighteen hundred and fifty-four, as it was necessary to detach this March coupon. The coupons, the interest on which fell due between January first, eighteen hundred and fifty-four, and September first, eighteen hundred and fifty-six, were detached and surrendered to the holders of the bonds, who claim them to be valid obligations of the State. The total amount of these coupons is no less than one hundred and seventy-two thousand eight hundred and sixty-eight dollars and fifty-four cents, none of which, so far as we know, have ever been paid. Many of the coupons must have been lost or destroyed during the long period of time since they were detached, but it is safe to say that at least two thirds of them are still in private hands.

As to the amount of War Bonds now outstanding, it is impossible for us to accurately ascertain. Quite a large amount was issued after eighteen hundred and fifty-four, under the Act of eighteen hundred and fifty-two, many of which must be still unredeemed. A register of all of these bonds is in the Treasurer's office, together with a register of such as have been redeemed. But it has been found, on examination, that these redemption registers are far from being accurate or complete. For instance: the redemption register of the bonds of eighteen hundred and fifty-one shows that twenty-three thousand dollars of them are still unredeemed, while the fact would seem to be, as stated in Adjutant General Kibbe's report of March twenty-sixth, eighteen hundred and sixty-two, that only three thousand dollars of these bonds are outstanding, and these, he supposes, were lost or destroyed, as they had not been presented to the War Debt Commissioners for payment by the General Government. And so far as the new issue of eighteen hundred and fifty-two is concerned—that is, bonds issued under the Act of eighteen hundred and fifty-two, after January first, eighteen hundred and fifty-four, we have been unable to find, either in the Controller's or Treasurer's office, any redemption register for them at all. And yet many of

these bonds were paid by the United States, and they constitute nearly the sum total of the Indian War Bonds now in private hands that can be considered valid claims against the State.

In view of the foregoing facts, we beg leave to recommend that some competent person be appointed whose business it shall be to make a thorough investigation of this class of claims and ascertain what amount of them is outstanding and unpaid. He should also be empowered to ascertain from the records in the office of the Secretary of War what bonds have been canceled by him, and to seek such other matter there as is pertinent to his inquiry; and the War Bond registers and redemption registers in the office of the State Treasurer should be so corrected as to correspond with the facts as found. It would be well to empower such Commissioner to make his report to the Governor within ninety days after his appointment and qualification, and upon such report to authorize the Board of Examiners to audit and allow those claims for which, in their judgment, the State is legally or equitably bound—payment to be made out of any moneys in the General Fund not otherwise appropriated.

The claims, together with accompanying vouchers and evidence, are on file in our office, and can be inspected at any time, or will be transmitted to your honorable body if you so desire.

H. H. HAIGHT, Governor,  
H. L. NICHOLS, Secretary of State,

#### GOVERNOR'S MESSAGE.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, December, 1871.

*To the Assembly of the State of California:*

I herewith transmit to your honorable body my second biennial message, with accompanying documents.

H. H. HAIGHT,  
Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, December 5th, 1871.

*To the Senate and Assembly of the State of California:*

In obedience to constitutional requirement I proceed to give you such information concerning the condition of the State and the operations of its government during the past two years as may tend to facilitate your labors.

While the State has suffered for the lack of copious rains the last and preceding Winters, we may yet felicitate ourselves upon exemption from any great calamities and upon the healthful condition of our mining and agricultural interests.

Despite the depression of some of our industries, the future of California never seemed more promising than it does to-day.

## FINANCIAL CONDITION.

The reports of the Controller and Treasurer, which are transmitted herewith, exhibit the financial condition of the State on the first day of November last, and the transactions of their offices during the twenty-first and twenty-second fiscal years.

The total funded debt on the first day of December, A. D. eighteen hundred and sixty-seven, was stated by my predecessor at five million one hundred and twenty-six thousand five hundred dollars. This statement, however, overlooked an item of twenty thousand dollars, which would have made the total funded debt five million one hundred and forty-six thousand five hundred dollars, independently of Indian war bonds, of which eighteen thousand six hundred and sixty-eight dollars and seventy-eight cents have been paid since that date. Bonds to the amount of two hundred and fifty thousand dollars were issued for the completion of the State Capitol, under the Act of last session. The present funded debt is three million four hundred and sixty-two thousand dollars, and of this amount one million one hundred and thirty-three thousand five hundred dollars are held by the State in the School Fund, and fifty-seven thousand five hundred dollars in the University Fund. The amount of bonds redeemed since the first day of July, A. D. eighteen hundred and sixty-nine, is eight hundred and fifty-six thousand dollars.

The amount of funded debt of this State held by private individuals is two million two hundred and seventy-one thousand dollars, which, added to the amount of bonds held by the State in the School and University Funds, makes the sum of three million four hundred and sixty-two thousand dollars, as stated.

Of the Capitol bonds issued last session nearly the whole amount (two hundred and thirty-six thousand dollars) are held in the School Fund.

There is in the Treasury at present, applicable to the redemption of bonds, the sum of one hundred and forty-nine thousand five hundred dollars, so that the funded debt of the State, after deducting the amount of cash on hand devoted to redemption of bonds is three million three hundred and twelve thousand five hundred dollars, a reduction of one million eight hundred and thirty-four thousand dollars within the past four years. At the present rate of redemption the funded debt, aside from bonds in the School Fund, would be extinguished within the next four years.

The various classes of bonds outstanding, and those held in the School Fund, will appear by reference to the Controller's and Treasurer's reports. In addition to the funded debt there are unpaid Capitol warrants, the amount of which is hereinafter stated. These will be paid by the proceeds of the Capitol tax within the next twelve months. The receipts from all sources during the fiscal year ending June thirtieth, eighteen hundred and seventy-one, were three million three hundred and twenty-nine thousand nine hundred and eighty-four dollars and ninety-nine cents, and the total disbursements during the same year were two million nine hundred and fifteen thousand five hundred and ninety-two dollars and seventy-two cents.

At the session of eighteen hundred and sixty-seven and eighteen hundred and sixty-eight the tax for the General Fund was reduced from thirty and three fourth cents to twenty-two and one half cents on each one hundred dollars of valuation.

This reduction, with large deficiencies to be provided for, and some extraordinary demands on the General Fund for the Deaf, Dumb, and Blind Asylum, furniture for the State Capitol, Mono County bonds, and other purposes, with the unavoidable increase of expenditure in the Insane Asylum, resulted in a deficiency in the General Fund at the last session. The increase of the tax for this Fund to twenty-eight and one half cents will remedy this during the current fiscal year, and the estimate of the Controller of twenty-one and three fourth cents for the General Fund may prove to be adequate, with the increased assessed value of taxable property.

Much embarrassment has resulted, however, from charging all miscellaneous and extraordinary appropriations upon the Fund out of which are paid the salaries of Judges and State officers and the regular expenses of the Prison, Insane Asylum, and other State institutions. It is very desirable that this Fund and the tax for it should be divided and a Salary Fund, Prison and Asylum Funds created. Instead of a tax of twenty-one and three quarter cents for the General Fund, a portion of this rate sufficient for the purpose could be applied to a Salary Fund, and portions to the Prison and Asylums for the Insane and Deaf, Dumb, and the Blind, which are the most expensive State institutions, leaving the surplus over the amount appropriated to lapse into the General Fund at the end of each fiscal year.

In this way the regular operations of the State Government would be provided for without the serious embarrassment which occasionally results from a deficiency in the General Fund.

The rate of taxation for State purposes for some years past has been as follows: In eighteen hundred and sixty-five and eighteen hundred and sixty-six, one dollar and thirteen cents (\$1 13); in eighteen hundred and sixty-seven and eighteen hundred and sixty-eight, ninety-seven (97) cents; and in eighteen hundred and sixty-nine and eighteen hundred and seventy the rate was still further reduced to eighty-six and one half cents.

This tax is made up of the following items: For building the State Capitol, ten cents; Normal School building, two cents; State Prison Building Fund, three cents; School Tax, ten cents; Funded Debt Tax, including Capitol bonds, twenty-three and three quarter cents; Central Pacific Railroad interest, eight cents; Military Tax, one and a quarter cents; and General Fund, twenty-eight and a half cents.

The Funding Act of last session was ratified by a majority of the voters. If it is carried into effect and the bonds provided for are substituted for those now outstanding, a tax of eight cents would be sufficient to pay the interest for the first five years, as the law provides. This would reduce the funded debt tax from twenty-three and three quarter cents to eight cents, a reduction of fifteen and three quarter cents.

The tax for the Capitol can be dispensed with in two years, and the tax would then be reduced from eighty-six and a half cents to fifty-six and three quarter cents, by deducting fifteen and three quarter cents of the funding tax, six and three fourths cents General Fund tax, and ten cents Capitol tax, increasing the military tax to two cents, and levying a special tax of two cents for a University Building Fund.

This leaves the Normal School building tax to be applied to other public buildings after the completion of the Normal School. The tax of eight cents subsidy to the Central Pacific railroad is levied to raise the sum of one hundred and five thousand dollars annually, and the rate of tax will produce each year a larger surplus with an increased

assessment roll. This surplus is payable into the General Fund, and will aid to prevent any deficit in that Fund. This tax now produces nearly double the amount of the subsidy.

The Legislature can carry the Funding Act into effect, or can repeal it, and go on with the payment of the debt as heretofore.

The arguments in favor of the funding bill were briefly these: First—An immediate reduction of taxation for this purpose, to the extent of fifteen and three fourths cents. Second—Furnishing to the School Fund for investment, bonds of this State, instead of seeking elsewhere for securities. Third—Facilitating the equalization of assessments by its provisions.

The arguments against it are: the difficulty of securing the exchange of the old bonds without advertisement for the prescribed time; the discount on the new bonds, and the desirableness of extinguishing the debt. While not strenuous on the subject, my judgment was in favor of refunding the debt, and thereby diminishing taxation, as well as leaving in the School Fund our own bonds for an investment. The subject is commended to your consideration, and to such disposition as in your wisdom may seem expedient.

The prospect of a State nearly out of debt, with a School Fund of two millions of dollars and upwards, constantly increasing, and a rate of State taxation which, independently of such special taxes as may be necessary for public buildings will not much, if at all, exceed fifty-five cents on each one hundred dollars of valuation under a standard of about one third of the real value for the valuation of the Assessor, is gratifying and ought to stimulate all who control our State legislation to continue in the same course of economy which has been pursued for some years past. It should also be borne in mind, as a further argument in favor of economy, that the State will be compelled to expend during the next ten years a very large amount in public buildings for the proper care of our insane and the custody of adult criminals and juvenile delinquents.

I have heretofore referred to the advantage of light taxation as an attraction to immigration, and need add nothing on this subject. The fault of all governmental machinery in every country and in every age has always been that it is too cumbersome and expensive, and bears with too much weight upon productive industry. It is out of this that all taxation and public expenditure must be ultimately paid.

#### EQUALIZATION OF ASSESSMENTS.

The law of last session upon the subject of equalizing assessments was passed in haste, and was designed rather as preliminary to a more perfect system. There is an evil and an injustice here, arising from the different standards either ignorantly or wilfully adopted in different counties, which call for remedy. The system will doubtless be improved by your Honorable bodies at this session. I take the liberty, however, of urging great care and caution to avoid sudden and radical changes in valuations which would fall oppressively upon taxpayers, and especially upon farmers.

The object to be attained is to secure a uniform valuation in the different counties, and one which approaches more nearly the market value of the property.

The report of the Commissioners discloses some gross inequalities, and at least one case of an extensive fraud upon the revenues of the State

by the Supervisors of one of the counties. Your attention is especially invited to the report of the Board, which shows the necessity of a reform in the system.

#### SECRETARY OF STATE.

The report of the Secretary of State is herewith transmitted. The business of his office has been transacted with system and promptitude, and the purchases of furniture for the Capitol have been marked by judgment and economy.

#### ATTORNEY GENERAL.

The state of the various civil and criminal causes to which the State is a party will appear from the report of the Attorney General, herewith transmitted.

The suit respecting the title of the State to that portion of the Yosemite Valley occupied by J. M. Hutchings has been decided by our Supreme Court in favor of the State, and has been taken by the defendant to the Supreme Court of the United States by writ of error. There is no doubt that the appellate Court will affirm the judgment of the Supreme Court of this State. I respectfully recommend to your Honorable bodies to take some definite action to preserve the valley as a public reservation, in accordance with the grant to the State. A small appropriation would suffice to make every part of the valley accessible with ease and comfort, and would add much to its natural attractions.

It will doubtless be resorted to every year by thousands of tourists, if they are not repelled by a system of petty impositions, which will result from allowing the valley to be appropriated to private ownership. I renew the recommendation heretofore made that a liberal compensation be made to Mr. Lamson for his improvements, and that the same course be taken with Mr. Hutchings, when final judgment is rendered against him in the ejectment suit now pending.

#### PURITY OF ELECTIONS.

The Attorney General refers to the paramount importance of preserving the purity of the ballot-box, and adverts in terms of merited censure to the course pursued by Government officers at Vallejo in the recent elections.

The essence of free government consists in the free and voluntary choice of officers by the electors. If this freedom is destroyed, and men are coerced into voting a particular ticket by threat of discharge and fear of starvation, the act of depositing ballots is a mockery and a fraud.

When officers marshal fourteen or fifteen hundred laborers to the polls, destroy the secrecy of the ballot by compelling the use of strips of pasteboard five eighths of an inch wide, printed closely in diamond type, so that alteration is impossible, they aim a blow at the existence of free government, and virtually direct the machinery of Republican institutions to defeat the popular will, upon which they are avowedly based. No partizan or personal considerations should prevent a prompt and effectual remedy for this abuse.

There is another evil which menaces the perpetuity of our institutions, and it is the open practice of bribery at elections. Laws of the most stringent character ought to be enacted to arrest this growing evil. When the time comes that the rank and file of the voters are for sale in

the market, the exchange of republicanism for despotism will be only a question of time, and that a short time. Patriotism under such circumstances would become a theme for jest. It is here, doubtless, that a serious peril lies, and it is aggravated by the power of the great corporations which at the present day seem to be satisfied with nothing short of absolute control of the whole machinery of government. No intelligent man is blind to this peril, and there are not wanting already those who despair of a remedy.

Wise legislation, however, will aid much to correct the evil. It should be made a felony to offer or accept a bribe at an election, and a cause of disfranchisement, and a disqualification for holding any public office. Any officer guilty of this offence should be made liable in a quo warranto at suit of any citizen, and ousted from office if found guilty. This last provision would probably be efficacious.

Corruption at elections is stimulated by the practice of betting money upon the result. This practice is exceedingly pernicious and ought to be declared by statute a misdemeanor and a ground of disfranchisement ipso facto. Laws such as these would go far to afford a remedy in connection with an enactment providing for an uniform ballot on white paper, the passage of which I respectfully recommend.

#### SURVEYOR GENERAL.

The report of the Surveyor General is herewith laid before you, and contains some interesting statistics.

In my first biennial message this paragraph occurs:

"Our land system seems to be mainly framed to facilitate the acquisition of large bodies of land by capitalists or corporations, either as donations or at nominal prices."

In the same message the regret was expressed that any portion of the public lands had ever been disposed of except to actual settlers.

Posterity would hardly credit, without conclusive evidence, that at this age, under a republican government, the largest part of the public lands would be granted in fee to railroad corporations without condition as to price and terms of sale. A body of public lands comprising over fifty millions of acres, and embracing nearly the whole of Washington Territory, destined one day to be a great State, has been granted in this manner to one corporation composed of a few capitalists. The public lands belong to the people, and it is not improbable that such legislation as this, if no other remedy avails, will in the future provoke revolutionary resistance on their part, defrauded as they are of their rightful patrimony.

If the lands had been held for settlement, and only the proceeds at Government price donated, no great objection would have been made; but the system tends directly to reduce the people to servitude and erect over them a despotism.

These grants ought to be revoked by Congress, and in lieu of the land the proceeds granted when sales are made to actual settlers. No vested rights worthy of respect can grow out of such transactions as these, so long, at all events, as the land is not sold by the donees to bona fide purchasers.

In the case of the swamp and overflowed lands a system of reclamation may perhaps render their concentration in large bodies in the first instance necessary; and, indeed, in the case of uplands, where large

tracts have been acquired by purchase, the fault is chargeable to the system, and not to those who avail themselves of it to purchase lands.

Our State laws on this subject deserve a harsher criticism, if possible, than that made two years ago, and I respectfully recommend the repeal of all laws in this State providing for the disposal of public lands, and the enactment of some system, not the parent of land monopoly, and which would furnish those guards against illegitimate speculation that are lacking in the present system. The immediate repeal of all laws in force on this subject, saving rights already vested by entry and purchase, would allow time to frame a system better guarded against abuses; and I also recommend a memorial to Congress in favor of revoking all such grants as that made to the North Pacific Railroad Company, and of substituting for the land itself the proceeds when received from sales to actual settlers.

I have heretofore recommended legislation to prevent the snaring and killing of small birds and singing birds as a measure of great importance to agriculture.

In other countries these birds, which are so useful to the farmer in the destruction of insects, are propagated at great expense; while here we permit the indiscriminate slaughter.

The repeal of the system of "lawful fences" and the enactment of laws making owners of stock responsible for trespass by it will doubtless engage your attention. It is manifestly unjust to compel each farmer who purchases or takes up a quarter section to expend more than the price of his land to protect himself against his neighbor's cattle. Every man ought, in justice, to be required to take care of his own stock or suffer the consequences. The present fence system has been an incubus upon agriculture, which is becoming every year more intolerable.

Upon agriculture, which is the basis of our prosperity, is placed the burden not merely of the cost of fences at first, but of their renewal and repair from year to year.

Public sentiment demands a reform of this injustice, and I doubt not its demand will be heeded by your Honorable bodies.

#### FISH.

Your attention is also invited to the report of the Fish Commissioners. These gentlemen serve without compensation, and have shown a commendable economy. Their report is one of great interest, and valuable results are anticipated from their labors. The law of last session needs some amendments to make it efficient, and these are suggested by the Commissioners.

An experiment has been made in stocking the upper Sacramento with shad, which promises good results. The Commissioners ask the appointment of a Joint Committee on "Coast and River Fisheries," to take charge of this important subject. The publication and distribution of their report cannot fail to be useful, and the legislation recommended will preserve and increase the supply of fish in the bays, lakes, and streams of this State.

#### COMMON SCHOOLS.

The subject of popular education is justly regarded as of vital importance to the maintenance of democratic institutions.

The people of this country are as unanimous as any people could well be on any subject in favor of an efficient system of common schools,

removed from partizan and sectarian influences, where the whole mass of children can receive instruction at public cost. The improvement and growing efficiency of our own common school system is a subject of just pride and of hope for the future.

Vice and despotism are the offspring of popular ignorance; virtue and liberty of popular education. The report of the Superintendent of Public Instruction gives the following figures of results for two years past:

The whole number of children in the State between the ages of five and fifteen years, is reported at one hundred and thirty thousand one hundred and sixteen, of which number one hundred and twenty-seven thousand nine hundred and eight are white; nine hundred and one colored, and one thousand three hundred and seven Indians under the guardianship of white persons; the number under five years of age is sixty-six thousand two hundred and ninety-two; making the total number under fifteen one hundred and ninety-six thousand four hundred and eight, against one hundred and seventy thousand seven hundred and twenty-six, reported two years ago. Four years ago the number under fifteen was one hundred and forty-nine thousand three hundred and six—an increase in four years of forty-seven thousand one hundred and two.

The number in attendance at the public schools during the present year was eighty-three thousand six hundred and twenty-eight; at private schools, fifteen thousand five hundred and twenty-four; attending no schools, thirty thousand nine hundred and sixty-four.

In eighteen hundred and sixty-seven the number in attendance at the public schools was reported at fifty-four thousand seven hundred and twenty-six; upon private schools, fourteen thousand and twenty-six; and upon no school, twenty-four thousand four hundred and eleven. These figures furnish food for reflection. It seems, with all the zeal and interest manifested in this cause by the Superintendent, the teachers, and the public, there are six thousand five hundred and fifty-three children more not attending any school than there were four years ago. Such a fact ought to stimulate to redoubled diligence in the extension of our Common School System, so as to gather within its influence all children between five and fifteen not educated at private schools.

The number of schools reported this year is one thousand five hundred and fifty, an increase of four hundred and sixty-seven since eighteen hundred and sixty-seven. The number of teachers this year is two thousand and fifty-two, an increase of six hundred and sixty-three teachers since eighteen hundred and sixty-seven. The number of new school houses built during the year was one hundred and twenty-five, some of them large and expensive buildings.

The total value of school property is three million three hundred and sixty-two thousand five hundred and eighty dollars and eighteen cents, and the total expenditure for public schools is one million seven hundred and thirteen thousand four hundred and thirty dollars, an increase of one million six hundred and sixteen thousand two hundred and forty-four dollars and forty-six cents in the value of school property, and of four hundred and twenty-two thousand nine hundred and eighty-five dollars and twenty cents in annual expenditure, since eighteen hundred and sixty-seven.

The exhibit would be a good one but for the large number not in attendance, and in reference to this it may be said that the percentage of increase of attendants is larger than that of non-attendants. There

are many of the sparsely settled districts and those now being settled where the maintenance of schools will be difficult for some time to come. In some districts also, especially in the southern part of the State, there is a strange indifference manifested by the people to giving their children school facilities.

The Normal School building in San José was located upon one of the public squares of that city under the law of last session. The progress made in its erection will appear from the report of the Superintendent of Public Instruction. A continuance of the special building tax will be requisite to insure its completion.

#### MILITIA.

The report of the Adjutant General presents the strength of the militia organization and some arguments in favor of its utility.

I regret that at the last session so little heed was given to the recommendations in favor of increasing the efficiency of the companies. They are the right arm of the State in the event of serious disturbance, and as an adjunct to the civil authorities could not be dispensed with. They have not been treated for the past four years with liberality, nor even with justice. Not a uniform has been furnished to the infantry, nor can one be with a tax of only one and a quarter cents. The companies use the old muzzle-loading muskets, which are practically worthless. An appropriation of fifteen thousand dollars would suffice to change two thousand or twenty-five hundred of the muskets now in use into breach-loaders of improved pattern, equal to any demand for service. A tax of two cents would suffice to increase the allowances as they ought to be, especially for the artillery, and to furnish the companies with new uniforms as required.

It is desirable to manifest on the part of the public some appreciation of the zeal, *esprit de corps*, and discipline of the State military, which contains all the elements of a superior body of citizen soldiery, and the State ought either to make a respectable provision for those who give their time freely to its service, or else abandon the organization and trust to fortune for the suppression of riots and mob violence.

A single company of infantry in Los Angeles might, and probably would, have suppressed the recent mob in that city before it had brought lasting reproach upon the State by the barbarous murder of a number of Chinamen, most of whom were innocent of any offence whatever.

It became necessary during last Summer to remove the arms and equipments from the place of storage where they were rapidly going to destruction with rust and mould, and place them in a suitable armory obtained upon what were regarded as favorable terms of rent.

#### STATE PRISON.

The receipts and disbursements at the Prison are given in the report of the Resident Director. The number of inmates on the first day of August last was eight hundred and eighty, and in November last nine hundred and seven (907).

The Resident Director and the majority of the Board in their report make a variety of recommendations, to which your attention is invited.

There is one change needed, however, without which, in my judgment,

it is useless to expect anything like a perfect system of prison discipline and management. This is, that the Lieutenant Governor should be relieved from the custody of the prisoners, and a permanent Warden appointed. A Board of Prison Directors of three, five, or seven ought to be appointed by the Governor, to serve without further compensation than their traveling expenses, as is the case with the Directors of the Insane Asylum.

The Directors should be appointed by the Governor, without reference to partizan politics, and subject to removal by him. The Warden should be appointed by the Board of Directors, and subject also to removal by them; and he should select his own subordinates. It is certainly strange that it should be so difficult to inaugurate this salutary reform. There can be no question of its expediency, both on the score of economy and humanity. At the last session a bill was prepared and introduced into the Assembly establishing this system, but it failed to pass that body, and in lieu thereof a bill perpetuating the present system, and making it, if possible, still more objectionable, passed both Houses, but was not approved. The Warden of a prison where eight or nine hundred men are confined ought to be selected with reference to his aptitude for the care and management of such an institution, and should not be subject to removal with the entire corps of subordinates whenever there is a change in party ascendancy.

There has been a gratifying improvement in the discipline and general condition of the Prison during the past four years. The obligation resting upon us to adopt every available means to make still further improvement in the condition of the convicts and in the management of the Prison is enforced by sentiments of humanity and a regard both for the public interests and the welfare of the criminal. With the change of system heretofore recommended and the erection of additional cell buildings, which are urgently needed, the system known as the Irish system could be introduced. A separate Prison or House of Correction ought to be provided for juvenile delinquents and for such as are confined for their first offence.

At present all the inmates, young and old, those capable of reform and amenable to good influences, and those hardened in crime, are confined together, to the great detriment of the unfortunate young men who are thus educated in vice and turned loose to prey upon society. This evil can only be effectually remedied by a separation of prisoners and providing an intermediate Prison or House of Correction, which has been recommended by my predecessor in office and myself. During the last two years a teacher has been employed to instruct the prisoners, with gratifying results. One hundred and ninety have been taught to read and write since April, A. D. eighteen hundred and seventy. I invite the attention of your Honorable bodies to the report of the Resident Director, which contains many useful suggestions. In the management of the Prison the Directors have studied economy, and have endeavored to make a judicious use of the moneys appropriated; but it must not be forgotten that while it is desirable to reduce the cost of the Prison the reformation of the convict should be the paramount consideration.

The State cannot afford to economise expenditure at the cost of failing to make the Prison reformatory, and such disbursements as are necessary for this purpose ought to be cheerfully made. When the present Board came into office the labor of the prisoners was let to contractors at thirty cents per day per man. The price was considered too low, and the

Board resolved to increase the rate to fifty cents. This was done, and some of the contractors threw up their contracts. To avoid being left with nearly the whole labor unemployed, the price was reduced to forty cents, as there was no possibility then of employing the labor on State account. The present Board adopted the system of advertising for supplies, which has reduced the cost of subsistence and at the same time secured a better quality of provisions. It would occupy too much space to detail the improvement in the condition of the Prison during the past four years. It has been so marked as to attract the notice of all who have visited the institution, and yet with the change of system recommended and suitable cell buildings the condition of it can be still further improved and still better results secured.

The contract system might then be abolished and the Prison possibly be made self sustaining, which can never be done under the present system.

The sole responsibility of the exercise of the pardoning power under the Constitution and laws of this State is devolved upon the Governor. Under an Act passed in eighteen hundred and sixty-eight the Board of Prison Directors are authorized to select such cases as they think worthy of pardon and present the list to the Legislature, and upon the approval of their recommendation by the Legislature the Governor is authorized to act. The practical working of this Act is not satisfactory, and its repeal would be advantageous. The selections for recommendation are liable to be hastily and indiscriminately made, and the Legislature has not the means of acting intelligently upon the report of the Prison Directors. It would be better to leave the sole responsibility with the Executive.

It is an onerous and oppressive responsibility, but the public interests are better secured by having it fixed upon one, than by having it distributed between the Prison Directors and the Legislature.

#### INSANE ASYLUM.

The Reports of the Directors and Superintendent of the Insane Asylum show at present in that institution one thousand and ninety persons, of whom seven hundred and eighty-six are male and three hundred and four female. The care of its insane is a sacred duty resting on the State, and all who are jealous of its reputation for humanity cannot avoid a feeling of chagrin that this large number of these unfortunate beings should be crowded together in quarters so insufficient for their proper accommodation. It has been an arduous task to make adequate provision for the care and treatment of this large number of insane in buildings, the dormitories of which are fitted to contain not more than two thirds of the number.

The great increase in the number of patients has caused a deficiency in the expenditures of the institution, the amount of which will appear from the reports.

This ought to be provided for early in the session. The management of the institution by the Superintendent and assistant physicians has been unexceptionable, and the Directors have been actuated by a single desire to promote the welfare of the inmates, and at the same time to make a judicious expenditure of the appropriation.

The members of the Board are men of good business judgment, and enjoy the confidence of the public, and I doubt not have aimed at economy. I trust the recommendations of the Superintendent will not

be passed by at this session. The inclosing of the grounds so as to prevent escapes, and the building of the north wing, recommended by him, are urgently necessary, and provision for these ought to be made without delay.

It has also become a necessity to provide another asylum in this State, and its location ought to be fixed upon by a Commission of three or more persons, to be appointed by the Governor. The unanimous opinion of medical gentlemen, and of all intelligent men, is that the additional asylum for the insane should be located in one of the counties bordering on the Bay. There are cogent sanitary reasons for this, aside from the question of economy and facility of transportation, so large a proportion being sent from San Francisco.

In this connection allow me to call your special attention to the report of the Commissioner, Dr. Wilkins, who was appointed under the Act of last session to visit the asylums in the East and Europe. It presents a great number of interesting facts and statistics, and a careful perusal of it will aid very much intelligent legislation upon a subject which addresses itself so strongly to the sympathies of every man who has a heart to feel for the affliction of these victims of mental disease.

In enforcing upon your attention the absolute necessity of additional provision for these unfortunates, both at Stockton and in a separate institution, I only second the appeal of the officers of the Asylum and of the Commissioner in his report, which it would be a violation of duty to fail to urge upon you, and to which common humanity requires the Legislature to respond.

The people of this State have reason to be proud of the improvement in their public institutions, and deserve credit for the disposition to make suitable provision for them, but there is danger of a neglect to provide properly for the insane among us which would bring upon the State merited reproach.

#### ASYLUM FOR THE DEAF AND DUMB, AND THE BLIND.

The number of boys and girls in this institution September eighteenth was one hundred and two (102), as follows: sixty-four (64) deaf and dumb—thirty-seven (37) male, and twenty-seven (27) female; thirty-one (31) blind—eighteen (18) male, and thirteen (13) female. The number would be increased doubtless if the people of the State were more generally informed that no charge is made in the institution except for clothing and traveling expenses.

The Directors report a deficiency of twenty-eight thousand dollars (\$28,000), of which more than twenty thousand dollars (\$20,000) appear to be for permanent improvements. The gentlemen composing the Board of Directors, and the ladies who visit the Asylum, give their time without compensation to this benevolent work.

It is a source of gratification to know that the polluting influence of party politics has not invaded the charities of the State during the past four years. If the Prison could be rescued from this influence also, and these institutions could be kept free from this contamination, there would be a great gain to the cause of humanity, as well as to the public revenues.

The reports of the Directors and Superintendent will give a correct view of the operations of the Asylum for the period of twenty-two months ending July thirty-first.

The management of the Asylum by the Superintendent and Assistants

cannot be too highly commended. The estimate of amount needed for current expenses of the next two fiscal years is thirty-six thousand dollars (\$36,000) per annum, or seventy-two thousand dollars (\$72,000) for the two years.

#### STATE HARBOR COMMISSIONERS.

Under the present system, jurisdiction over the water front and wharves of San Francisco is vested in this Board. The Board ask for authority to make a further reduction in the rates of dockage, tolls, and wharfage; also, the purchase of a dredging machine, and recommend an amendment to the present law, placing every part of the water front, including the frontage on Channel street, more distinctly within the jurisdiction of the Commissioners. There is no doubt that the public interests would be promoted by action upon these recommendations.

If the purchase of a dredging machine had been authorized at the last session this work could have been done at much less expense than under the present system.

The sea wall, so far as constructed, seems to answer the purpose, and the plan adopted and thus far pursued has the advantage of economy over any other one advocated. The dockage upon vessels has been reduced from twenty to twenty-five per cent, and there has also been some reduction in the rates of tolls.

Three thousand two hundred and fifty-two feet of the sea wall have been constructed, terminating at a point fifty-two feet north of Howard street. The engineer recommends a reduction of the length of the Market, Mission, and Howard street wharves from six hundred to three hundred feet, and the location of wharves of the latter length between those streets. This would diminish one half the area to be dredged between those wharves.

#### TIDE LANDS.

The report of the Board of Tide Land Commissioners gives the results of the operations of this Board, a summary of which also appears in the Controller's report. The nett proceeds of sales to November first, eighteen hundred and seventy-one, are stated by the Controller at nine hundred and eighty-seven thousand seven hundred and fifty-five dollars and ninety-two cents (\$987,755 92), of which six hundred and seventy-nine thousand eight hundred and twenty-nine dollars and ninety-five cents (\$679,829 95), are deferred payments, not yet realized in cash. The tide lands in Contra Costa and Alameda Counties are advertised for sale on the eighth day of December instant, and together with amounts to be realized from releases and compromises in San Francisco will swell this aggregate considerably. Of the net proceeds of these lands the sum of eight hundred and thirty-three thousand three hundred and thirty-three dollars (\$833,333), sufficient to produce fifty thousand dollars (\$50,000) at six per cent, is devoted to the University endowment, the surplus being payable into the School Fund. The hydrographic survey of the tide lands in Marin, San Francisco, San Mateo, Contra Costa, and Alameda Counties has been necessarily expensive, but is thoroughly done, and will prevent controversies hereafter. The removal of this source of contention from the Legislature has been a great relief to the legitimate business of the sessions, and has secured to public institutions the cash value of these lands.

There are some valuable lands unsold in San Francisco, and beside

these the State title is a cloud upon a large portion of the lots within the one hundred vara survey, owing to the manner in which the lines were run by the United States Surveyor General in delineating the pueblo lands. The Commissioners adopted the policy of releasing at a nominal price the title of the State to such portions of these last named lots as were applied for by the owners. The State has no claim in equity to this property. The present owners have the city title, with fifteen to twenty years of undisturbed possession under a title which has been universally recognized as valid. The time for releases of this character having elapsed it would be both just and expedient to authorize the owners of any parts of these lots north of Mission Creek, within the old city survey, to pay to the County Treasurer of San Francisco for account of the State the price of any lot or part of lot at the rate fixed heretofore by the Commissioners, with the proviso that upon such payment the Treasurer shall issue a receipt, to be acknowledged and recorded, which shall enure to the benefit of the holder of the city title, whoever he may be. In this manner these titles would be quieted without any risk of injustice to any one.

There will be no necessity for the continuance of this Board after the session, as the duty of reselling forfeited lands can be devolved upon the State Board, which consists of the Governor, Controller, and Surveyor General.

#### STATE UNIVERSITY.

The State University has been gradually enlarging its sphere of influence during the past two years, and has now in its classes three hundred and one students, not including those who attend the lectures before the Mechanics' Institute of San Francisco, and who are enrolled as students of the College of Mechanic Arts.

These numbered last Winter about five hundred more, and the same number will probably be enrolled this Winter. There ought to be but one opinion as to the great benefit which this institution will confer upon the State, and I have regretted to notice an impression upon the minds of some that there is a conflict in any respect between the interests of the University and of the common schools.

So far is this from being so, the former is the fit culmination of the latter, and will tend to perfect and develop our system of popular education.

The endowment of the University will not be fully realized for two years to come, and in the meantime some provision is indispensable for its support. A liberal policy toward the University will well repay the State in the future.

Collecting a body of men of scientific attainments and of ripe scholarship, devoted to the higher branches of education, the reformation of abuses as the result of a more elevated public sentiment, the effective advancement of knowledge, which is emphatically power, perfection in agriculture, in metallurgical processes, and in mechanics, as well as in literature, science, and philosophy, are direct results of university education that are worth tenfold the cost. A generation or two must pass away before it would be practicable to found by the liberality of private citizens an institution with the means for usefulness which the State University will afford. No man concerned for the future of California ought to be indifferent to its prosperity.

The question of providing buildings for the University has probably but one solution, and that is in a small special tax devoted to this pur-

pose. A tax of two cents would suffice to provide buildings in Oakland upon an economical plan which would last for some years, and the enhanced value of the blocks now occupied would then furnish ample means for buildings at Berkley. In the meantime an experimental Farm and College of Agriculture could be established at the latter place, which is doubtless in all respects the most desirable permanent site for the institution. No one feature of legislation has tended more to elevate the character of this State abroad than the founding and endowment of a University, with doors open to all, high and low, rich and poor, male and female.

#### GEOLOGICAL SURVEY.

The report of the State Geologist will show the progress made in the survey since its resumption in the Spring of one thousand eight hundred and seventy. I have never doubted the practical utility of the survey, nor the wisdom of its continuance. The maps alone, when completed, would justify a large expenditure to secure them. It is needless to occupy space in enumerating the benefits which have in part resulted and will hereafter more fully accrue from the completion of the survey. It has done much to draw the attention of intelligent men in Europe and the Eastern States to the material resources of California and its varied attractions.

The geological map of the central portion of the State will probably be completed before the end of the session. A pocket edition of the Yosemite Guide Book has also been published, and a large amount of field work done, preliminary to completing the geographical map of Central California, a part of the State comprehending about ninety-five per cent of the population. The first volume of ornithology, embracing the land birds of the continent, west of the Rocky Mountains and north of Mexico, has been published with engravings, the execution of which has been highly commended. The volumes of botany and conchology, are under way, and also the second volume of ornithology, which will embrace the water birds of the Pacific Coast. The most eminent scientific men of this country and Europe have expressed their high appreciation of the survey, and many of them have counselled and advised in reference to the different departments of the work.

#### STATE CAPITOL.

The work on the new Capitol shows for itself. The building on the whole is a creditable one, in spite of some minor defects of plan. The work has been pushed as rapidly as possible since its resumption, and the expense has been, as usual, beyond the estimate. The heating apparatus has been provided at a much heavier cost in money and at much greater inconvenience than if the building had been planned with reference to it originally, and nothing but the knowledge of its absolute necessity induced the Board of Commissioners to incur the expense and trouble of placing it in the building. It will be found without doubt to answer well the object. A very great improvement was made by omitting the flight of steps in front to the second story. This has assisted to give more apparent elevation to the building, and at the same time avoid converting the first story, in which the Supreme Court room and principal State offices are located, into a basement. The change has added to the light and ventilation of the rotunda, and is

one in every respect indorsed by some of the most eminent architects in San Francisco, whose opinions have been sought upon the subject. It also saved an estimated expense of over seventy-five thousand dollars.

It was found impossible to complete the stone figures to be placed in the pediment of the front portico before the session. In order to accomplish what has been done it was necessary to anticipate a large portion—the largest part, indeed—of the next year's tax. The amount of warrants outstanding upon the Capitol Fund on the first day of November is stated in the Controller's report at three hundred and twenty thousand dollars (\$320,000), of which something more than two hundred and six thousand dollars (\$206,000) will be paid this Winter. The whole expenditure upon the Capitol since its commencement, as nearly as can be ascertained from the records of the Controller's office, is one million nine hundred and thirty-nine thousand dollars (\$1,939,000), including the bills for the month of October. The Architect's report will show the items of expenditure since November first, eighteen hundred and sixty-nine.

The estimate of cost to complete the building and grounds is two hundred and forty-seven thousand two hundred and forty-two dollars (\$247,242).

It may exceed this figure slightly, but the Commissioners in their report estimate that the continuance of the Capitol tax of ten cents for two years will furnish funds sufficient, after paying the outstanding warrants, to complete the building and grounds, and also the Governor's Mansion and grounds, and this is probably a safe estimate.

Of the special appropriation of two hundred and fifty thousand dollars (\$250,000) made at the last session, the sum of fifty thousand dollars was devoted towards the purchase of ground and the erection thereon of an Executive Mansion. If it was expected that this sum would purchase a block of ground and erect upon it such a Mansion as would be suitable for the purpose, the expectation was not reasonable. The sum of fourteen thousand dollars (\$14,000) was expended in the purchase of the block, and the remainder of the sum allowed has been expended upon the building, which is well constructed as far as it has progressed, and if finished according to plan will be one of the most substantial and best arranged dwellings in the State. The first plan made by the Architect was rejected by the Commissioners as too expensive, and the present plan was adopted in its stead. The estimate of the amount needed to complete the building is thirty-eight thousand dollars (\$38,000).

It is proper in every aspect that the State should provide a suitable residence for the Governor, and the special advantage of it consists in affording him a residence where the members can meet socially during the session and enjoy those opportunities for conference and interchange of views so desirable to prevent misapprehensions and promote harmony of action between the Executive and Legislature.

The amount already expended upon the Mansion and grounds exceeds the sum of fifty thousand (\$50,000) by about sixteen thousand dollars in materials and labor drawn from the Capitol building. This was necessary in order to secure sufficient progress in the Mansion to protect it effectually from the weather, and with the hope, at first, that it might be completed this Winter; but this was found to be impracticable. It will be expedient to authorize the Capitol Commissioners to expend upon the Mansion such sum as may be necessary to complete it, with the grounds

and outbuildings, and to devote such specified sum as may be necessary to furnishing the house when it is finished.

#### REVISION OF THE STATUTES.

The Commissioners appointed under the Act of last session to revise the statutes have been diligently employed since their appointment in the work of arrangement and revision.

The laws as arranged by them are divided into four Codes: a Penal Code, a Code of Civil Procedure (both finished), a Civil Code (also finished), and a Political Code, which will be ready probably in January.

That the Commissioners have expended much labor and care upon the work is evident, and such portions of it as I have been able to examine have impressed me very favorably.

The Penal Code and Code of Civil Procedure embody in the main the various provisions of law already in force upon these subjects, systematically arranged, with such amendments as are obviously desirable.

Most of the changes made in the Civil Code are drawn from the Civil Code of New York, a work which bears the impress of thought and labor, and, if adopted, will be an important advance in legislation. The provisions taken from the New York Code have been subjected to careful scrutiny.

Considering that no greater political blessing can be conferred upon the people than simplicity and clearness in their code of laws, and the adaptation especially of the latter to the wants of this commercial age and to the changes which the progress of political science has rendered inevitable; considering the importance of uniformity in laws of a general nature, and of putting an end to the flood of unnecessary local and special legislation which encumbers the statute books, and seems to have no object, except to swell the volumes in bulk, and occupy the time of the Governor and Legislature during the session; and having in view the difficulty of securing a satisfactory revision, the unavoidable expense attending it, and the improbability of a committee of the two Houses being able to devote as much time as they would desire to a thorough examination of the Codes, it was deemed best by my successor in office and myself to request two members of the bar of known qualifications and professional experience to make an examination of the work of the Commission, so as to facilitate the labors of any Joint Committee which might be appointed by the Senate and Assembly. I trust this step will be sanctioned by the Legislature, and that proper compensation will be made to these gentlemen for their time and labor. It was a duty not sought or desired by them, but simply accepted in compliance with a request made. A copy of the correspondence is herewith transmitted.

#### CORPORATIONS.

The great feature of modern civilization is the combination of capital in associations for the execution of enterprises involving too much capital to be undertaken or too much risk to be incurred by individuals. These associations are provided for here under general laws, and have doubtless aided very much in the rapid development of the material resources of this State as similar ones have done in other States. They are usually endowed also with special franchises or privileges. In the

case of railways the sovereign power of eminent domain is exerted in their behalf, and I feel bound to say that it has been exerted in this State in some instances oppressively and without a just regard for the rights of private citizens.

I am not wanting in appreciation of the great advantages to accrue from a development of our railroad system, but this should be made in harmony with the rights of private citizens to the possession and enjoyment of their property. The Constitution declares that private property shall *not* be taken for public use without just compensation. In this State, in the face of this provision, corporations are permitted to enter into possession before the final termination of proceedings for the condemnation of property and of course before any compensation is in fact made to the owner. Indeed, I cannot avoid the conviction that the right of the citizen to his property and the force and effect of constitutional provisions have been lost sight of, and the organic law virtually abrogated, in order to facilitate the operations of corporations.

Courts cannot now be justly condemned for following a current of judicial decisions, and where the current is so strong that the Courts feel unable to afford a remedy one ought to be promptly applied, either by the legislative authority or by a change in the organic law.

The sanctity of private property cannot be too jealously guarded. Its real or supposed violation has been the origin of the overthrow of Governments and of more revolutionary resistance to authority than any one cause, perhaps, or than all other causes combined.

In this State, prior to eighteen hundred and sixty-nine, the right of the Legislature to provide for the taxation of private property in aid of railroad corporations had been acquiesced in with very slight opposition, and laws providing for the issuance of county bonds to these corporations to aid the construction both of general and local lines of road had been enacted at several sessions, including the last session, without any considerable opposition, except to the details of the measures.

The main principle involved met with so general a concurrence that opposition to it seemed idle. At the close of the last session my own attention for the first time was seriously fixed upon the results of this kind of legislation in other States, and the probable consequences of it here. The more I reflected upon it and examined it the stronger was my conviction that it was not authorized under the Constitution, if the question could be regarded as an original one, apart from previous decisions, and at all events that if constitutional it was fraught with mischief and injustice, and would result in great evil to the State unless promptly arrested. The question whose duty it was to endeavor to arouse public sentiment and seek to array it against the system, was one that did not admit of much doubt. Public office brings with it certain manifest duties and responsibilities. Any Executive, placed in office to guard the interests and promote the welfare of the people, who would permit himself to be prevented from acting upon his clear and deliberate judgment, either by fear of abuse and calumny, or of a charge of inconsistency, would be unworthy of his position and of public confidence. I did not give myself much concern as to either result, but after forming such opinions complied with a plain duty in urging the people of the State to oppose every method of taxing private property for the benefit of corporations of any character. It is not to be denied that many whose good faith could not justly be impugned took a different view of the subject, and deemed the system of subsidies to be not only constitutional, but just, expedient, and indeed necessary. I have no disposition to reflect

upon those who entertained these views, but the people in the recent Conventions of both parties have emphatically declared against every species of taxation for the benefit of private corporations, and in favor of repealing the five per cent law, and of amending the State Constitution so as to prohibit all such legislation in future. That the Legislature will give effect to the popular will so clearly expressed does not admit of doubt.

Aside from the question of eminent domain and of taxation of private property, another of great importance to the people is the subject of regulating the charges upon railways.

This power is vested in the Legislature and is exerted in the general law under which these corporations are formed. The present maximum rate of fare is ten cents per mile, and of freight fifteen cents per ton per mile.

These rates are so excessive that in fact they are never charged or collected. Complaints are made, however, in some sections that the railway charges for freight are so high as almost to prevent the use of the lines for transportation, and similar complaints are made as to the fares.

The rates should be reduced to such figures as would be just to the public and at the same time leave the corporations a fair profit for the business.

#### NEW APPORTIONMENT.

The census of eighteen hundred and seventy renders a new apportionment of Senators and Assemblymen necessary at this session. From an examination of section thirty of Article Four, and section fourteen of the Schedule of the State Constitution, it would seem that the spirit of that instrument requires the State to be divided into Senatorial and Assembly Districts. If this duty is not imperative, it is certainly expedient to make such division, especially when the City and County of San Francisco is entitled to more than one fourth of the members of each House. A representation by districts would secure a more just representation, and doubtless a higher grade of qualification in the members. If the City and County of San Francisco becomes entitled to twenty-one or twenty-two members of Assembly, it should be divided into as many Assembly Districts, and so with every county entitled to more than one member.

The minority in the county would have in this way a better opportunity of securing some representation.

#### APPOINTMENTS TO OFFICE.

The useful administration of public affairs depends to a great extent upon the manner in which subordinate offices are filled.

When resort is had to the agency of nominating conventions or legislative caucuses the public interests are usually lost sight of. Subordinate offices of a city should be filled by the Mayor, and of the State by the Governor, with power of removal.

Where one responsible source can be appealed to by the public, abuses will not be so likely to occur. No argument is needed to show that a chief magistrate of a city or State, careful of his reputation and of the public good, will not be so liable to commit errors in selections for public trusts, while in the other cases there is no adequate sense of responsi-

bility, and too often in nominating conventions an utter disregard of the public interests.

A Board of Public Works in San Francisco, to assume charge of the various departments of public works now in the hands of Commissioners, seems to be desired by the citizens generally, and if selected in this way would doubtless result advantageously.

#### STATE BOARD OF HEALTH.

The report of the State Board of Health, by its Secretary, Dr. T. M. Logan, herewith transmitted, contains much interesting statistical matter respecting the sanitary condition of the State and its meteorology. A cursory perusal of it will satisfy any one of the wisdom of creating this Board, and the practical as well as scientific importance of its investigations.

The report will well repay examination.

#### IMMIGRATION.

The importance of inviting and facilitating the immigration of a farming population from the Eastern States and Europe has been felt by all intelligent men in California, and was presented to the Legislature at the last session for their consideration and action. No part of the world offers inducements to such immigration equal in all respects to the Pacific Coast of the United States. The advantages of California in climate, soil, and products need only to be known and reasonable facilities offered in order to induce a large influx of the class which we most need. California may be said to lack nothing but population, but the supply of this can be materially hastened by a moderate annual expenditure to disseminate accurate information on this subject in the Eastern States and Europe.

The most important work in this direction which has been performed as yet has been done by the California Immigrant Union, an association composed of public spirited citizens, which has been supported hitherto by private contributions. A moderate appropriation to enable this agency to extend its operations for the next two years would be doubtless beneficial, and better results would probably be secured than by the creation of any salaried office for the purpose.

No more important subject can engage your attention.

#### CONSTITUTIONAL CONVENTION.

The defects in our present State Constitution are so numerous that nearly every Article could be amended with advantage.

There are two amendments now pending to section thirteen (13) of Article eleven (11), also amendments to sections one (1), three (3), five (5), seven (7) and ten (10) of Article six (6), to section one (1) of Article nine (9), and to section two (2) of Article four (4). The amendments can be found at pages nine hundred and three, nine hundred and four, nine hundred and five, and nine hundred and six, of the laws of last session, and have been published as the law requires.

There is a defect of phraseology in the proposed amendment to section three (3) of Article six (6).

Without occupying space to point out the various particulars in which the Constitution requires change in order to adapt it to present needs, it

is evident that the process of legislative amendment results in making the Constitution a piece of patchwork, and is inadequate to accomplish the desired result.

Our judicial system needs remodelling, and the provisions relating to the assessment and levy of taxes need to be made more elastic. I have for some years regarded a Constitutional Convention as desirable, and its necessity seems to increase every year. The expense attending it need not be onerous, because the best men in the State would doubtless consent to serve in it for a moderate compensation. Our present Constitution was framed more than twenty-two years ago, and, as might be supposed, the whole instrument needs careful revision.

I therefore recommend that the necessary steps be taken to call a Convention to revise our present Constitution and frame one better adapted to the wants of the people and to the progress which the last twenty years have made in the science of government.

#### RETROSPECT.

I have thus made such recommendations as seemed to me proper and communicated such information as appeared to be desirable respecting the condition of State affairs. A brief review of what has been accomplished by those who during the past four years have had the administration of the State Government is not at this time inappropriate.

The faithful custody and disbursement of the public revenues; the payment of about one third of the State debt; the reduction of taxation from one dollar and thirteen cents (\$1 13) to eighty-six and one half cents (86½); the improvement in the Prison buildings and in the discipline and management of the Prison; a better system for the government of the Insane Asylum; the completion of the Asylum for the Deaf, Dumb, and the Blind; the organization and endowment of a State University upon a basis which must secure it against the invasion of partizan politics; the progress in completing the State Capitol; the prevention, to so large an extent, of special legislation; the progress made toward a thorough revision of our statutes, and the perfection of our revenue system by equalizing assessments; the successful disposal of the tide lands of the State; the repeal of a vicious system of bounties, and the overthrow of the subsidy system, which levied taxation and created debt for the benefit of private corporations; the large increase of the Common School Fund and the extension and improvement of the school system; the erection of a State Normal School; the more thorough arrangement of the State archives in the offices of the Controller and Secretary of State; the organization of a State Board of Health, for the collation of statistics of hygiene; the law for the preservation of fish in our bays, lakes, and streams; the prosecution of the geographical and geological exploration and survey, constitute an imperfect summary of the administration of the State Government for the past four years. This period has been an eventful one in the history of the State in other respects. One continental line of railroad has been completed, and three others are in progress, and our internal railroad system is being rapidly extended. The great industries of the State have undergone a healthy development, notwithstanding the temporary stagnation of labor and capital occasioned by two unusually dry seasons. Enterprises for the irrigation of the uplands in the San Joaquin and Sacramento Valleys and for the reclamation of the swamp and marsh lands have been entered upon, the success of which promises results of the greatest importance and value

in the future. Our mining, manufacturing, agricultural, and commercial interests have prospered.

In terminating my official relations with those associated with me in the administration of the State Government for the past four years, it would be unbecoming to fail to acknowledge my indebtedness for uniform cordial support and the faithful efforts made to discharge their several duties.

Four years ago I was summoned by the partiality of my fellow citizens from a congenial profession to assume charge of the Executive Department of the State Government. The trust is one of the gravest character, and in my inexperience of public affairs was accepted by me with hesitation and with diffidence. If I have not accomplished all that was desired for a State to which I feel bound by so many ties, it is not, at least, too much to claim that some substantial good has been done and much mischief prevented.

In transferring executive responsibilities to my successor, I invoke for him a just and considerate judgment of his efforts to protect the public interests, and a hearty support in all measures to promote the public welfare.

I trust that under the guidance of him and his successors our noble State may advance in a career of solid prosperity; that its people may progress in intelligence and morality; and above all, that a good Providence may inspire them with that love of public virtue which has been well said to be, "after religion, the brightest ornament of the mind of man."

INAUGURAL ADDRESS OF GOVERNOR BOOTH.

FELLOW CITIZENS :

Established custom requires that the Governor of the State at the beginning of his term of office shall briefly outline the policy he desires to exemplify in his administration. I discharge this duty not without diffidence, for I am fully aware that experience in the execution of the laws as they are can alone give that exact knowledge of their details and actual working which is of the highest value in forming an opinion of their efficiency and of the necessity of amendment.

The statement of general principles is comparatively easy; their practical application to affairs is more difficult, and to some extent experimental. Not every theory will bear the test of practice, and too much legislation is one of the recognized evils of government. One of the most philosophical and correct thinkers of modern times has affirmed that the wisdom of the legislator is oftener shown in the repeal of old statutes than in the enactment of new.

That government will be best which confines itself most strictly within the sphere of its duties; which, recognizing the sacredness of personal freedom, imposes no more restriction upon the individual than is necessary for the safety of society, and whose laws, like those of nature, are impartial in design and general in their operation. The great mass of the people neither expect nor desire any benefits from government which are not common to all. There will always be, however, an active few seeking the advancement of their own interest by legislation, and they will never be wanting in specious arguments in their own behalf; while the public welfare is apt to be silent until it is injured.

#### TEST OF LEGISLATION.

The most necessary laws will often confer incidental personal advantages. School houses and highways will best accommodate those who live nearest to them; public buildings may advance the value of contiguous property; public offices involve the payment of fees and salaries to individuals.

From the nature of things it is impossible that law should equalize human conditions. There is one test, however, which should be applied to every measure of legislation—is the general good the object, and individual advantage the necessary incident? or is individual profit the object, and the general good the incident or pretext? It should always be remembered that government is only the agent of the people for specified purposes; that it should never attempt to do for the people what they can as well do for themselves, and that, having nothing of its own to bestow, it cannot give to one without taking from another. The law of compensation is inexorable, and in political economy it will be forever true that to seek a partial good is to incur a general evil.

No body of men was ever wise enough to adjust the conflicting interests and direct the various industries of a large community. To attempt it is to disturb the equilibrium of society. Every citizen has the same right to protection from his government. Under the security afforded by a just government, extending equal protection, enterprise and labor will find their most profitable channels, character its best development, and society its most harmonious organization. Brilliant schemes that promise immediate benefits in a particular direction appeal strongly to the imagination, but their highest success is too dearly paid for by the sense of injustice which impairs the respect for law and weakens the ties of patriotism.

#### IDEA OF GOVERNMENT.

It follows that my own idea of government is that law should be the simplest possible expression of the necessities of society, and administration a matter of business, not of show. It does not follow, if we all agree in this, that we shall be able to realize our ideal. I trust, however, we shall honestly try.

#### LOCAL AND GENERAL LAWS.

In a State so large in area and so diversified in natural and artificial resources and conditions as ours, some local regulations will always be necessary. It is the part of wisdom that the communities immediately interested should determine these for themselves, and State laws may be made general by conferring upon local authorities sufficient powers

for local government. As the State, however, is directly interested in the credit of each of its political subdivisions, and is charged with the duty of protecting every citizen from burdensome exactions, care should be taken to interpose proper restrictions against the creation of debts, the levy of excessive taxes, and the appropriation of money to private enterprises.

The provision of the Constitution which prohibits the creation of a State debt without a popular vote will be of little practical utility if the cities and counties are allowed to contract obligations which become a charge in detail upon the property of the State. Subject to these limitations, and under proper regulations to secure uniformity in the operation of general laws, every county, town, and city should be self-governing in everything which concerns its local affairs, and the Legislature be relieved of the embarrassment of considering measures of special application. If the theory of popular institutions be true, government should be brought as near the people as possible, that it may be directly amenable to public opinion, its mistakes earliest realized, and most easily remedied.

#### MUNICIPAL GOVERNMENT OF CITIES.

It is sometimes conceded that the democratic theory fails in its application to the municipal government of large cities. If it does, necessarily its ultimate failure will be entire, for diverse principles of government cannot permanently obtain in the same general system, and the tendency of population is more and more toward centralization. Perhaps the cause of failure may be found rather in the methods of application than in the principle itself. The city, where public opinion is most concentrated, and its great organ, the press, most powerful, where the interests to be affected are most immediate, should be as capable of municipal self-government as the State and nation are of general government. The experiment should be fairly tried, without divided responsibility, and with the certainty that the municipal regulations of a city, being made by itself, will be such as it deserves.

#### REVENUE AND TAXATION.

The most important and difficult functions of the State Government relate to revenue and taxation. To combine economy with efficiency in administration and to apportion taxes equitably are the ever recurring problems which address themselves to the legislator and political economist. In public as in private life, economy requires the sacrifice of show to substance and the wise adaptation of means to ends. Blind parsimony may prove as wasteful as wilful extravagance. The people expect their representatives to deal honestly with them, to make appropriations intelligently for the necessary purposes of good government, and to exact strict accountability for their proper expenditure. No offices should be created for the sake of affording places; the cost of public buildings should be limited to fair estimates; appropriations for necessary expenses of State institutions (as prison, asylums, etc.) should be sufficient, so that demands against the State should not be discounted while money is lying idle in the General Fund, and every care should be taken to prevent the credit of the State from being pledged, directly or by implication, beyond the exact authorization of law.

The fiscal affairs of the State should be managed as a prudent business man manages his own, paying well for services rendered, and for no more. Every dollar of taxation represents the labor of some one—labor contributed to the State for the common good, to the "commonwealth," but which is felt as an unjust exaction, a wrongful use of arbitrary power, when devoted to individual or partial benefit.

#### DEFECTS IN OUR SYSTEM OF TAXATION.

A very large proportion of the revenue of the State is raised by direct taxation upon property.

The Constitution requires that taxation shall be uniform throughout the State. "All property in this State shall be taxed in proportion to its value, to be ascertained as directed by law; but Assessors of town, county, and State taxes shall be elected by the qualified electors of the district, county, or town in which the property taxed for State, county, or town purposes is situated." The difficulty in giving a literal construction to the final clause without the most complicated and expensive machinery seems insuperable, as is ably shown by Commissioner Lindley in the preface to the Chapter on "Town Governments," in the report of the Revision Commission.

No scheme of taxation has ever been devised which was absolutely just. Perhaps none can be. The theory of our Constitution on the subject is perfectly fair; its failure in everything except raising the necessary revenues is confessed. The burdens of taxation are practically distributed as follows: The non-taxpayer feels them in the increased expense of living, and if he depend upon his daily labor, as over taxation discourages industrial enterprises, in diminished wages and diminished opportunities of employment. Among taxpayers the proportion paid by each is in inverse ratio to his ability—the wealthiest paying the least percentage on the value of their property. There are exceptions, but probably not more than to every general principle. A perfectly just system, if attainable, would reverse this rule.

If every member of the community knew that he was called upon to pay only his just proportion of the necessary expenses of government, no obligation would be more cheerfully met. As the distribution is felt to be unfair, each is apt to fancy himself the greatest sufferer, and to look upon the Assessor and Collector as his natural enemies. Too low a valuation in one county is made the excuse for one still lower in another, and no individual willingly returns his property at its full market worth, knowing that the rate has been fixed on the assumption that not more than fifty per centum of all values will be reached. Under our Constitution, while a "State Board of Equalization" may be very useful in bringing gross abuses to light, it is doubtful if its powers can be more than moral, or extend beyond recommendations and instructions. The difficulty of determining by a single Board the values of real estate and visible personal property, is manifest in a State so large and of such varied conditions as ours; while moneys and solvent debts, not evidenced by public records, so easily elude observation, and the latter are susceptible of such varied definition, that the old system of torturing the body by rack, thumb screw, and lash, and the modern device of torturing the conscience by oaths administered by the Assessor, have alike failed to fully disclose them to the tax gatherer.

Apportioning the assessment of a railroad to the various counties through which it passes, leads to the absurdity of attempting to estimate

the value of a road cut off from connections at both ends, and to inquire into the probable worth of the iron and ties, "as they lie," for purposes other than the only one for which they are fit.

Between the perplexing questions whether the shares in a corporation should be assessed to individual holders, the market value of the property belonging to the incorporation assessed to the company, or the value of the franchise be included, the rule is usually adopted which yields the lowest valuation.

The law which allows a property holder to cancel a tax by showing some technical irregularity is a premium on litigation without risk, and enables large taxpayers, individual and corporate, to dictate their own terms of compromise.

Our system not only fails in proper distribution, but its influence is demoralizing; and every system which largely involves the exercise of individual discretion and the universal administration of oaths to parties in interest will have the same result.

#### PLAN OF TAXATION SUGGESTED.

Since it is practically impossible to impose taxes directly upon all property according to its value, the question ought to be seriously considered whether they may not be so imposed as to "equitably distribute themselves." A tax upon land, if uniform, becomes a fixed quantity in the calculation of its value; it is a known encumbrance, and modifies its price. To that extent land values will adapt themselves to a uniform rate of taxation. If land values (including, of course, village, city, and country) alone were taxed, the revenue of the State would be in the nature of a reserved rent, stipulated for at every transfer, and modifying the consideration at every sale. If that policy had been originally adopted, speculation in unoccupied lands would have been in some degree prevented, the lands would be more generally cultivated by owners, and bear the whole burden of taxation with more ease than they now do their proportion, leaving all improvements and personal property free. The vested rights of land owners will probably forever prevent a recurrence to this policy.

I beg to submit for public consideration the brief outline of a plan, for some of the suggestions of which I am indebted to the very able report of the "Commission on Local Taxation," recently appointed by Governor Hoffman, of New York.

Lands, other than town, city, and suburban lots, to be classified, the Assessor to determine the class to which each tract belongs, when the law will fix its value for purposes of taxation. The classification could be so adjusted as to discourage the holding of land in large bodies for purposes of speculation, and made effective to that end by recognizing possessory rights and inchoate titles as taxable. The State to determine the value of the franchises of such corporations as railroad, banking, gas companies, etc., by aggregating the market value of their stock and bonds, collect a fixed rate per centum on the whole, and give the counties and cities a fair equivalent for their right of local taxation. Moneys to be indirectly reached by a stamp tax on notes, bonds, mortgages, etc. This would leave town, city, and suburban lots, and personal property other than moneys and debts, to be assessed by appraisement.

I have dwelt upon the whole subject at some length, as any radical, and I believe, any beneficial change in our revenue system requires a

change in the Constitution, and this is the only opportunity I shall have of officially addressing the people directly.

I know the suggestions offered are imperfect; I trust, then, general discussion will result in the maturing of some plan which will apportion taxes more equitably, collect them more cheaply, and in a greater degree check one of the growing and threatening evils of our time—land monopoly. The theories of the most advanced writers on political economy and the practice of the civilized world outside the United States, condemn our present system as cumbersome in machinery, unjust in distribution, and demoralizing in influence. Our constitutional provisions, like many other laws, practically defeat their own theory.

#### SUBSIDIES.

It is the history of every country that with increasing wealth there is an increasing tendency toward centralization, and a growing danger that aggregated capital will obtain undue political influence. "It is one of the problems of government to prevent the ruling power from becoming all-powerful." Whether the ruling power is found in numbers, where it is supposed to be, or in money, where it too often is, every care should be taken to restrain its exercise within the bounds of justice. In administering the government we are called upon to consider not only immediate material advantages, but ultimate moral effects. It is certain that where money is a political power at all, there is a constant danger that it will become all powerful. It is the most active principle of society, forever seeking its own, and not apt to be content with that. When the accumulation of wealth is the legitimate result of energy and sagacity, it is a stimulant to industry and enterprise, and their just reward; when conferred by favoritism of law, it is first an incentive to, then a source of political corruption. If any favors are granted at all they should be to the weak, and not the strong. But the law should be no respecter of persons, if for no other reason, because favors granted to any are certain to gravitate to the strongest power.

These considerations, together with the manifest injustice of weighing benefits to some, against injuries to others, even if the benefits preponderate, have had a determining influence in forming public opinion on the subject of State and local subsidies to railroad and other corporations. In order to give effective expression to the pronounced will of the people, the Act known as the "Five Per Cent Law" should be repealed, and the necessary steps be taken to amend the Constitution so as to prevent similar legislation hereafter.

#### FARES AND FREIGHTS.

The right of the State to regulate the rate of freights and fares on railroads is founded on the fact that every railroad invokes the exercise of one of the State's highest prerogatives—the condemning of private property, in its construction. The Legislature should exercise this right with due consideration, to protect the public from overcharges, and at the same time afford proper guarantees to invested capital, and give liberal encouragement to the building of railroads. The present rates were established at a time when the standard of values was much higher than now, and when the construction of railroads in this State was regarded as a costly and hazardous experiment. That they are too high is a fair deduction from the facts that they are not less than three

times the average rates in the States east of the Rocky Mountains, and that the local rates allowed are out of proportion with the through rates charged. It requires no argument to prove that freight and passengers can be transported at a lower rate per mile one hundred miles than fifty; and it is equally clear that no system should be tolerated which will allow a higher charge in the aggregate for transportation of fifty than a hundred miles, or under which a shipper may be compelled to send his goods some hundreds of miles westward to find the cheapest initial point for their eastern transit, over the same road.

It is argued that no rates should be established by law, as competition is the best regulator of prices. Practically there is no local competition, and we cannot ignore the tendency toward a general consolidation of all the railroads in the United States—a consummation which, if reached, will create a power greater than any single State, and the rival of the General Government. It is urged with some degree of plausibility, that the interests of railroads and the public are identical, and that corporations owning roads will find by experiment the point of agreement. It is a fair answer to this, in terms at least, that the public, whose interest is general, has the benefit of the same experience, and would be as likely to come to a correct conclusion as the corporations, whose interest is specific. In fact, however, the interests of passengers and shippers and of carriers are not identical. The one is for the lowest rate consistent with safety, the other for a rate that will yield the largest revenue with the least expense. The Legislature represents both, and should accord to each that just and enlightened consideration which is due to every interest and every species of property in the State.

#### RELATIONS OF STOCKHOLDERS TO CORPORATIONS.

The undue political influence and financial control that many corporations have assumed, is not the only evil presented by them. In their internal administration, between majorities and minorities, directors and stockholders, cases of the grossest injustice are constantly arising. It is not uncommon to find one class of stockholders enriching themselves from a company which impoverishes another. So common is this, especially with mining companies, that it has become proverbial and grown into a distinct and disgraceful code of morals, one of whose tenets is, that to own a majority of stock or a controlling interest is equivalent to owning it all.

No stockholder should ever be allowed to hold any interest in a corporation which is distinct from and may become antagonistic to the interest of the company as a whole. The attempt to do so on the part of any officer of the company should be regarded as a breach of trust, and so punished. And the organization of corporations within corporations is a refinement of subtlety and fraud which should be positively prevented by law.

#### FREE SCHOOLS AND COMPULSORY EDUCATION.

The American system of free schools is one of the most beneficent outgrowths of our history. In some other countries education is as general and as free, but in none is the principle so well recognized that independent manhood is an object of greater solicitude than a powerful State; that man should be educated for his own sake, and not as a part of governmental machinery; that he is higher than the State, and that

society and law are valuable only as they enable him to become more a man. The right of every child to an elementary education is as sacred as his right to air and light; to deprive him of it is to deprive him of the sixth sense of civilization, and in the future will remand him to a pariah caste. Public sentiment in this State in favor of "compulsory education" is general, and not partisan. It does not propose to interfere with the right of the parent to select a school for his children or to educate them at home, but to enforce the right of the child as a member of society which he himself is powerless to do. The statutes of Michigan, Texas, and other States that have legislated upon this subject may be studied with advantage in framing our own.

#### THE RIGHT TO EDUCATION INDEPENDENT OF COLOR.

The amendments to the Federal Constitution which make the rights of citizens independent of color have been so generally acquiesced in that it is a part of the political creed of both the great national parties to leave them undisturbed. The impropriety of imposing the duties of citizenship upon any class of persons, and depriving them of the privileges which fit them for a proper discharge of those duties, is manifest; and the injustice of compelling any parent, under penalty, to educate his children, and denying him an equal opportunity with all others to do so, while taxing him for the support of schools whose doors are closed in his face, is too gross and palpable to be allowed. No republican State can afford to violate the fundamental law of justice by making arbitrary distinctions among its citizens, or to dishonor any one for an accident of birth who may be called upon to peril his life for his country. Whoever is clothed with the dignity of American citizenship should be able to stand erect in the consciousness that he is the equal before the law with every other citizen—that the Republic which claims his allegiance knows neither high nor low, nor rich nor poor, but recognizes all citizens as "peers of the realm." All badges of distinction that are relics of the slaveholding era of our National history should pass away with the system they commemorate. Until the State graduates penalties, it cannot justly graduate opportunities. The doors of our schools should be open to all, with no prejudice of caste without, and no sectarian teaching within, which will prevent any child from freely entering.

#### REVISION OF THE LAWS.

One of the most important subjects which the Legislature will be called upon to consider at the present session is the report of the Board of Revision Commission. Any one who has often had occasion to examine the statutes of this State will recognize the necessity for their general revision. The report of the Board embraces more than this, and proposes a "Code of Laws"—political, civil, and criminal—for the entire government of the people of the State. The object has not been to change the laws, but to crystalize them in expression, and do away with redundancies and with the incongruity of a written Constitution and vast body of unwritten law; to generalize the statutes and principles of common law into a science. Without assuming an ability to pass upon the merits of the report as a whole, I may express the opinion, from a partial examination, that the plan is comprehensive, the arrangement systematic, and the style clear and terse. Believing it important that a work requiring so much care in details should be sub-

ject to closer criticism than the members of the Senate and Assembly would be able to give it consistently with their other duties, and desiring that it should be presented to the Legislature in as perfect a form as possible, I have united with Governor Haight in a request to two eminent members of the bar to examine it. Of course the request is subject to the approval of the Legislature, but it is due to the gentlemen who have acceded to it that early action should be taken upon the matter.

#### LEGISLATORS SHOULD BE ELECTED BY DISTRICTS.

The Legislature will also be called upon to reapportion the State for legislative and congressional representation. Under the present system the City and County of San Francisco will elect by general ballot nearly one fourth of the members of the Senate and Assembly. It will be more in accordance with the theory of our Government, and better secure the rights of minorities, that the State should be divided into senatorial and representative districts, so that each member of the Legislature shall be elected by and responsible to a single constituency.

#### TOO MANY ELECTIONS.

Holding separate elections for judicial and political offices is productive of additional expense without corresponding benefit. The amendment to the Constitution (now pending) to remedy this meets the general approbation of the people, and will no doubt receive the favorable consideration of the Legislature. If by an additional amendment the time of holding elections for State and county officers should be changed from the odd to the even years, the general State election might be held on the same day as the Presidential, United States Senators would not, as now, be necessarily elected fourteen months before the beginning of their term of office, and there would be no vacancy, as there now is, in our accredited representation to the lower House of Congress from the fourth of March until the October election in the odd years.

#### UNIFORM BALLOTS, AND PURITY OF ELECTIONS.

No precautions should be neglected to secure the independence of electors and the purity of elections. The advantage claimed for the ballot as a method of voting is the free expression of individual will that results from absolute secrecy. This is the right of every voter, and should be secured to him by proper legislation. Our laws for the punishment of the corrupt use of money at elections are stringent in terms, but some provisions additional seem necessary to insure their enforcement.

#### LITIGANT AND STATE PAPER ACTS.

The enactment popularly known as the "Litigant Organ Act" is of more than questionable policy. It removes a certain class of public service from the healthy test of general competition, and to that extent creates a "monopoly." It gives the newspaper selected an additional incentive to active and prejudiced partisanship, and is a premium to the servility and discrimination against the freedom of the press. If it should be deemed desirable to retain the State litigant paper for the purpose of giving notice to absent defendants, the selection of such organ should be determined by competitive bidding.

## GEOLOGICAL SURVEY.

The expenses of the State Geological Survey since its commencement amount to two hundred and twenty-two thousand six hundred dollars. It will be for the Legislature to determine, after careful examination of the work done, whether further appropriations should be made, and upon what terms.

## CHINESE IMMIGRATION.

The introduction to this State of large numbers of Asiatics has excited the jealousy of one class of citizens and the anxiety of all. That the immediate effects of this immigration will be to cheapen labor is apparent, and in the influx of this race the laboring classes find cause for alarm, while the political student and the class not dependent upon manual labor for immediate support regard with apprehension the introduction of a people into our midst so different from our own as to preclude the possibility of assimilation. These fears and apprehensions find full expression in the platforms of both political parties. That the introduction of this race cheapens labor, and that many industries have been prosecuted and are now made feasible through this labor cannot be denied, but that cheap labor and the immediate material development of our various resources are the highest objects to be considered may well be questioned. Material wealth, that form of property which manifests itself in great and costly enterprises, expensive mansions, and other indicia of opulence, though valuable in themselves, and the accepted evidences of prosperity, may be purchased at a cost and maintained by a means that will make them but the sure evidence of a nation's decadence. It may be true in a large sense that the interests of capital and labor are the same; but the capitalist and laborer do not make bargains with each other under the principles of abstract political economy. Each is prompted by self-interest, and pushes any advantage offered by the occasion. Each avails himself of the other's necessities.

Any system which introduces a class of laborers whose wages are exceptionally low for special reasons, gives the capitalist that advantage in making terms; and whatever has a tendency to establish a fixed line of demarcation between capital and labor and create a laboring caste is a social and political evil. Under the stimulus of mechanical inventions there is no danger but wealth will be created with sufficient activity. The danger is it will be massed, and not distributed, and that danger will be increased by any system which has a tendency to make labor servile, or place human labor upon an exact equality with the productive power of machinery. The control of the question of Asiatic immigration, however, lies exclusively with the Federal Government. Treaties, commercial relations, and national traditions are all arrayed against any interference with free emigration to these shores, and much difficulty may be found in bringing our national legislators to fully comprehend the evils threatened, which are now local, and not general. It is the general sense of the public that Congress should be memorialized upon this subject, and such restrictions sought at the hands of the Federal Government as will secure this State, with its hopeful future, to the possession of a people that can share equally with each other in political power.

## PROTECTION OF LAW TO ALL.

It is, however, under and through the law alone we can act. With these or any other people within our borders there can be but one course—full, perfect protection. Mob violence is the most dangerous form in which the law can be violated, not merely in the immediate outrage committed, but in the results which often follow—communities debauched, jurors intimidated, and Courts controlled by the political influence of the number that are guilty. The unsuccessful prosecutions for the crimes of a mob teach that the number and boldness of the perpetrators too often give immunity to the offence; and not only is the crime unpunished, but Justice is mocked in her very temples by the erection of a tribunal higher than the law. And when, to all this, banded ruffianism selects for its victims a race notoriously defenceless, when pillage and murder are its exploits, the race from which such wretches are recruited, the community which suffers such deeds to be enacted, the officials who stand supinely by without an effort to prevent the crime, are sharers in a common disgrace, and the statute which prevents the victim from testifying becomes party to the offence. I trust that during my administration the spirit of lawless violence which has sometimes disgraced our past may never be exhibited. Should it be, there will be no exertion spared on the part of the Executive to extend to all, from the humblest to the highest, the sovereign protection of the law, and to visit the guilty with the punishment their crimes deserve.

The fiscal condition of the State and of the various State institutions will doubtless be fully treated in the biennial message of the Governor, before the delivery of this address. If any additional suggestions or recommendations should appear to be necessary I shall avail myself of the privilege accorded by the Constitution to the Governor, and communicate them to the Legislature by special message. If I have omitted to discuss the National questions at issue between the two great political parties, it is not because my convictions are not deep and sincere. I believe I can best manifest my gratitude to the party which has honored me above my deserts by earnestly endeavoring to administer the laws impartially, so as to maintain the honor and advance the interests of the whole State.

## REPORTS.

The following reports were made:

By Mr. Spencer:

MR. SPEAKER: The Committee on Judiciary having had under consideration Assembly Bill No. 40—An Act to fix the salary of the County Judge of San Mateo County.

Also, Assembly Bill No. 58—An Act to change the salary of the County Judge of Fresno County.

Report the same back; and further report that in the opinion of the committee there is no constitutional impediment to increasing the compensation of judicial officers by legislative enactment during the interval between the election of such officers and the commencement of their terms of office—that is, the first day of January next succeeding their election; and such officer may during his term lawfully receive to his own use the compensation in such Act provided.

Said committee further report that they deem the passage of such Acts as inexpedient and tending to establish vicious precedents, and therefore recommend that said bills respectively do not pass.

SPENCER, Chairman.

By Mr. Wheaton:

MR. SPEAKER: The Committee of Ways and Means, to whom was referred Senate Bill No. 12—An Act to provide for the payment of certain indebtedness against the State—beg leave to report as follows:

Your committee have made a careful and detailed examination of the vouchers and other evidence on file in the office of his Excellency the Governor, which show the following facts:

That the aggregate sum of fifty-seven thousand five hundred and forty-five dollars and nineteen cents, as named in the bill, is justly due for printing done for the State.

That this indebtedness occurred in consequence of work ordered in behalf of the Commission for codifying the laws.

Also, by the State Board of Equalization and for printing the reports of State officers, and other extra matter for the payment of which no special provision had been made.

Your committee find that the bills for this work were properly passed upon by the State Expert and approved by the State Board of Examiners as correct.

Your committee therefore beg leave to report the bill back and recommend that it do pass.

WHEATON, Chairman.

On motion of Mr. Wheaton, the rules were suspended and the bill above reported taken up, and having been considered in Committee of the Whole and reported, and its passage recommended, it was read a third time and passed.

By Mr. Luttrell:

MR. SPEAKER: Your Committee on Rules and Regulations, to whom was referred the annexed Resolution No. 5, beg leave to report that they have had the same under consideration and report the same back without recommendation, as the matter of said resolution is already properly within the duties of this committee, who will act upon all matters referred to them in relation to the appointment of officers or assistants of this House and their compensation.

LUTTRELL, Chairman.

STATE OF NEVADA, EXECUTIVE DEPARTMENT, }  
Carson City, December 14th, 1871. }

MR. SPEAKER: In compliance with a request therein contained, I herewith inclose a copy of a joint resolution of the Senate of this State, asking the State of California to cede the territory east of the summit of the Sierras to Nevada.

Very respectfully your obedient servant,

L. B. BRADLEY,  
Governor.

*To the Honorable the Speaker of the Assembly of the State of California:*

Senate Joint Resolution asking the State of California to cede the territory east of the summit of the Sierras to Nevada.

WHEREAS, In the establishment of boundaries naturally and geographically defined lines are generally preferable, and should be adopted, rather than artificial ones, in the separation and erection of communities into independent governments; and

WHEREAS, Manifest and great injustice is generally done by the adoption of artificial, instead of natural division lines, between States, especially when the latter are well defined, as in case of a river or a mountain range; and

WHEREAS, So much of the State of California as lies east of the summit of the Sierra Nevada Mountains belongs, as it were, naturally to the State of Nevada; and the people inhabiting such territory are accustomed to the transaction of their business abroad chiefly in this State; and would therefore be better accommodated if such territory were annexed by cession to this State; and

WHEREAS, The Act of Congress of March second, eighteen hundred and sixty-one, organizing the Territory of Nevada, provides that the

boundary line between Nevada and California may be established by the Legislature of the latter State on the ridge separating the waters of Carson Valley from those which flow into the Pacific Ocean; therefore

*Resolved*, by the Senate and Assembly of the State of Nevada, jointly, that the Legislature of the State of California be and is hereby most respectfully requested and urged to cede to the State of Nevada all the territory of said former State lying east of the summit of the Sierra Nevada Mountains.

*Resolved*, That his Excellency the Governor of Nevada be and is hereby requested to forward a certified copy of the foregoing preamble and resolution to each the Governor of California, the President of the Senate, and the Speaker of the Assembly, immediately upon the meeting and organization of the next Legislature of said State.

Passed March second, eighteen hundred and seventy-one.

## REPORT.

By Mr. Luttrell:

MR. SPEAKER: Your Committee on Rules and Regulations, to whom was referred the matter of the appointment of additional attachés to this House, hereby submit the following report:

*First*—As to assistance for the Enrolling Clerk. He needs none, for he has had but one bill to enroll and that has been completed.

*Second*—As to the Engrossing Clerk. He needs no assistance, as he can report but forty folios to engross, and a clerk of ordinary ability can engross seventy folios per day. In this office we would recommend that the Clerk be required to keep an accurate register of bills received by him, with date of reception and date of enrollment. There appears to be but little system in his office.

*Third*—As to Copying Clerks. We believe they will need no clerk until after the holidays, unless the House shall see fit to comply with the requirements of the statute law, which requires the Appendix to be written during the session of the Legislature. And in view of the fact that a delay will be avoided in the printing of the Assembly documents after the close of the session, we would recommend that the Chief Clerk shall appoint additional Assistant Copying Clerks as may be needed from time to time in the proper prosecution of the business of the House, the necessity to be certified to by the Speaker of the House.

*Fourth*—In relation to the application of the Committee on Public Buildings and Grounds for a clerk, we would recommend that they be empowered to employ, temporarily, a clerk at the per diem allowed by law for the actual time spent in investigating the affairs of the public buildings and making up reports of the same.

LUTTRELL, Chairman.

CHAPTER CCXIV.—*An Act to regulate the time and manner of holding elections for Senators in Congress.*

[Approved July 25, 1866.]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Legislature of each State which shall be chosen next preceding the expiration of the time for which any Senator was elected to represent said State in Congress shall, on the second Tuesday after the meeting and organization thereof, proceed to elect a Senator in Congress in the place of such Senator so going out of office in the following manner: each House shall openly, by a viva voce vote of each member present, name one person for Senator in Congress from said State, and the name of the person so voted for who shall have a majority of the whole number of votes cast in each House shall be entered on the Journal of each House by the Clerk or Secretary thereof; but if either House shall fail to give such majority to any person on said day that fact shall be entered on the Journal. At twelve o'clock, meridian, of the day following that on which proceedings are required to take place as aforesaid, the members of the two Houses shall convene in joint assembly, and the Journal of each House shall then be read, and if the same person shall have received a majority of all the votes in each House, such person shall be declared duly elected Senator to represent said State in the Congress of the United States; but if the same person shall not have received a majority of the votes in each House, or if either House shall have failed to take proceedings as required by this Act, the joint assembly shall then proceed to choose by a viva voce vote of each member present a person for the purpose aforesaid. And the person having a majority of all the votes of the said joint assembly, a majority of all the members elected to both Houses being present and voting, shall be declared duly elected; and in case no person shall receive such majority on the first day, the joint assembly shall meet at twelve o'clock, meridian, of each succeeding day

during the session of the Legislature and take at least one vote, until a Senator shall be elected.

SEC. 2. *And be it further enacted*, that whenever at the meeting of the Legislature of any State a vacancy shall exist in the representation of such State in the Senate of the United States, said Legislature shall proceed, on the second Tuesday after the commencement and organization of its session, to elect a person to fill such vacancy in the manner hereinbefore provided for the election of a Senator for a full term; and if a vacancy shall happen during the session of the Legislature, then on the second Tuesday after the Legislature shall have been organized and shall have notice of such vacancy.

SEC. 3. *And be it further enacted*, That it shall be the duty of the Governor of the State from which any Senator shall have been chosen as aforesaid to certify his election, under the seal of the State, to the President of the Senate of the United States, which certificate shall be countersigned by the Secretary of State of the State.

The Secretary of the Senate also read from the Journal of the Senate so much of the proceedings on Tuesday, December nineteenth—being the second Tuesday after the organization of the nineteenth session of the Legislature—as related to a ballot for the election of a United States Senator to succeed the Hon. Cornelius Cole, whereby it appeared that thirty-nine Senators were present and voted each his choice, and that W. T. Wallace, of San José, had received twenty-one votes, being a majority of all the votes cast.

The Clerk of the Assembly read so much of the proceedings on Tuesday as related to its action on a ballot for United States Senator taken on that day—being the second Tuesday after the organization of the nineteenth session of the Legislature of California—showing that seventy-eight members of the Assembly were present and voted each his choice for United States Senator to succeed the Hon. Cornelius Cole, at the expiration of his term of office, and that A. A. Sargent, of Nevada County, received fifty-four votes, being a majority of all the votes cast.

The President of the Senate declared the Joint Convention duly organized, in compliance with the Act of Congress above quoted; and the two Houses not having voted for any person receiving a majority vote in both Houses, that the Legislature, in Joint Convention assembled, would proceed to elect a Senator to Congress by joint ballot.

MR. SPEAKER: Your Committee on Elections, to whom was referred Assembly Bill No. 59—An Act to fix the time for electing Representatives to Congress—have considered the same and report it back and recommend its passage.

Also, Assembly Bill No. 27—An Act to repeal an Act entitled an Act to amend an Act entitled an Act to regulate proceedings in the Courts of justice of this State, passed April twenty-ninth, eighteen hundred and fifty-one, approved April twenty-seventh, eighteen hundred and sixty-three—report that the bill is ambiguous, inasmuch as there are two Acts of the same title and approved the same day, as the one named in the bill which it purports to repeal—the one relating to the competency of witnesses, entitled “An Act to amend an Act entitled an Act to regulate proceedings in civil cases in the Courts of justice of this State, passed April twenty-ninth, eighteen hundred and fifty-one, approved April twenty-seventh, eighteen hundred and sixty-three,” and found on page seven hundred and one of the statutes of eighteen hundred and sixty-three; the other, commonly known as the “Specific Contract Act,” entitled “An Act to amend an Act entitled an Act to regulate proceedings in the Courts of justice of this State, passed April twenty-ninth, eighteen hundred and fifty-one, approved April twenty-seventh, eighteen hundred and sixty-three,” and found on page six hundred and eighty-seven of the statutes of eighteen hundred and sixty-three.

If the repeal of the last named Act is sought by the bill in question, its passage would remove from the Practice Act several indispensable provisions, thereby causing serious injury.

On these grounds the committee recommend that the bill be referred back to its author, with the request that a new bill be drafted.

Also, Assembly Bill No. 38—An Act to change the name of Lewin Hirschkowitz to Leopold Harris—report that the person seeking a change of name has a speedy and ample remedy, by special proceedings in the County Court, by virtue of an Act entitled “An Act to authorize County Courts to change the names of persons in the cases therein specified,” approved February twentieth, eighteen hundred and sixty-six, and therefore recommend that the bill do not pass.

Also, the petition relative to testimony in Courts of justice—report the same back and recommend that it be referred to the Siskiyou delegation, to draft and present a bill in furtherance of the object sought in the petition.

Also, having considered Assembly Bill No. 56—An Act to prevent the purchasing of stolen goods from minors—report the same back with a substitute, and recommend the passage of the substitute.

SPENCER, Chairman.

By Mr. Galloway:

SPEAKER: The Committee on Public Expenditures and Accounts, to whom was referred Assembly Bill No. 79—An Act creating the office of Mail and Express Messenger of the Capitol, defining his duties and compensation therefor—beg leave to report that they have had the same under consideration and report the same back with amendments, and recommend the passage of the bill as amended.

GALLOWAY, Chairman.

By Mr. Rice:

SPEAKER: The delegation from Marin County, to whom was referred Assembly Bill No. 98—An Act supplementary to and amendatory of an Act entitled an Act to authorize the Board of Supervisors of Marin County to issue and sell bonds of said county and apply the proceeds thereof to the construction of wagon roads in said county, approved March fourth, eighteen hundred and seventy—have had the same under consideration, and report it back to the House and recommend its passage.

By Mr. Barnes:

WHEREAS, In consequence of the deep snows and severity of the winters in many of the mountain counties, owners of cattle, horses, mules, and sheep are compelled to drive the same into the valley counties, and keep them there during the winter and early spring months, usually paying ranch fees on the same; and whereas, it is the custom of the Assessors in the valley counties to take particular pains to hunt up and assess stock owned in the mountains before the same can be removed; and whereas, the owners of stock in the valleys are in the habit of driving their stock in herds into the mountain counties to graze during the summer months, there eating out their substance, and converting every green spot into a barren waste, without said mountain counties receiving any benefit, either in the way of fees or taxes; therefore,

*Resolved*, That the Committee on Ways and Means be instructed to take this matter into consideration and report if possible some remedy for this injustice to mountain counties.

## IN ASSEMBLY.

HOUSE OF ASSEMBLY,  
Friday, January 12th, 1872. }

House met pursuant to adjournment.

Speaker in the chair.

Roll called.

Quorum present.

Prayer by the Chaplain.

Journal of yesterday read and approved.

## LEAVE OF ABSENCE.

Mr. Brown was granted leave of absence for two days, and Mr. Hopper for one day.

## REPORTS.

Reports from Standing Committees were made as follows:

By Mr. Mott of Sacramento:

MR. SPEAKER: The Committee on Claims, to whom was referred Senate Bill No. 26, beg leave to report it back with amendments, and recommend its passage as amended.

MOTT, Chairman.

By Mr. Spencer:

MR. SPEAKER: Assembly Bill No. 84—An Act to take preliminary steps for calling a Convention to amend, remodel, or propose a new Constitution—having been considered by the Judiciary Committee, is reported back with a substitute, and the majority recommend the passage of the substitute.

SPENCER, for Majority.

Mr. Luttrell made the following minority report from the Judiciary Committee concerning the bill above reported:

MR. SPEAKER: The undersigned, being a minority of the Judiciary Committee, report adversely to Assembly Bill No. 84—An Act to take preliminary steps for calling a Convention to amend, remodel, or propose a new Constitution for the State of California, on the following grounds:

*First*—It will incur an expenditure of nearly one million dollars.

*Second*—The people of this State are transient, and not sufficiently settled to justify the undertaking.

*Third*—Our land titles, particularly to mining property, are still in an unsettled condition.

*Fourth*—We are now in a prosperous condition under our present Constitution. Vast improvements are being initiated, our State debt and tax are reduced; and it is deemed inexpedient to attempt any such costly experiments at the expense of the people, where there is obviously so little benefit to be derived therefrom.

The minority further report that by amending the present Constitution:

*First*—So as to prevent the granting of subsidies to large corporations and monopolies;

*Second*—By changing the time for holding the judicial elections; and

*Third*—By changing the time for the meeting of the Legislature from the first Monday in December to the second Monday in January, the organic law will meet the demands and necessities of the people. All these needed amendments can be effected without any additional expenditure.

Therefore, the minority recommend that neither the original bill nor the substitute proposed by the majority pass.

LUTTRELL, for Minority.

# MOTIONS AND RESOLUTIONS.

Resolutions were offered as follows:

By Mr. Wilcox:

*Resolved*, That Rule Seventy is hereby amended so as to read as follows: Provided, that any member shall have the privilege of inviting a friend to a seat within the Chamber.

Mr. Meeker moved the previous question.

Before the Speaker had announced the result of the motion, so far as being seconded by the requisite number of members, Mr. Crane arose and addressed the Chair, but he was not recognized.

Mr. Wilcox raised the point of order that the Chair erred in not according the floor to Mr. Crane before announcing the result of Mr. Meeker's motion.

The Chair decided the point of order not well taken.

Mr. Wilcox appealed to the House from the decision of the Chair, and on the question, "Shall the decision of the Chair stand as the judgment of the House?" the decision of the Chair was sustained.

The previous question was ordered to be put by a vote of forty ayes to eight noes.

On the adoption of the resolution, the ayes and noes were demanded by Messrs. Wilcox, Galloway, and Sensabaugh, and the House refused to adopt by the following vote:

**AYES**—Messrs. Bacon, Baird, Bell, Chalmers, Connolly, Cooper, De Haven, Edgar, Galloway, Little, Mott of Los Angeles, Pardee, Sargent of Santa Clara, Sargent of San Joaquin, Schrack, Sensabaugh, Splivalo, Stillwagon, Turner, Walker, Ward, Whiting, Wilcox, and Wright—24.

**NOES**—Messrs. Aldrich, Andrews, Barker, Barklage, Barnes, Bayley, Berry, Bradley, Bockius, Brown, Caldwell, Center, Coleman, Crane, Dannels, Days, Eagan, Ellis, Everett, Franck, Freeman, French, Gibson, Goodall, Gray, Harvey, Hayes, Henshaw, James, Johnston, Jost, Lee, Lofton, Long, Luttrell, Mathers, Meeker, Mott of Sacramento, Munday, McCullough, Rector, Rice, Russ, Sammons, Seibe, Slaughter, Spencer, Tinnin, Welty, Wheaton, Whitney, Woodward, and Mr. Speaker—53.

By Mr. Tinnin:

*Resolved*, That Assembly Engrossed Bill No. 67 be recommitted to the Judiciary Committee, with instructions to add thereto a section extending

the limitation on book accounts for goods, wares, and merchandise sold and delivered, to four years, and report the same back to this House on or before Thursday, January eighteenth, eighteen hundred and seventy-two.

Adopted.

#### RULES SUSPENDED.

The rules were suspended for the introduction of the following report by Mr. Gray:

MR. SPEAKER: The Committee on Corporations have had under consideration Assembly Bill No. 69—An Act providing for the formation of mutual fire and marine insurance companies—and for the reasons given in the annexed statement, and considering that at the present time any hostile legislation may destroy the entire insurance interest in the State of California, the committee recommend that the bill do not pass.

Respectfully submitted, GRAY, Chairman.

#### STATEMENT OF REASONS FOR THE ANNEXED REPORT.

Assembly Bill No. 69 is a carelessly drawn attempt to establish on this coast a system of insurance that has been most thoroughly tried, and everywhere found wanting, all over the Eastern and Middle States; so that while thirty years ago there were hundreds of those companies, now there are hardly any left. The objections to the plan are fundamentally the same as attend all schemes to substitute *credit* for *cash*. It has been found by bitter experience that the notes given for premiums in mutual companies are, to a large extent, worthless when assessed; because the only security being the validity *thereafter* of the policy held by the maker of the note, he will invariably fail to pay any assessment that approximates the premium he would have to pay to a cash company on the same risk. Furthermore, the cost of collection of such assessments, which would generally be small, would make a serious inroad upon the company's capital.

If this plan has everywhere failed in the old settled East, where farms and their improvements are handed down from generation to generation, how will it answer here, where every man's house is for sale? The result of this bill, if passed, would be the formation of a mutual insurance company in every village, for the benefit of a few sharps who want a salary. These would destroy the business of the paid-up companies, who pay heavy taxes and are controlled by the Insurance Commissioner (who is entirely ignored in the bill under consideration). They would delude the people with their "paper promises to pay with paper promises." Perhaps two or three assessments would be paid; but in the event of a larger loss, the idea of payment would be laughed at, and they would go out of existence after an average life of a few years or months, leaving always unliquidated debts, and having succeeded merely in ruining all the paid-up companies, and making it impossible to induce bona fide capital to engage in the business.

At the present time, the fate of the remaining stock companies is trembling in the balance. Unless something can be done to secure remunerative rates of premium, one or two years more will wind us all

up. It will be very easy for the Legislature to destroy the whole interest by but little hostile legislation.

GRAY, Chairman.

#### PETITION.

Mr. Freeman was granted leave to offer a petition from a number of residents of Woodland, in favor of legislation for the enfranchisement and protection of women, and the following resolution:

LUTTRELL, for Delegation.

The rules were again suspended, the joint resolution above reported taken up, rules again suspended, considered engrossed, read a third time and passed.

#### FURTHER REPORTS.

By Mr. Spencer:

MR. SPEAKER: The Committee on Judiciary having considered Assembly Bill No. 136—An Act to amend an Act entitled an Act to provide for the liquidation of all claims against the State not otherwise provided for by law, approved April first, eighteen hundred and seventy, and the accompanying substitute—report them back and recommend the passage of the original bill.

In the opinion of the committee, section five of the Act referred to is unconstitutional.

Also, Assembly Bill No. 142—An Act to repeal an Act entitled an Act supplementary to an Act defining the time of commencing civil actions in certain cases, passed May fourth, eighteen hundred and fifty-two, approved April second, eighteen hundred and fifty-five—report it back without recommendation. The repeal of the Act therein referred to would leave defects in the Statute of Limitations unprovided for; therefore the committee suggest that it be withdrawn by its author and replaced by another bill.

Also, Assembly Bill No. 130—An Act to amend an Act entitled an Act to protect the wages of labor, approved March twenty-first, eighteen hundred and seventy-one—report it back and recommend that it do not pass.

Also, Assembly Bill No. 135—An Act to amend an Act entitled an Act to regulate fees of office and salaries of certain officers, and to repeal certain other Acts in relation thereto, approved March fifth, eighteen hundred and seventy—report it back and recommend its passage.

Also, Assembly Bill No. 133—An Act to amend an Act entitled an Act to regulate proceedings in the Courts of justice of this State, approved April twenty-ninth, eighteen hundred and fifty-one—report it back and recommend that it do not pass.

Also, Assembly Bill No. 131—An Act to provide for the appointment of two additional Notaries Public for the County of Contra Costa—report it back and recommend its passage.

Also, Assembly Bill No. 35—An Act amendatory of an Act entitled an Act for the more effectual prevention of cruelty to animals, approved

March thirtieth, eighteen hundred and sixty-eight—report it back; it being, in the opinion of the committee, unconstitutional, in the appropriation of the fines authorized to be imposed by its provisions, recommend that it do not pass.

Also, Assembly Bill No. 139—Proposed amendment to the Constitution of the State of California—report that its provisions are not sufficiently ample to cut off the class of legislation intended thereby to be inhibited, therefore recommend that it do not pass.

Also, Assembly Bill No. 26—An Act to amend an Act entitled an Act concerning the distribution of the reports of the decisions of the Supreme Court and the statutes of this State, approved March third, eighteen hundred and sixty-six—report it back, and recommend that the Senate amendment be concurred in.

Also, Assembly Bill No. 157—An Act to amend an Act entitled an Act concerning jurors in the City and County of San Francisco, approved May twentieth—report that the change sought is not of sufficient importance to justify the enactment, therefore recommend that it do not pass.

Also, Senate Bill No. 55—An Act supplementary to an Act entitled an Act to provide for the appointment of Notaries Public and defining their duties, approved April twenty-fifth, eighteen hundred and sixty-two—report it back and recommend its passage.

Also, Senate Bill No. 60—An Act to amend an Act concerning attorneys and counselors at law, approved February nineteenth, eighteen hundred and fifty-one—report it back and recommend its passage.

Also, resignation of Charles Lindley as Revision Commissioner, and series of resolutions adopted by the Revision Commission—report the same back without recommendation, as the passage of Senate Bill No. 77—An Act concerning revision of the laws, passed January eighth, eighteen hundred and seventy-two—renders further action in the premises unnecessary.

SPENCER, Chairman.

Assembly Bill No. 136, above reported, was taken up, under suspension of the rules, on motion of Mr. Luttrell, and considered.

The substitute reported was rejected; and the rules being again suspended, the bill was considered engrossed, read a third time and passed.

By the same:

MR. SPEAKER: The Committee on Judiciary, to whom was referred engrossed Assembly Bill No. 67—An Act defining the time within which certain actions may be brought—report the same back, with a draft of an additional section, in conformity with the resolution of instruction in reference thereto. A majority of the committee further report that they deem it unwise to change in any particular the limitation laws now in force, for the reason, among others, that they have received judicial construction in many important particulars, and to that extent have become understood by the legal profession and the people at large, and that if any innovation is made a large amount of additional litigation will be set on foot solely to accomplish the objects attained without any corresponding accruing advantage. And particularly do a majority of the committee desire to place their protest on record against the passage of a law extending the time for commencing actions from two to four years on book accounts, for the obvious reason that the suppletory evidence of

indebtedness (*i. e.* the creditor's books) is manufactured by the creditor and retained in his custody, against the effects of which oftentimes the alleged debtor has nothing to oppose except his own unsupported oath, his only protection against which is to allow him to raise the presumption of payment resulting from the lapse of time.

SPENCER, for Majority.

#### REPORTS OF SELECT COMMITTEES.

The following reports were made by the select committees:

By Mr. Harvey:

MR. SPEAKER: The Sacramento delegation, to whom was referred Assembly Bill No. 143—An Act to amend an Act providing for the appointment of additional Notaries Public in Sacramento County, approved April fourth, eighteen hundred and seventy—have had the same under consideration, and report the same back and recommend its passage.

HARVEY, for Delegation.

By Mr. Dannels:

MR. SPEAKER: The San Diego delegation, to whom was referred Assembly Bill No. 51—An Act for the government of the County of San Diego—have had the same under consideration, and report the same back to the House, with amendments, and recommend its passage as amended.

DANNALS, for Delegation.

By Mr. Bell:

MR. SPEAKER: The Sierra and Nevada delegations, to whom was referred Assembly Bill No. 132—An Act to improve the Little Truckee River—having had the same under consideration, report it back with substitute, and recommend that it do pass.

BELL,  
DAYS,  
EVERETT,  
SAMMONS,  
WHITNEY.

By Mr. Slaughter:

MR. SPEAKER: Your special committee, composed of the delegations of the Counties of Los Angeles, San Diego, and San Bernardino, to whom was referred Assembly Bill No. 17—An Act entitled an Act to create the Eighteenth Judicial District—have had the same under consideration, and beg leave to report the following reasons, among others, why your committee would report the bill back to the House with a recommendation that the same pass:

*First*—That the distance necessary for the presiding Judge of the Seventeenth Judicial District to travel around his circuit to attend his Courts is so great, and the want of public conveyances in many parts of his district, and the necessary time spent in going to and from the places in holding Court, that it is impossible for him to attend the necessary

business found upon the docket within the time allowed in holding the term.

*Second*—That a large amount of the litigation in the said Seventeenth Judicial District originates from the unsettled condition of the lands therein; also, concerning mines and mining claims within the district.

*Third*—That the counties composing said Seventeenth District are rapidly increasing in population and in litigation, and great delay and expense to the litigant occurs in consequence of causes being continued from time to time for want of time allowed in holding the various Courts.

All of which is respectfully submitted.

SLAUGHTER,  
ELLIS,  
DANNALS,  
T. D. MOTT.

Speaker in the chair.

Roll called.

Quorum present.

Prayer by the Chaplain.

Journal of yesterday read and approved.

## APOLOGY.

Mr. Sammons rose to a question of privilege and spoke as follows:

Last evening, during the pending of the bill for the improvement of the Little Truckee River, I took occasion to use the words "dishonest legislation" and to reflect somewhat upon the clerks at the desk. Such at the time was my honest thought. Upon further investigation and consideration of the matter the probabilities are, sir, that I was mistaken. We have been troubled in my county for a term of years by this proposition for a division of the county. What I said was from a suspicion of this Donner County bill. Perhaps I have gone astray in the matter and made some mistakes. I have no intention to reflect upon any person in the House, neither the clerks at the desks nor the Nevada delegation. If I have gone wrong I hope they will consider it in that light, and also the gentleman from Nevada.

#### MESSAGE FROM THE GOVERNOR.

The following message from the Governor was read:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
 Sacramento, January 25th, 1872. }

*To the Assembly of the State of California:*

I herewith return to your honorable body, without my approval, Assembly Bill No. 14—An Act granting James H. Clark, County Superintendent of Common Schools, leave of absence from the State, and respectfully assign the following reasons for withholding my approval:

The object of the bill is to grant leave of absence from the State to the Superintendent of Common Schools for the County of Sutter for one year, a period of half his official term.

An office is a personal trust, and there is an implied contract between the holder on the one hand and the people on the other that personal services shall be rendered for a stipulated pay.

There may be cases of such special hardships as to justify a short furlough from civil service, but they are rare and should be closely scrutinized, especially in view of the fact that the absence of the incumbent of an office by special authority of the law-making power might invalidate his official bond.

No injury of this kind is likely to arise in the present instance, but it is proper to recognize the danger and guard against it on principle rather than discuss its imminence on particular cases as they arise, as bills of this nature are apt to become laws through legislative courtesy and executive precedent.

NEWTON BOOTH, Governor.

In addition to the foregoing enactments, the same subject is fully provided for by an Act entitled an Act concerning persons under sentence of imprisonment, approved March thirty-first, eighteen hundred and fifty-seven; therefore further legislation is unnecessary for the purpose of authorizing Boards of Supervisors of the various counties to cause persons under sentence of imprisonment to labor on public works in such county. ## QUESTION OF PRIVILEGE.

Mr. Tinnin rose to a question of privilege, to correct an erroneous statement of his remarks on Assembly Bill No. 268, when under consideration, and had leave to introduce the following communication:

SACRAMENTO, February 7th, 1872.

*Hon. H. J. TINNIN, Assembly Chamber.*

DEAR SIR: In the *Sacramento Record* of the sixth instant, in the debate upon the question of authorizing the Central Pacific Railroad Company to construct a temporary bridge at Tehama, you are reported as saying with reference to that company:

"I need only refer for illustration to matters connected with this very same company. I refer back to the time when they asked the State of California for one hundred and ten thousand dollars, with a proviso or promise attached to the bill that they should haul the granite and gravel to this place free of charge. I ask you how did they fulfill that agreement? They obtained the money appropriated by the Legislature, and when the next Legislature assembled these smooth, oily-tongued railroad members of the lobby induced members to believe that it was not necessary to haul Folsom granite down here to build the Capitol, but that the building could be as well or better constructed of brick or any other substance, so it would not entail on the railroad company the trouble and expense of hauling the granite. And what was the result? This building had to be built of a different material from that originally intended."

Whatever may have been the sins of omission or commission on the part of the Central Pacific Railroad Company in other respects, the

above quotation from your speech, if correctly reported, does them a great injustice. The change in the building materials used in the outer walls of the State Capitol was made by the Board of State Capitol Commissioners during the administration of Governor Low; and so far from having been suggested or favored by the railroad company, the change was strenuously opposed by Governor Stanford, the President of the Company, by Mr. Hopkins, the Treasurer, and by Charles Crocker, the General Superintendent.

The stone for the first five courses of granite laid in the walls of the Capitol was brought from Folsom, over the Sacramento Valley Railroad, and the State paid regular prices for its transportation, as that road was not then owned by the Central Pacific Company. The working of the hard Folsom granite was tedious and expensive, and the Capitol Commissioners, after testing the quality of the Rocklin stone, determined to complete the walls of the basement story with granite from that quarry. The Central Pacific Railroad Company was greatly in favor of this change, and agreed to convey to the State the half section of land on which the Rocklin quarry was opened, and to transport the stone to Sacramento free of cost to the State. This agreement was fully carried out on the part of the railroad company, and they even exceeded its limits by spending a large amount of money in grading and laying tracks at the quarry, and also on Sixth street, in Sacramento, for the more convenient handling of the stone after it reached the city. Before the basement walls of the Capitol were completed, it was plainly evident to the Commissioners that the entire building could not be constructed of the finely dressed granite called for in the specifications, without delaying the work for many years, and entailing a vast amount of expenditure which could be saved to the State by substituting brick and iron for the remainder of the structure. The attention of the Commissioners was particularly directed to the difficulties which would be found in attempting to cut out of granite the delicate tracery of the Ionic columns which were shown in the design. It was represented to them by architects of ability that the fine foliated groupings of the Ionic capitals have never but once in the history of the world been cut in granite, and that the services of the most skillful workmen of the age would be necessary to carry out the full details of the original design, if granite were to be employed throughout. Considerations such as these induced the Commissioners to substitute brick and iron for the upper stories of the Capitol building. The officers of the Central Pacific Railroad Company were opposed to the change, and offered additional facilities to the Commissioners if they would still adhere to the original design and complete the building in granite. Mr. Crocker informed them that he would lay a track along Tenth street to connect the main line of the railroad with the Capitol grounds, and the Chief Engineer of the road, Mr. Montague, made a survey of the connecting route in order to bring a track from the railroad grade down to the level of Tenth street, so that the expense of hauling the granite by teams through the streets could be saved to the State.

As officers of the State, and occupying the position of Capitol Commissioners at the time this radical change in the construction of a public edifice was made, we feel that this explanation as to the causes which led to the change should be laid before the people, and we would ask

of you the favor that this communication be submitted to the honorable body of which you are a member.

Very respectfully, your obedient servants,

B. B. REDDING,  
EDGAR MILLS,  
R. PACHECO,  
A. REDINGTON.

#### PETITION.

The following petition was presented:

By Mr. Eagan—From citizens of Yuba County, adverse to the passage of a "No-Fence Law," so far as regards said county.

Referred to Committee on Agriculture.

#### REPORTS OF STANDING COMMITTEES.

Reports from standing committees were made as follows:

By Mr. Days:

MR. SPEAKER: The Committee on Public Lands, to whom was referred Senate Bill No. 74—An Act to legalize certain payments of money on account of the purchase of State school lands—have had the same under consideration, report it back with amendment, and recommend its passage as amended. The committee is of the opinion that the provision in the land laws requiring the payment of purchase money in the proper county, intended the money to be paid into the Treasury of the county where the land is situate, for the purpose of giving the residents of that county an opportunity of ascertaining whether lands were taken up or not, without putting them to the expense of employing a lawyer or traveling to the State Capitol to gain the information; and we hold it to be highly censurable in any State officer to decide "the law allowed the payment of purchase money in any county."

If it is true that the law is ambiguous, such a decision only tends to encourage not only speculation in lands, but speculation in the necessities of the poor settler, and hands him over to the tender mercies of greedy cormorants who have no respect for human, natural, or divine rights.

DAYS, Chairman.

By Mr. Meeker, from the Committee of Ways and Means:

MR. SPEAKER: Your committee having had under consideration Senate Bill No. 121—An Act to amend an Act entitled an Act to regulate fees of office and salaries of certain officers, and certain other Acts in relation thereto—beg leave to report the same back with the recommendation that it be referred to the Placer delegation, as the amendment involves Placer County alone.

Your committee also beg leave to report back Assembly Bill No. 280—An Act to provide for cemeteries in the County of Tehama—without recommendation, as its author desires to withdraw the bill.

Your committee having also had under consideration substitute for Senate Bill No. 48—An Act prescribing certain duties to be performed

by the State Controller, State Treasurer, and the State Board of Examiners—beg leave to report the same back and recommend its passage.

Your committee having also had under consideration Assembly Bill No. 233—An Act to provide for the payment of certain claims in the Yosemite Valley—beg leave to report the same back with a substitute, and recommend the passage of the substitute.

Your committee having also had under consideration Assembly Bill No. 281—An Act concerning the percentage upon delinquent taxes on real property in the City and County of San Francisco—beg leave to report the same back with a substitute, and recommend the passage of the substitute.

MEEKER, acting Chairman.

By Mr. Mott of Sacramento:

Mr. SPEAKER: The Committee on Claims, to whom was referred Senate Bill No. 163—An Act for the relief of S. R. J. Sturgeon, late District Attorney of Santa Barbara County—beg leave to report it back and recommend its passage.

MOTT, Chairman.

By Mr. Meeker:

Mr. SPEAKER: The Committee on Federal Relations, to whom was referred Assembly Joint Resolution No. 13—In relation to instructing our Senators and requesting our Representatives in Congress to urge upon the Congress of the United States such legislation as will authorize the collection of foreign miners' license upon foreign miners ineligible to citizenship—report by a majority that in their opinion legislation upon the subject would not lead to any useful or practical result, for the following reasons among others that might be adduced:

The circumstances existing, and under which these resolutions are offered, lead to the belief that they will, if carried out to the extent proposed, affect more particularly the subjects of China than the people of any other nationality. But supposing no distinction with respect to the people of any nationality is intended, the treaties of the United States with foreign nations in general have express provisions that the subjects or people of those nations "shall enjoy the same privileges, immunities, and exemptions, in respect to travel or residence, as may there be enjoyed by the citizens or subjects of the most favored nations," and this provision is found in Article IV of the Treaty of the United States with China (Burlingame Treaty). Consequently the adoption of the resolutions proposed would, in order to be made effectual, require a modification of the treaty with China, and possibly the same with regard to the treaties of the United States with other foreign nations.

The majority of the committee submit the following resolution, and recommend its adoption as a substitute for Assembly Joint Resolution No. 13:

*Resolved*, That legislation upon this subject would not, with any reasonable probability, secure any useful or practical result.

MEEKER, Chairman.

#### RESOLUTIONS.

The rules were suspended and the following resolutions offered:

*Resolved*, That when this House adjourns to-day it adjourns to meet at half-past two o'clock P. M. on Monday, twelfth instant.

#### REPORTS OF SELECT COMMITTEES.

Reports from select committees were made as follows:

By Mr. Days:

MR. SPEAKER: Your committee appointed for the purpose of drafting bills redistricting the State into Congressional, Senatorial, and Assembly Districts, beg leave to report that after careful consideration and much figuring, and the impossibility to do exact justice to all, we have done what in our opinion is the nearest approximation to equal right, in accordance with the restriction of the Constitution and the varying population of the different counties of the State, and have drawn up the following bills and recommend their passage:

338 was referred, have had the same under consideration, and report the same back and recommend its passage.

SPENCER, Chairman.

By Mr. Luttrell, from a minority of the Judiciary Committee:

MR. SPEAKER: The undersigned, as a minority of the Judiciary Committee, having had under consideration the proposed amendment to the Fourth Article of the Constitution of the State of California, dissenting from the report of the majority of the committee, beg leave to submit the following minority report:

I am in favor of the proposed amendment:

*First*—Because it changes the time of the meeting of the Legislature from the first Monday in December to the first Wednesday in January biennially.

*Second*—That under the present provisions of the Constitution, the Legislature assembles on the first Monday of December. The first two weeks are spent in the organization of the two houses and committees. Then follows the usual holiday adjournment of two weeks; consequently, one fourth of each session is spent, and nothing accomplished.

The monthly expenses of the Legislature are nearly eighty thousand

dollars; consequently, the taxpayers of the State pay nearly one hundred thousand dollars each session of the Legislature, for which they receive no adequate benefit. Simply a legislative holiday at the expense of the taxpayers of the State. By passing the proposed amendment, if ratified by the people, the Legislature will convene biennially on the first Wednesday (after the first Monday) in January. The holidays are over, the Legislature will organize and go to work, the result of which will be short and useful sessions, and a saving of thousands of dollars to the taxpayers. For this and various other reasons I favor the passage or ratification of the proposed amendment.

LUTTRELL, for Minority.

By Mr. Bacon:

MR. SPEAKER: The Committee on Indian Affairs, to whom was referred Assembly Memorial and Joint Resolution—Relative to the occupation of Hoopa Valley, in Klamath County, as an Indian reservation—having carefully examined the same, respectfully report said memorial and resolution back and recommend its passage.

SPEAKER: The Committee on Federal Relations, to whom was referred Assembly Joint Resolution No. 13 and the Petition of the "Grand Council or Order of Industrial Reformers," of the City and County of San Francisco, relative to Chinese immigration and taxation, beg leave to report that we have had the same under consideration, and that the undersigned, dissenting from the majority of the committee, beg leave to submit the following report:

The laboring men and Industrial Reformers set forth the facts that there are now about fifty thousand Chinese in this State, with the apparent certainty of a large increase, who throng the avenues of industry to the great detriment and injury of the white laboring classes, and to the discouragement of European immigration to this coast.

That the annual amount drawn from the mines of this State and shipped to China is estimated at the enormous sum of seven million five hundred thousand dollars, which must of necessity help to impoverish the State, discourage enterprise, and cripple the energies of our people, many of whom have been already driven from employment to give way to the Asiatic—a people who are diametrically opposed to us in their character, habits, social customs, and religion—reducing the prices of labor, exhausting the mineral resources of the State, thereby not only impoverishing the poor laboring man and woman, but impoverishing and wasting the mineral wealth and resources of the State.

That mining upon the public ground is the exhaustion of the mineral wealth of the public ground, rendering it entirely worthless for any future use to the United States Government or the citizens thereof, and that while the Chinese are diminishing the wealth of the State to the extent of millions of dollars annually, which enormous amount is sent to China, it is but reasonable and just that they should contribute to the support of that State or Government which protects their persons and property. The small amount which would be collected from them in the shape of foreign miners' license will, if collected, very materially aid the revenues of our State.

The Chinese differ from other foreigners in this, that they pay no taxes and make no improvements, but exhaust the wealth and resources of our mining counties, leaving poverty and desolation to mark their track; while the European pays taxes, makes valuable improvements, aids in building up enterprise and all the most useful industries of our

country. Civilization, wealth, prosperity, and happiness go hand in hand with the European or American laborer; he aids in the support of the Government, while the Chinese are but preying upon the resources of the country, to the great detriment and expense of the European and American laborer and taxpayer.

By our laws, the Chinese are ineligible to citizenship; consequently, our Government should use every means possible to discourage their immigration to our shores. If the Government will impose a heavy license on all Chinese who engage in mining, it will not only be a source of revenue to the Government, but it will prove one of the most effectual means of discouraging their further immigration to our State, and thereby preserve the mines of the State to be worked by men of our own race. That the passage of the resolutions will in part fulfill the pledges made to the people of this State in the platforms of the two political parties of the State, as adopted by their respective conventions.

We therefore recommend the passage of the resolutions.

#### REPORTS OF STANDING COMMITTEES.

Reports from standing committees were made as follows:

By Mr. Spencer:

MR. SPEAKER: The Committee on Judiciary having considered Senate Bill No. 155—An Act to amend an Act entitled an Act to grant the Stanislaus Bridge and Ferry Company the right to construct and maintain a bridge or bridges across the Stanislaus River—report that by the Act which this bill seeks to amend David M. Locke and others named in the Act were granted the right “to have, take, possess, and enjoy all the rights, privileges, rights of way, franchises and immunities,” in the Act mentioned, to wit: “to construct and maintain a public toll bridge or bridges across the Stanislaus River, at a point or points between two designated points on said river, and to have and enjoy all the rights, privileges, and immunities thereunto appertaining, among which are the collections of tolls, for the period of twenty-five years, conditioned that they shall erect at least one principal bridge.” The Act further provides that no ferry, ford, or toll bridge shall be established within the limits of the aforesaid franchise, unless it be required by public convenience and the right to establish the same be granted by the Legislature.

The Act in question is a legislative grant of an incorporeal right, in its terms exclusive and beyond the power of the grantor (the people) to modify or rescind, except in the manner reserved in the clause last quoted.

It is clearly within the constitutional power of the Legislature to make exclusive grants of either corporeal or incorporeal rights, and in this regard is not obnoxious to any constitutional provision—the organic law not being a grant of power, but a limitation on the action of the Legislature. This well settled doctrine is fully recognized in the opinion of the Supreme Court in the case of the California Telegraph Company

versus Alta Telegraph Company (22 Cal., 398), and in numerous other adjudicated cases unnecessary to cite.

This Act, therefore, amounted to a contract, which has been executed on the part of the grantees, they having built and maintained their bridge as therein provided. It so being, it is not within the power of the grantor (the people) to impair its obligations, and any attempt so to do by the Legislature would be violative of section sixteen, Article I, of our State Constitution, which provides that "no bill of attainder, ex post facto law, or law impairing the obligation of contracts shall ever be passed."

This inhibition applies as well to contracts between the State and an individual as between individuals only. "It is immaterial," say the Court in *McCauley versus Brooks*, "whether the contract be one between a State and individual or between individuals only. The contracting parties, whoever they may be, stand in this respect on the same ground. The obligation imposed and the rights acquired by virtue of the contract cannot be impaired by Legislative act." (*McCauley versus Brooks*, 16 Cal. 30; *Providence Bank versus Billings*, 4 Peters, 514; *Dartmouth College versus Woodward*, 4 Wheaton, 518; *Fletcher versus Peck*, 6 Cranch, 87).

We come next to consider the only remaining point, that is, in what manner and to what extent may the contract be modified by the grantor (the Legislature) by virtue of any reservation therein contained?

The last section of this Act, as already observed, reserves to the Legislature itself the right in terms to infringe upon the franchise therein granted if public convenience shall require, by establishing within the territorial limits of the franchise another ferry, ford, or bridge. This clause is as much of the essence of the contract as any other of the provisions of the Act. By necessary implication, the Legislature, as one of the contracting parties, agree that the exercise of the discretion therein reserved should be retained to itself, and should not be delegated to any other person or tribunal, and the objection is not answered by saying that the provision is immaterial or that the grantees would have meted out to them by some agent (for instance a Board of Supervisors) the same measure of justice as they would or might receive at the hands of the principal. It is a sufficient answer to say that one of the terms of the contract to which the grantees acceded was that this delicate office should be exercised by the principal alone.

The materiality or immateriality of a given clause in a contract is not the true legal test by which to ascertain if it be of its essence. "The objection to a law," observes Mr. Justice Washington, in *Green vs. Biddle* (8 Wheaton, 84), "on the ground of impairing the obligation of a contract, can never depend on the extent of change which the law effects in it, any deviation from its terms by postponing or accelerating the period of performance which it prescribes, imposing conditions not expressed in the contract, or dispensing with the performance of those which, however minute or apparently immaterial in their effect upon the contract of the parties, impairs its obligations." "In short," says the same learned Judge, in *Dartmouth College vs. Woodward* (4 Wheaton, 662), "does not every alteration of a contract, however unimportant, even though it be manifestly for the interest of the party objecting to it, impair its obligation?" "If the assent of all the parties to be bound by a contract be of its essence, how is it possible that a new contract substituted for or ingrafted on another, without such assent, should not violate the old charter?"

Therefore, insomuch as the bill in question seeks to change the existing law, by divesting the Legislature of the power to establish ferries, bridges, etc., within the limits of the franchise, and conferring it upon the Board of Supervisors, it is an invasion of the vested rights of the grantees, and in this respect is unconstitutional, and the committee report it back and recommend that it do not pass.

#### JAPANESE EMBASSY.

Senate Concurrent Resolution No. 30—Relative to payment of expenses of Japanese Embassy reception—was taken from the file.

Also, the following report from the Committee on Claims recommending concurrence by the House:

MR. SPEAKER: The Committee on Claims, to whom was referred Senate Concurrent Resolution No. 30—Relative to payment of expenses of the Japanese Embassy reception—beg leave to report it back, and recommend the concurrence of the Assembly, for reasons as follows:

The Japanese Embassy that recently visited our State is doubtless the most important one that in modern times has left the shores of Asia.

It is composed of the most advanced minds of Japan, and they are charged with the duty of investigating all that pertains to our civilization, which they admit is in most, if not all particulars, in advance of their own.

That these men are in earnest in their work no one who came in contact with them can doubt, and considering the wonderful change one decade has made in Japan, the eager desire for knowledge the people manifest, and the marvelous ease with which they adapt themselves to the new conditions of life imposed by breaking the seal of national seclusion—it becomes morally certain that the work of this Embassy will not only result in the progress of the nation that sends it, but have an important bearing upon the varied interests of the countries visited.

Under these circumstances, and in accordance with universal custom, it was eminently proper that on their way from State to State, and people to people, certain attentions should be shown them by the proper authorities.

Coming to Sacramento, the Capital of the State, while the Legislature was in session, a committee from each House was appointed to receive them. This committee acting jointly, were not directly authorized to incur any liabilities, but the faithful and courteous discharge of their duty necessarily involved the expenditure of money. Possibly they may have been too zealous, too ready with their hospitable offers, but there was no meanness under the mask of economy; and in view of the fact that the courtesies have been extended and accepted and the debts contracted in good faith, the bills should be paid without delay, and without

undignified fault-finding with the committee, who acted as they deemed best for the honor and interests of the State.

MOTT, Chairman.

Mr. Hopper moved the previous question, which being properly seconded and ordered, on the question of concurring in the resolution, the ayes and noes were demanded by Messrs, Luttrell, Whiting, and Days, and the House refused to concur by the following vote:

AYES—Messrs. ### MESSAGES FROM THE GOVERNOR.

The following messages were received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, February 20th, 1872. }

*To the Assembly of the State of California:*

I have to inform your honorable body that I have approved Assembly Bill No. 144—An Act amendatory of an Act to regulate fees of office, approved March twenty-eighth, eighteen hundred and sixty-eight.

Also, Assembly Bill No. 208—An Act to provide for the support of schools in certain districts in Tehama County.

Also, Assembly Bill No. 155—An Act to amend the charter of the City of Los Angeles.

Also, Assembly Bill No. 111—An Act to authorize the Board of Supervisors of Mendocino County to issue bonds of said county, and apply the same to the construction of wagon roads in said county.

Also, Assembly Bill No. 242—An Act authorizing the Trustees of Santa Barbara School District, of the County of Santa Barbara, of this State, to issue bonds of the said district for the sum of six thousand dollars.

Also, Assembly Bill No. 5—An Act to repeal an Act entitled an Act to protect litigants, approved March twenty-ninth, eighteen hundred and seventy.

Also, Assembly Bill No. 2—An Act to repeal an Act entitled an Act authorizing the publication of certain legal notices in a State paper, printed at the seat of government of the State of California, approved March twenty-ninth, eighteen hundred and seventy.

Also, Assembly Bill No. 17—An Act to create the Eighteenth Judicial District, and for other purposes.

NEWTON BOOTH, Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, February 20th, 1872. }

*To the Assembly of the State of California:*

I herewith return to your honorable body, without my approval, Senate substitute for Assembly Bill No. 268—An Act to authorize the Central Pacific Railroad Company to construct and maintain for a certain period a railroad bridge across the Sacramento River.

This bill authorizes the construction of a bridge, without a draw, across the Sacramento River, near the Town of Tehama.

The Act of Congress for the admission of the State of California into the Union seems to inhibit such legislation. Section three of the Act provides "that all the navigable waters within the said State shall be common highways and forever free, as well to the inhabitants of said State as the citizens of the United States, without any tax, impost, or duty therefor."

I respectfully submit to the consideration of your honorable body that the bill herewith returned would, if it should become a law, violate one of the express conditions upon which California was admitted into the Union.

NEWTON BOOTH, Governor.

#### CONSIDERATION OF THE MESSAGES.

Mr. Ward moved to make the consideration of the veto message the special order for the day for Friday, February twenty-third, at three o'clock P. M.

Lost.

On the question, "Shall this bill become a law notwithstanding the objections of the Governor?" the ayes and noes were taken, and the veto sustained by the following vote:

AYES—None.

NOES—Messrs. Aldrich, Andrews, Bacon, Baird, Barker, Barklage, Barnes, Bell, Berry, Bradley, Bockius, Brown, Burekhalter, Caldwell, Center, Coleman, Dannals, Days, De Haven, Eagan, Edgar, Ellis, Everett, Frueck, Freeman, French, Galloway, Gibson, Goodall, Gray, Harvey, Hayes, Henshaw, Johnston, Lee, Little, Lofton, Long, Luttrell, Mathers, Meeker, Mott of Los Angeles, Mott of Sacramento, McCullough, Pardee, Russ, Sammons, Sargent of Santa Clara, Sargent of San Joaquin, Schrack, Seibe, Sensabaugh, Spencer, Splivalo, Stillwagon, Tinnin, Turner, Walker, Ward, Wheaton, Whiting, Woodward, Wright, and Mr. Speaker—64.

## MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, February 21st, 1872. }

*To the Assembly of the State of California:*

Assembly Bill No. 184—An Act to provide for the opening of Santa Clara Avenue, in the County of Santa Clara—is respectfully returned to your honorable body.

The object sought to be accomplished by the bill seems to be good, the means employed to be fair, and the names mentioned to constitute a Board of Commissioners are unexceptionable, and the only reason for withholding executive approval is that any names are mentioned.

The bill is local; no salaries are to be paid; in itself, perhaps, it does not arise to the dignity of a State question; but it involves a principle of constitutional power and general policy which I present all the more willingly, now that it can be discussed abstractly on its merits and free from all personal considerations.

Should the Legislature create any office and fill it by the same Act?

Section six, Article XI, of the Constitution reads: "All officers whose election or appointment is not provided for by this Constitution, and all officers whose offices may hereafter be created by law, shall be elected by the people or appointed as the Legislature may direct."

The language is susceptible of two constructions:

*First*, and most obvious—The Legislature may determine whether officers whose offices are created by law shall be elected or appointed. This does not involve the power to appoint.

*Second*—The Legislature may direct the manner of appointment. The Legislature cannot direct the manner of appointment to offices already filled in the Act creating them.

The Supreme Court of the State of Ohio, in deciding a case involving a question similar to this (7 Ohio, p. 160 et. seq.), use the following language:

"The power to direct the manner, the mode, the way in which an act shall be done, and the power and authority to do the act itself, are not one and the same thing. That they are not identical or equivalent to each other, is too clear for argument, and almost too clear to admit of illustration. To prescribe the manner of election or appointment to an office is an ordinary legislative function. To make an appointment to office is an administrative function, and under a Constitution in which the philosophical theory of a division of the powers of government into legislative, executive, and judicial, should be exactly carried out in detail, the power of prescribing the manner of making appointments to office would fall naturally and properly to the legislative department; while the power to make the appointments themselves would fall as naturally and properly to the executive department."

In the case of the People versus Fitch (1 Cal., p. 536), and in that of the People versus Langdon (8 Cal., p. 1), it was held by our Supreme Court that the Legislature had power to elect certain officers in the manner prescribed in section thirty-eight, Article IV, of the Constitution.

In the latter case the Court say, that it is mere hypercriticism to lay stress upon the word "appointed," in the sixth section of Article XI of the Constitution, and that "elect" and "appoint" were used as synonymous terms in our Constitutional Convention, and are synonymously used in the Constitution itself. If this be correct interpretation, then the Legislature can exercise its power of appointment only in the manner prescribed in Article IV, section thirty-eight, which declares that in all elections by the Legislature the members thereof shall vote *viva voce*, and the votes shall be entered on the Journal.

It is not contended that the power to appoint is exclusively a prerogative of the Governor. The Legislature may confer it upon other officers—as upon Boards of Supervisors, etc. It is not necessary to contend that the Legislature may not exercise the power itself, but that when it does exercise it it must do so in the manner prescribed in the Constitution, and that the creation of the office and the appointment of its incumbent must be acts distinct from each other.

It is not desirable, however, to rest a broad question as to the proper distribution of political powers upon that refined verbal criticism which a Court would often necessarily use in determining issues when conflicting individual rights are involved. The necessity of the division of the powers of government into three departments, giving to each no more control over the acts of the others than is necessary to preserve its own integrity, has been recognized as a fundamental political truth ever since Montesquieu announced it what history had before shown it to be, an axiom of free institutions. Article III. of our State Constitution gives formal expression to that truth in the following language:

"The powers of the Government of the State of California shall be divided into three separate departments—the legislative, the executive, and the judicial; and no person charged with the exercise of powers properly belonging to one of these departments shall exercise any functions appertaining to either of the others, except in the cases hereinafter expressly directed or permitted."

All eminent writers upon the English and American system of government, from Montesquieu to John Stuart Mill and Herbert Spencer, have discussed the question of policy as to which department of government should exercise the power of appointment, and they all concur that it is an executive and not a legislative function; and no authority is more full, clear, and explicit on the subject, as a matter of both general constitutional law and sound policy, than Justice Story, in his work on the Constitution.

It is true that in the Government of the United States, and in perhaps all the States, many executive appointments are required to be confirmed by the Senate; but this simply confers upon the Senate a "qualified negative," and does not destroy the sense of individual responsibility.

Thomas Jefferson, after his profound studies upon the philosophy of government had been tested and corrected by a life-time experience, says, in a letter written on the twenty-first of November, eighteen hundred and sixteen: "Nomination to office is an executive function; to give it to the Legislature, as we do, is a violation of the principle of the separation of powers; it swerves members from correctness, by temptation to intrigue for office for themselves, and to a corrupt barter for votes, and destroys responsibility by dividing it among a multitude. By leaving nomination in its proper place among executive functions, the principle

of the distribution of powers is preserved, and responsibility weighs with its heaviest force upon a single head."

To give the legislative department of government the initiative in the power of appointment, and the right to exercise that power in the Act creating the offices, is, in my opinion, to contravene the experience of every form of free government, to violate the precepts of sound philosophy, and the spirit and letter of our own Constitution.

The theory of our government is that all sovereignty is in the people; that the functions of government are apportioned to three departments, and the people designate the men who shall exercise these functions, holding each to a strict accountability for the proper performance of his official duties.

If there be any doubt as to what particular officer or department should exercise the power of appointment in any given case, it may be readily solved by giving the authority to the people themselves.

Such being my views upon the question involved, sustained by recognized standard authorities and by the most eminent thinkers who have written upon the subject, as well as by abstract theory and sound philosophy, I respectfully return the bill without my approval.

NEWTON BOOTH, Governor.

## REPORTS OF SPECIAL COMMITTEES.

Reports of special committees were made as follows:

By Mr. McCullough, of the City Hall Investigating Committee:

MR. SPEAKER: The Assembly special committee, appointed for the purpose of investigating the acts and proceedings of the City Hall Commissioners in the City of San Francisco, report that they have had the whole matter under consideration; they have examined the grounds, foundation, and the building, and as far as the work has been done; they have also examined, at great length, thirty-eight witnesses in reference to the concrete foundation, the grading of the lot, the stone, and other material, as being furnished; also, regarding the frauds alleged to have been committed by the Commissioners; examined the original and modified plans and specifications.

The original plan and the specifications have been modified to some extent, which probably caused the complaint on the part of the architects and some of the contractors. The committee are of the opinion that the modification was necessary, as it was shown by the evidence that the building could not be finished for the amount of the appropriation unless so modified, and under these circumstances the committee can see no just cause for complaint, but are of the opinion that the Commissioners have done the best they possibly could do for the faithful performance of the work they have to perform; and after a careful investigation of all the evidence produced before them, the committee have been unable to find any foundation for the rumors and reports of the frauds as alleged to have been committed by the Commissioners.

The books, accounts, and expenditures were all found to be correct. There was no evidence that went to prove that there had been any collusion between the contractors and the Commissioners, or the contractors and the architect, as alleged, of a fraudulent character.

The work is now progressing, and a large number of men are employed, and the Commissioners are of the opinion that under the modified plan the building will be completed in about four years, and at an expense not to exceed the amount of the appropriation, one million five hundred thousand dollars.

All of which is most respectfully submitted.

McCULLOUGH, Chairman.

By Mr. Bockius:

MR. Also, by the same:

MR. SPEAKER: Your Committee on Claims have given careful and extended inquiry to Assembly Bill No. 365—An Act to fund a certain indebtedness due and owing by the County of Contra Costa to Tristum C. WHEATON, Chairman.

The communication above reported was referred as recommended.

By Mr. Stillwagon: "

MR. SPEAKER: The Assembly Committee on State Hospitals have the honor to report that in accordance with their duties, in connection with the Senate Committee, they visited the Deaf, Dumb, and Blind Asylum at Oakland on the tenth ultimo. After a careful examination of the buildings, and grounds, and workshops, the rules governing the same, the education of the pupils, the account of expenditures, and the general advancement of the occupants, the result shows that the State aid that has been granted is well deserved. Upon examination we find that the institution is perfect in all its departments, and well worthy of the appropriation asked for its future maintenance. The system in operation in the institution shows from actual observation to be to the best interest of those who in their affliction are compelled to seek the charities of the people of California. The buildings, located in a position that furnishes fine views and fresh air to the occupants, are of the most substantial nature, and at the cost, as named by the Superintendent, one hundred and seventy-three thousand dollars, is one of the few structures erected by State aid that combines economy in its construction together with comfort to its inmates. The institution contains one hundred and two pupils, of which forty males and twenty-eight females are connected with the Deaf and Dumb Department, and twenty-one males and twelve females with the Blind Department. The first visited was that portion of the building devoted to the blind pupils, the occupants of which, though mostly young persons, exhibited a remarkable degree of proficiency in their application of the lessons taught them, to the present transactions of life, and history of our country. The degree of knowledge exhibited by the pupils, as shown to the committee, warrants the statement that in the course of a few years many pupils who are now receiving the advantages that this institute affords will be able to enter into active life, and will, we hope, favorably compete with those who enjoy the blessings of sight. The pupils seem to enjoy the requirements made upon them, and none more so than that of attending the musical schools. Songs of a religious nature, as well as those of a lively character, are indulged in every day, the pupils being under the charge and care of a musical professor. The blind occupants of the institution stated that nothing gave them more pleasure than to be allowed to raise their voices in praise of those who had, in God's providence, the means to aid them in their affliction and fit them for the

battle of life. In the deaf and dumb portion of the establishment the proficiency of the pupils, the questions asked and answered promptly, by signs and writing, and their expertness in mechanical arts, was particularly noticed, and guarantees, with the institute conducted under the same rules as now govern it, many of those afflicted will soon be able to appear and take the position in business and society that is accorded to those who enjoy all the senses. After visiting the buildings, workshops, and grounds, and after a thorough examination of the books, your committee desire to report that an annual expense of thirty six thousand dollars per annum, or seventy-two thousand dollars for the two fiscal years ending June thirtieth, eighteen hundred and seventy-four, will be required to successfully conduct this institution. The estimate named above is based upon the supposition that one hundred and twenty-five pupils will be the recipients of the advantages of this institution before the close of the fiscal year of eighteen hundred and seventy-four; and the amount named is not only for the support of the pupils, but for attendants' salary and other incidental expenses attending such an establishment. The committee take pleasure in recommending the appropriation asked for, as from all knowledge obtained, and from personal observation, the manner of conducting the establishment reflects credit on the State, the Directors and officers of the institute, and the pupils that derive the benefit of the charity of the first named, and the attention of the latter.

#### MESSAGES FROM THE GOVERNOR.

The following messages were received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
 Sacramento, March 4th, 1872. }

*To the Assembly of the State of California:*

I have to inform your honorable body that I have approved Assembly Bill No. 262—An Act supplementary to an Act entitled an Act providing for an attorney and counselor in and for the City and County of San Francisco, approved March twenty-fifth, eighteen hundred and sixty-two

Also, Assembly Bill No. 271—An Act to provide for the payment of certain fees in the County of Butte.

Also, Assembly Bill No. 32—An Act to repeal an Act entitled an Act to provide for the protection of lands in the County of Sutter from overflow, approved April fourth, eighteen hundred and seventy.

Also, Assembly Bill No. 377—An Act to authorize the Board of Supervisors of the City and County of San Francisco to sell and convey a certain piece of land, comprising old Cemetery Avenue and the triangular Plaza, reserved by the Outside Land Committee, up to the new Cemetery Avenue, and for other purposes.

Also, Assembly Bill No. 373—An Act supplementary to an Act entitled an Act concerning roads and highways in the Counties of Shasta and Trinity, approved March twenty-eighth, eighteen hundred and sixty-three.

Also, Assembly Bill No. 241—An Act to amend an Act entitled an Act to regulate proceedings in civil cases in the Courts of justice of this State, passed April twenty-ninth, eighteen hundred and fifty-one.

Also, Assembly Bill No. 290—An Act to empower and authorize the Commissioners of the former Pueblo or City of Sonoma to sell and convey a portion of the lands known as the pueblo grant of Sonoma.

NEWTON BOOTH, Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
 Sacramento, March 4th, 1872. }

*To the Assembly of the State of California:*

Assembly Bill No. 273—An Act supplemental to an Act entitled an Act to authorize the County of Sonoma to donate bonds to a railroad company, and to provide for the payment of the same, approved March eighteenth, eighteen hundred and sixty-eight—is respectfully returned to your honorable body without approval.

Under the provision of the original Act, an election was held by which it was determined that the County of Sonoma should donate bonds to the amount of five thousand dollars per mile for the construction of "a railroad from Cloverdale, by way of Healdsburg, Santa Rosa, and Petaluma, to Marin County line, with a branch from some point on said road, to Bloomfield."

The bonds for the main road were to be issued in installments of fifty thousand dollars on the completion of the first ten miles, and of twenty-five thousand dollars on the completion of each subsequent five miles; and those for the branch road (about twelve miles) upon its completion; but no bonds were to issue for any road or part of road unless

such road or part of road should be constructed within four years of the passage of the Act.

The object of the present bill is to extend the time for the completion of the road.

If any portion of the subsidy granted as above has lapsed, or is liable to lapse, by failure of the railroad company to comply with the conditions upon which it was to be given, is it competent for the Legislature to change the terms of the contract? If the Legislature can rightfully extend the time as to one of the parties, it might with equal right shorten it as to the other; if it can renew a subsidy which has lapsed, it can forfeit one which has accrued.

For any portion of the road incomplete at the expiration of the time stipulated, the present bill would operate as a new grant made directly by the Legislature.

If any question of policy can be settled by a popular verdict, that of granting county subsidies to railroad companies has been determined by the people of the State.

I do not understand that the principle settled is a mere abstract, but a rule of action—a rule to be adhered to in the face of seeming immediate hardships, for the sake of ultimate aggregate good; a rule which can have no value if it is to be waived whenever a case arises for its practical application.

I have given great consideration to the argument urged in the present instance. Without the extension asked for, the main road may be completed and the branch not, and that lands lying along the branch will be taxed for the construction of the main road without receiving the benefit contemplated at the time the subsidy was voted. Is not this, however, more than answered by the fact that if the extension be granted property in other parts of the county may be taxed for the construction of both roads, while deriving benefit from neither?

NEWTON BOOTH, Governor.

#### MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 5th, 1872. }

*To the Assembly of the State of California:*

Assembly Bill No. 162—An Act amendatory of and supplementary to an Act entitled an Act to provide for the better collection of delinquent taxes in the County of Yuba, approved April twenty-fifth, one thousand eight hundred and sixty-three—is respectfully returned to your honorable body without my approval. The bill provides that, in Yuba County, in all sales made for taxes, when such sales shall have been made by the proper officer to the highest bidder, and the owner of the property sold fails to redeem within the time allowed by law, the official deed shall be deemed a good and valid title to the property, and an entire release by said county from all former taxes and costs due to either the county or any of its officers.

This proposition involves the power of the Legislature to establish different remedies for failure to pay taxes in the various counties; to remit accrued taxes in a particular county; to annul the recorded judgment of a Court of law, and to cancel debts for the performance of services which the law has required and official oaths enjoined. The bill is urged as a relief against special cases of great hardship. I believe it would be imperative in that regard, and if held to be valid, the principle established would result in general evils far graver than the specific ones it is designed to remedy.

NEWTON BOOTH, Governor.

Senate Bill No. 363, above reported read first and second times and ordered placed at the head of the file for to-morrow.

#### REPORT.

*To the Honorable the Assembly of the State of California:*

The Joint Committee on Revision, appointed by the Legislature to examine the Code of Civil Procedure, Civil, and Penal Codes, beg leave to make the following report:

Your committee have carefully examined the bill for a Code of Civil Procedure, prepared by the Revision Commission, and approved by Messrs. Tuttle and Johnson, the Advisory Board. This Code embodies, in a volume, the laws of this State relative to civil procedure.

It bears every evidence of having been prepared with the greatest care. The matter is arranged in a convenient form, easy of reference.

The only material departure from our present law is in relation to the preparation of cases for appeal or for hearing on motion for a new trial. For the cumbersome system of statements and counter-statements, a system founded upon bills of exception has been adopted. The system adopted is contained in a few well drawn sections, which stand out in marked and favorable contrast to the present law. Indeed, your committee feel confident that there is not a lawyer who has had any experience in the practice but will say that this change alone, introducing certainty where all is uncertainty, is worth the whole cost of revision.

After a careful examination, we give to this Code an unqualified approval and indorsement, and herewith report it to the Legislature and recommend its adoption.

FRENCH, Chairman,  
SPENCER,

Assembly Committee.

PENDEGAST, Chairman,

FARLEY,

COMTE,

VAN NESS,

By Mr. Pardee:

MR. SPEAKER: The Committee on Public Buildings and Grounds, who were directed to investigate the affairs of the Institution for the Deaf, and Dumb, and Blind, in Alameda County, beg leave to make the following report:

The committee met in the City of Oakland, February twenty-third, eighteen hundred and seventy-two, for the purpose of investigating the affairs of the institution, and called before them J. Mora Moss, Esq., President of the Board of Directors; Colonel J. C. Hays, also a member of the Board; Warren Wilkenson, Principal of the Institution; Colonel Harry Linden, the Treasurer of the Board, who produced the books of his office with the accompanying vouchers; and M. J. Finnegan, who had been employed to do painting for the institution.

The committee visited the grounds and buildings, which are located about five miles north of Oakland. They found the affairs of the institution in the most perfect order, and the books and accounts of the Principal correct and well kept.

The building is large and well adapted for the purposes for which it was intended, the interior arrangements being such as to accommodate to the best advantage the pupils as well as the employes.

The building is of blue stone, taken from a quarry in the immediate vicinity, and seems to be of a substantial character and complete in its various appointments. The design, as well as the plans and specifications, were furnished by Messrs. Wright and Saunders, the well known architects, under whose immediate supervision the work was done. The contract for the stone work of the building was awarded to Joseph S. Emery, for the sum of sixty thousand dollars, and was to have been built of common rubble stone. This was afterwards changed, for reasons that seemed good to the Commissioners who had the work in charge, to the blue stone, of which the building is constructed. The carpenter work, painting, plumbing, and in fact all other portions of the buildings, was done by John J. Meeredy under contract, amounting to sixty thousand eight hundred dollars.

So far as your committee are able to judge, the contractors carried out and performed their agreement with the Board of Commissioners. Although from a variety of causes, such as changes made by the architects under the direction of the Building Committee, as well as the damage done to the building by the severe earthquake three years ago, when the building was nearly completed, they, the contractors, suffered great loss thereby, and are entitled to such relief as may be found equitable and just upon a proper investigation.

The lands upon which the institution is located consists of one hundred and thirty acres, fifty acres of which is under cultivation, and produces a large proportion of the vegetables consumed by the inmates of the institution; the balance of the tract of land is used as a pasture for the stock belonging to the institution. The whole tract is inclosed by a good and substantial fence.

An orchard has been planted and a large number of forest trees have

been set out, so that in a few years, what is now almost a naked plain, will be covered with a growth of timber, that will add materially to the beauty as well as to the value of the property.

The report of the Commissioners who had the purchase of the land and the erection of the buildings in charge shows the entire cost of the whole property to have been one hundred and fifty-eight thousand and ninety-eight dollars and thirty cents, or one hundred and twenty-four thousand dollars over and above the amount received for the old buildings and grounds in San Francisco, where the institution was formerly located.

The Legislature of eighteen hundred and sixty-nine and eighteen hundred and seventy made a special appropriation of twenty nine thousand five hundred dollars, for the following purposes, to wit: To pay M. Heverin, for mantels, one thousand two hundred dollars; J. K. Pryor, for heating apparatus, four thousand dollars; McNally & Hawkins, for water pipes, etc., one thousand two hundred dollars; for gas works, one thousand dollars; stable and outbuilding, one thousand six hundred dollars; for fencing, three thousand dollars; for furniture, five thousand dollars; and to the Bank of British North America, money borrowed to repair damages done by earthquake, nine thousand dollars. These amounts were for labor and materials furnished outside of the contracts with Emery and Mecredy. By adding the sum of twenty-nine thousand five hundred dollars to the amount reported by the Building Commissioners, we find that the entire cost of the grounds, institution, and outhouses to be one hundred and eighty-seven thousand and ninety-eight dollars and thirty cents.

There are no claims against the property other than those made by Emery and Mecredy, for losses sustained in the construction of the building, and should these claims be allowed for the full amounts, the cost of the grounds and buildings would still be much less than the value placed upon them by the Commissioners who had charge of and completed the work.

The appropriation of two years ago, of two thousand five hundred dollars per month, we are informed will not be sufficient for the support of the Institution in the future, for the reason that the number of pupils has been considerably increased, and we are informed that for the ensuing two years the sum of seventy-two thousand dollars, or three thousand dollars per month, will be required to properly carry out the object of the Institution.

The committee have examined the books of the Treasurer and find that the following amounts have been received by him: From the State of California, including the special appropriation of twenty-nine thousand five hundred dollars, ninety-nine thousand eight hundred and seventy-four dollars and seventy-eight cents; from the Principal of the Institution, the sum of three thousand eight hundred and thirty-six dollars and five cents, making a total of one hundred and three thousand seven hundred and eleven dollars and three cents. And from the books and vouchers exhibited by the Treasurer it is shown that the disbursements have amounted to one hundred and three thousand three hundred and sixty-four dollars and ninety-seven cents, leaving a balance on hand January twenty-ninth, eighteen hundred and seventy-two, of three hundred and forty-six dollars and forty-six cents to the credit of the Institution.

The committee would further report that the Board of Directors adopted plans for the improvement of the grounds immediately adjoin

ing the buildings, prepared by John D. Hoffmann, a civil engineer. These plans have not as yet been fully carried out, but during the past year work to the amount of two thousand and forty-eight dollars and eighty cents has been done in making roads and terraces in front of the building. This last amount, as well as a sufficient amount to complete the plans, has been provided for by the present Legislature.

In addition to the main building, there has been erected on the grounds of the Institution a large and commodious workshop, in which such pupils as are capable are taught shoemaking and cabinet work. This not only teaches them a useful trade, by which they can earn a living after leaving the Institution, but is at the same time a source of considerable revenue to the State.

There is in contemplation the introduction of other branches of industry which will further advance the interests of the pupils and contribute to the support of the Institution.

The laundry lately constructed is complete in all particulars as well as a great convenience and an improvement much needed. The same can be said of the barn and other out-buildings. All these improvements are of a substantial character, and tend to make the Institution for the Deaf and Dumb, and the Blind, one of the most complete Institutions of the State of California.

The inmates of the Institution now number one hundred and three, an increase of seven the past fiscal year, that being the cause of the necessity of increased appropriations to defray its future expenses.

PARDEE, Chairman.

MR. SPEAKER: Your Committee on Enrollment beg leave to report that they have examined and find correctly enrolled Assembly Bill No. 448—An Act to provide for the liquidation and payment of the indebtedness of Yolo School District, in the County of Yolo.

#### MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 12th, 1872. }

*To the Assembly of the State of California:*

\*Assembly Bill No. 219—An Act authorizing certain persons to improve a portion of King's River, and to erect booms therein—is herewith respectfully returned to your honorable body without my approval.

This bill embodies a franchise in the nature of a monopoly, continuing for twenty years without danger of reversion. Perhaps the improvement of the river contemplated in the bill would operate as an immediate benefit in a county of large area and sparse population; but, in my opinion, it is bad policy for the State to yield to a few of her citizens control, that cannot be questioned or interfered with for so long a period of time, any portion of the public domain, without properly guarding the interests of all whom such legislation may affect. It seems to me that this proposed franchise contains but few effective safeguards for the State or for the people of Fresno County. No requirement for the actual expenditure of any stated amount of money in improving the river channel; no provision for the regulation of tolls by the county authorities, nor revision of them by the Legislature, nor any obligation that the river shall be kept open and in proper repair for its contemplated uses after the Board of Supervisors shall have once declared it to be improved, and that most of the restrictions, pains, and penalties provided are against the general public, while the privileges, benefits, and assurances are in favor of those who ask the franchise.

NEWTON BOOTH, Governor.

#### CONSIDERATION OF THE MESSAGE.

On the question, "Shall this bill become a law, notwithstanding the objections of the Governor?" the roll was called with the following result:

AYES—Messrs. Burckhalter and Henshaw—2.

NOES—Messrs. Aldrich, Andrews, Bacon, Baird, Barker, Barklage, Barnes, Bayley, Bell, Berry, Bradley, Bockius, Brown, Center, Chalmers,

Coleman, Crane, Dannals, Days, De Haven, Eagan, Edgar, Everett, Franck, Freeman, French, Galloway, Gibson, Goodall, Harvey, Hayes, James, Johnston, Jost, Lee, Little, Long, Luttrell, Mathers, Meeker, Mott of Sacramento, Munday, McCullough, Pardee, Rector, Rice, Russ, Sammons, Sargent of Santa Clara, Sargent of San Joaquin, Schrack, Seibe, Sensabaugh, Slaughter, Spencer, Stillwagon, Tinnin, Turner, Ward, Welty, Wheaton, Whiting, Whitney, Wilcox, Woodward, Wright, and Mr. Speaker—67.

## SPECIAL ORDER.

The House took up the special order for the day, the consideration of the Governor's message vetoing Assembly Bill No. 273—An Act supplemental to an Act entitled an Act to authorize the County of Sonoma to donate bonds to a railroad company, and to provide for the payment of the same, approved March eighteenth, eighteen hundred and sixty-eight.

The following message was read:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 4th, 1872. }

*To the Assembly of the State of California:*

Assembly Bill No. 273—An Act supplemental to an Act entitled an

Act to authorize the County of Sonoma to donate bonds to a railroad company, and to provide for the payment of the same, approved March eighteenth, eighteen hundred and sixty-eight—is respectfully returned to your honorable body without approval.

Under the provisions of the original Act an election was held, by which it was determined that the County of Sonoma should donate bonds, to the amount of five thousand dollars per mile, for the construction of a railroad from Cloverdale, by way of Healdsburg, Santa Rosa, and Petaluma, to Marin County line, with a branch from some point on said road to Bloomfield. The bonds for the main road were to be issued in installments, of fifty thousand dollars on the completion of the first ten miles, and of twenty-five thousand dollars on the completion of each subsequent five miles; and those for the branch road (about twelve miles) upon its completion. But no bonds were to issue for any road or part of road unless such road or part of road should be constructed within four years of the passage of the Act.

The object of the present bill is to extend the time for the completion of the roads. If any portion of the subsidy granted as above has lapsed, or is liable to lapse, by failure of the railroad company to comply with the conditions upon which it was to be given, is it competent for the Legislature to change the terms of the contract? If the Legislature can rightfully extend the time as to one of the parties, it might with equal right shorten it as to the other; if it can renew a subsidy which has lapsed, it can forfeit one which has accrued. For any portions of the road incomplete at the expiration of the time stipulated, the present bill would operate as a new grant, made directly by the Legislature.

If any question of policy can be settled by a popular verdict, that of granting county subsidies to railroad companies has been determined by the people of this State. I do not understand that the principle settled is a mere abstraction, but a rule of action—a rule to be adhered to in the face of seeming immediate hardships, for the sake of ultimate aggregate good; a rule which can have no value if it is to be waived whenever a case arises for its practical application.

I have given great consideration to the argument urged in the present instance, that without the extension asked for the main road may be completed and the branch not, and that lands lying along the branch will be taxed for the construction of the main road, without receiving the benefit contemplated at the time the subsidy was voted. Is not this, however, more than answered by the fact that if the extension be granted property in other parts of the county may be taxed for the construction of both roads, while deriving benefit from neither?

NEWTON BOOTH, Governor.

Mr. Wilcox moved the previous question and the demand was sustained.

On the question, "Shall this bill become a law notwithstanding the objections of the Governor?" the roll was called with the following result:

AYES—Messrs. Bacon, Baird, Bayley, Bell, Bockius, Brown, Burckhalter, Caldwell, Chalmers, Connolly, Cooper, Crane, Dannals, Eagan, Ellis, French, Galloway, Gibson, Goodall, Gray, Harvey, Hayes, Henshaw, Hopper, James, Johnston, Jost, Little, Mott of Los Angeles, Mott of Sacramento, Munday, McCullough, Pardee, Reed, Rice, Sargent of

Santa Clara, Schrack, Seibe, Sensabaugh, Slaughter, Spencer, Splivalo, Stillwagon, Ward, Welty, Wheaton, Whiting, Whitney, Wilcox, Wright, and Mr. Speaker—52.

NOES—Messrs. Aldrich, Andrews, Barker, Barklage, Barnes, Berry, Bradley, Center, Coleman, Days, De Haven, Edgar, Everett, Franck, Freeman, Lee, Long, Luttrell, Meeker, Rector, Russ, Sammons, Sargent of San Joaquin, Tinnin, and Turner—25.

And so the bill passed, notwithstanding the objections of the Governor.

At five o'clock and twenty minutes P. M., on motion of Mr. Wilcox, the House adjourned.

T. B. SHANNON,  
Speaker.

M. D. BORUCK, Chief Clerk.

#### MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were read:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 13th, 1872.

*To the Assembly of the State of California:*

I have to inform your honorable body that I have approved Assembly Bill No. 405—An Act to raise revenue in Plumas County for hospital and other purposes.

Also, Assembly Bill No. 151—An Act supplementary to an Act entitled an Act to authorize H. H. Smith and others to construct and maintain a turnpike road from Cave Valley to a point on the line of the Central Pacific Railroad, at or near Auburn Station, approved March thirty-first, eighteen hundred and sixty-six.

Also, Assembly Bill No. 331—An Act to authorize the Board of Supervisors of Tehama County to levy a special tax for school purposes in the school district of Red Bluff, in Tehama County.

Also, Assembly Bill No. 395—An Act to reincorporate the City of San José.

NEWTON BOOTH, Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 13th, 1872.

*To the Assembly of the State of California:*

I respectfully return to your honorable body, without my approval, Assembly Bill No. 244—An Act for the relief of James R. Travers—for the following reasons:

*First*—It is an appropriation by the Legislature to be paid out of the Treasury of the City and County of San Francisco, without giving the local authorities an opportunity to examine into the justice of the claim.

*Second*—The bill recites that the appropriation is made "on account of the payment of said sum, wrongfully, in satisfaction of the forfeited recognizances of Walter Lopez." The records of the Court show that the money was paid rightfully on a judgment rendered on a forfeited recognizance.

*Third*—The judgment (as appears from the records) was not paid by the claimant, but by his co-surety, and the proposed appropriation would be no bar to any legal or equitable claim he may have, but rather a recognition of its validity.

NEWTON BOOTH, Governor.

CONSIDERATION OF THE MESSAGE.

On the question, "Shall this bill become a law notwithstanding the objections of the Governor?" the roll was called, and the veto of the bill sustained by the following vote:

AYES—Messrs. Jost, Seibe, Wheaton, and Mr. Speaker—4.

NOES—Messrs. STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 14th, 1872. }

Also, Assembly Bill No. 248—An Act to grant to the Town of San Bernardino all the interest of the State in certain real property.

Also, Assembly Bill No. 392—An Act supplemental to an Act entitled an Act to raise a fund for the improvement of Napa City, approved January twenty-fourth, eighteen hundred and seventy.

Also, Assembly Bill No. 379—An Act to authorize the Treasurer of San Joaquin County to transfer certain funds to the General School Fund of said county.

NEWTON BOOTH, Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 15th, 1872. }

*To the Assembly of the State of California:*

I herewith respectfully return to your honorable body, without my approval, Senate substitute for Assembly Bill No. 239—An Act for the relief of purchasers of State lands.

The first section of the bill reads: "When application has been made to purchase lands from this State, and payment made to the Treasurer of the proper county for the same in whole or in part, and a certificate of purchase or patent has been issued to the applicant, the title of the State to said lands is hereby vested in said applicant or his assigns upon his making full payment therefor; *provided*, that no other application has been made for the purchase of the same lands prior to the issuance of said certificate of purchase; *provided* further, that this Act shall not apply to school lands except to the amount of three hundred and twenty acres to any one purchaser." In the year eighteen hundred and sixty-four payments were made to the Treasurer of the City and County of San Francisco, and certificates of purchase were issued for large tracts of marsh and tide lands in Mission Bay within the boundaries of San Francisco. No application had been made for the purchase of said lands excepting these prior to the issuance of said certificates of purchase.

By virtue of a decision made by the Supreme Court of the United States, in an isolated case, the payments made and certificates issued were afterwards held to be invalid, and the lands have been sold through the Board of Tide Land Commissioners for several hundred thousand dollars, many deeds yet remaining to be executed.

In my opinion the bill under consideration might operate as a grant by the Legislature to the holders of the certificates of purchase, and give the subsequent purchasers an equitable claim upon the State for the amounts paid by them with damages. If it did not have this legal effect it would at least cloud the title of the purchasers under the Board of Tide Land Commissioners. The construction, above indicated, is strengthened by the fact that the lands referred to do not come within either of the exceptions expressly made in the bill of school lands under certain circumstances, and lands of the same class and in similar condition of title near the City of San Diego.

I deem the danger to be of so grave a nature as to require me to withhold my signature, though the general intention of the bill is doubtless fair and equitable.

NEWTON BOOTH, Governor.

#### GENERAL FILE RESUMED.

Assembly Joint Resolution No. 31—Relative to opposing the passage of any Act granting Yerba Buena, or Goat Island, to the Central Pacific Railroad.

Mr. Barker offered the following substitute for the original resolution:

WHEREAS, A bill is now pending in Congress the object of which is to confer upon the Central Pacific Railroad Company the right to occupy or lease Goat Island for depot purposes; and whereas, our Representatives in Congress have actively supported the bill; and whereas, the occupation of said island by the railroad company would greatly subvert the interests of commerce by facilitating the means of transportation, and draw to the shores of the State the great bulk of the East India trade, instead of allowing it to go by way of Europe, through the Suez Canal, thus increasing the prosperity of the State at large; therefore be it

*Resolved*, That the people of the State of California, through the Legislature now in session, do heartily indorse the action of our Representatives, and earnestly recommend to Congress the passage of the aforesaid bill; and be it therefore

*Resolved*, That his Excellency, the Governor, be requested to forward a copy of these resolutions to each of our Senators and Representatives in Congress.

## VETO MESSAGES.

The House took from the table the following messages from the Governor, accompanying three bills without his approval:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 30th, 1872. }

*To the Assembly of the State of California:*

I respectfully return to your honorable body, without my approval, Assembly Bill No. 362—An Act to submit to the qualified electors of Alpine County the question of relocating the county seat of said county.

Since the introduction of this bill the Legislature has passed general laws which will go into operation on the first of May next, which provides a method eminently fair for determining the question of the removal of county seats, and which render special legislation upon the subject unnecessary.

NEWTON BOOTH, Governor.

On the question, "Shall this bill become a law, notwithstanding the objections of the Governor?" the roll was called, and the veto sustained by the following vote:

AYES—None.

NOES—Messrs. Aldrich, Andrews, Bacon, Baird, Barker, Barklage, Barnes, Bayley, Bell, Berry, Bradley, Bockius, Brown, Caldwell, Center, Chalmers, Coleman, Connolly, Cooper, Crane, Dannals, Days, Eagan, Edgar, Ellis, Everett, Franck, Freeman, French, Galloway, Gibson, Goodall, Gray, Harvey, Hayes, Henshaw, Hopper, Jost, Lee, Little, Long, Luttrell, Mathers, Meeker, Mott of Los Angeles, Mott of Sacramento, Munday, Rector, Reed, Russ, Sargent of Santa Clara, Sammons, Sargent of San Joaquin, Schrack, Seibe, Sensabaugh, Spencer, Splivalo, Tinnin, Turner, Ward, Welty, Wheaton, Whiting, Whitney, Wilcox, Woodward, Wright, and Mr. Speaker—69.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 30th, 1872. }

*To the Assembly of the State of California:*

I respectfully return to your honorable body, without my approval,

Assembly Bill No. 354—An Act to submit the question of the removal of the county seat of Kern County to the qualified voters thereof—for the reason given in my message accompanying Assembly Bill No. 362, returned to your honorable body this morning:

NEWTON BOOTH, Governor.

On the question, "Shall this bill become a law, notwithstanding the objections of the Governor?" the roll was called and the veto sustained by the following unanimous vote:

AYES—None.

NOES—Messrs. Aldrich, Andrews, Bacon, Baird, Barker, Barklage, Barnes, Bayley, Bell, Berry, Bradley, Bockius, Brown, Caldwell, Center, Chalmers, Coleman, Connolly, Cooper, Crane, Dannals, Days, De Haven, Eagan, Edgar, Ellis, Everett, Franck, Freeman, French, Galloway, Goodall, Gray, Harvey, Hayes, Henshaw, Hopper, James, Johnston, Jost, Lee, Little, Long, Luttrell, Mathers, Meeker, Mott of Los Angeles, Mott of Sacramento, Munday, McCullough, Rector, Reed, Rice, Russ, Sammons, Sargent of Santa Clara, Sargent of San Joaquin, Schrack, Seibe, Sensabaugh, Spencer, Splivalo, Tinnin, Turner, Walker, Ward, Welty, Wheaton, Whiting, Whitney, Wilcox, Woodward, Wright, and Mr. Speaker—73.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 25th, 1872. }

*To the Assembly of the State of California:*

I respectfully return herewith to your honorable body, without my approval, Assembly Bill No. 633—An Act supplementary to an Act entitled an Act to provide terminal depot grounds for the Terminal Central Pacific Railway Company, approved March twenty-eighth, eighteen hundred and sixty-eight.

By the provisions of an Act approved March twenty-eighth, eighteen hundred and sixty-eight, and to which the bill under consideration is supplementary, certain submerged and tide lands in the Bay of San Francisco, contiguous to Goat Island, were granted to the Terminal Central Pacific Railway Company, and their assignees, for the purposes of providing the said company with proper depot and commercial facilities at the western terminus of the road. The company were also granted the right "to locate, occupy, and hold, along the bridge line or lines that shall connect the lands described in said Act and the Oakland and the Alameda or Contra Costa shore, a width of two hundred and fifty feet of the tide or submerged lands over which said bridge or bridges shall be built." Under the provisions of the Act, the lands were appraised, without reference to enhanced value by prospective improvements, at twelve thousand dollars, and that amount was paid into the State Treasury by the company on the twenty-sixth day of September, eighteen hundred and sixty-eight, at which date the acceptance of the company was filed in the office of the Secretary of State.

One of the conditions of the grant was that the company should "commence the improvement of said premises within one year from the

date of their acceptance, and, within two years thereafter; expend on such improvements, not including the expense of its bridge or bridges, not less than one hundred thousand dollars." Another condition was, that the company should, within four years after filing such acceptance, have constructed and in full running order, a first class railroad and ferry communication, according to the provisions of its articles of incorporation, between the City of San Francisco, the premises granted, Oakland, and Vallejo.

The object of the bill under consideration is to extend the time for the expenditure of the one hundred thousand dollars, and the time for the completion of the road, each two years beyond the time now limited by law.

There is no evidence to show that the work of improvement has ever been begun; certainly one hundred thousand dollars has never been expended, as, otherwise, there would be no necessity for the first provision of the present bill.

As the grant depended upon the fulfillment of all the conditions named, under the most liberal construction of language it was forfeited on the twenty-sixth day of September, eighteen hundred and seventy-one.

If the present bill should become a law, and be held operative to extend a time already expired, it would be strictly a new grant, and should be considered as an original proposition. As such, it involves the giving to one railroad company all the available approaches to Goat Island, and virtually all tide and overflowed lands surrounding said island, which are essential to its value for terminal and warehouse purposes. It involves, also, the probable damage and possible destruction of the harbor, by building bridges between the island and the eastern shore of the Bay of San Francisco, and by filling in the flats to a depth of twenty-four feet of water. And it involves, likewise, the question of the power of the State to exercise rights of ownership over the riparian rights of an island which has been reserved by the Government of the United States, by virtue of its sovereignty, for military purposes.

I do not propose to argue these questions; but it is perhaps not imprudent to say that they did not receive that consideration, when the original Act was passed, which their importance demands.

I desire, also, to call attention to the general impolicy of extending time for the fulfillment of conditions for the asking. It is a premium upon a speculation, and it enables parties obtaining grants to hold them in indefinite abeyance for purposes of sale or improvement, or as a means to compel other concessions, as opportunity may offer or interest direct.

NEWTON BOOTH, Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 25th, 1872. }

*To the Assembly of the State of California:*

Since sending the message to your honorable body returning Assembly Bill No. 633 without my approval, my attention has been called to the fact that an Act was passed March thirty-first, eighteen hundred and seventy, by which the time for expending one hundred thousand dollars by the Terminal Central Railroad Company, and the time for completing the road by said company, were extended two years beyond the time prescribed in the original Act. No reference was made in Assembly Bill

No. 633 to any Act supplementary to the Act of March twenty-eighth, eighteen hundred and sixty-eight, and I inferred there was none. If I had known its existence I should not have stated that the grant to the Terminal Pacific Railroad Company had been already forfeited. On making this correction it may not be improper to add that my views of policy and principle as announced in the message are unchanged, and the fact that an extension has already been given is an additional reason why none other should be granted.

NEWTON BOOTH, Governor.

On the question, "Shall this bill become a law, notwithstanding the objections of the Governor?" the roll was called with the following result, the veto being sustained by a unanimous vote:

AYES—Mr. Connolly—1.

NOES—Messrs. Aldrich, Andrews, Bacon, Baird, Barker, Barklage, Brown, Bayley, Bell, Bradley, Berry, Bockius, Barnes, Caldwell, Center, Chalmers, Coleman, Cooper, Crane, Dannals, Days, De Haven, Eagan, Edgar, Ellis, Everett, Franck, Freeman, French, Galloway, Gibson, Goodall, Gray, Harvey, Hayes, Henshaw, Hopper, James, Johnston, Jost, Lee, Little, Long, Luttrell, Mathers, Meeker, Mott of Los Angeles, Mott of Sacramento, Munday, McCullough, Rector, Reed, Rice, Russ, Sammons, Sargent of Santa Clara, Sargent of San Joaquin, Schrack, Seibe, Sensabaugh, Spencer, Splivalo, Stillwagon, Tinnin, Turner, Walker, Ward, Welty, Wheaton, Whiting, Whitney, Wilcox, Woodward, Wright, and Mr. Speaker—74.

## REPORT.

Mr. Chalmers had leave to make the following report:

MR. SPEAKER: The El Dorado delegation, to whom was referred Assembly Bill No. 781, report the same back and recommend its passage.

CHALMERS, for Delegation.

The previous question was ordered, on motion of Mr. Wilcox.

On suspending the rules to consider the bill engrossed, the ayes and noes were demanded by Messrs. French, Barker, and Lee, with the following result:

AYES—Messrs. Aldrich, Bacon, Baird, Barklage, Bayley, Bell, Caldwell, Center, Chalmers, Coleman, Cooper, Crane, Dannals, Days, Eagan, Ellis, Galloway, Gibson, Goodall, Gray, Hopper, James, Jost, Little, Long, Luttrell, Meeker, Munday, Rector, Reed, Rice, Schrack, Sensabaugh, Slaughter, Tinnin, Walker, Welty, Whiting, Whitney, Wilcox, Woodward, and Mr. Speaker—42.

The bill was considered engrossed, and read a third time, and on its passage the ayes and noes were demanded by Messrs. French, Barker, and Lee, with the following result:

AYES—Messrs. Bacon, Baird, Barklage, Barnes, Bayley, Bell, Caldwell, Center, Chalmers, Coleman, Connolly, Cooper, Dannals, Days, Eagan, Ellis, Galloway, Gibson, Goodall, Gray, Harvey, James, Johnston, Jost, Little, Long, Luttrell, Meeker, Mott of Los Angeles, Mott of Sacramento, Munday, Rector, Reed, Rice, Russ, Sargent of San Joaquin, Schrack, Seibe, Sensabaugh, Slaughter, Spencer, Walker, Ward, Whiting, Wilcox, and Mr. Speaker—42.

NOES—Messrs. Andrews, Barker, Bockius, De Haven, Edgar, Everett, French, Freeman, Franck, Henshaw, Lee, and Stillwagon—12.

Mr. Spencer gave notice that he would move to reconsider the vote by which the bill passed on the next day on which the Assembly convened.

Mr. Luttrell raised the point of order that such notice could not be given under the rules, as according to the notice the motion would be made on the last day of the session.

The Speaker decided the point of order well taken, and from the decision, Mr. Spencer appealed to the House.

On the question, "Shall the decision of the Chair stand as the judgment of the House?" the ayes and noes were demanded by Messrs. Spencer, Crane, and Woodward, and the decision of the Chair was sustained by the following vote:

AYES—Messrs. Aldrich, Andrews, Bacon, Barker, Barklage, Barnes, Bayley, Bell, Berry, Bockius, Brown, Caldwell, Center, Chalmers, Coleman, Connolly, Cooper, Dannals, Days, De Haven, Eagan, Ellis, Everett,

Mr. Spencer then gave notice that he would move a reconsideration of the vote on the passage of the bill to-morrow.

The Speaker decided the motion out of order, and refused to entertain it, inasmuch as the House, by the vote just taken, had adopted his former decision as their judgment.

Mr. Spencer insisted on his privilege to give notice of a motion to reconsider on to-morrow, although it might be the holy Sabbath; for the reason, that in legislative affairs there is no such day as "dies non."

The Speaker remarked, that a notice might be recorded, but that fact would not retard the delivery of the bill to the Senate, whither he should order it transmitted at once.

The Speaker announced the appointment of the following committee of conference on the School Bill: Messrs. Wright, Woodward, and Splivalo.

#### EXTRA PAY CLAIMS.

Two reports were made, by a majority and minority of the Committee on Rules and Regulations, relative to claims and requests for extra pay, etc.

#### MESSAGE FROM THE GOVERNOR.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March — 1872. }

*To the Assembly of the State of California:*

I herewith respectfully return to your honorable body Assembly Bill No. 165—An Act for the relief of John Jackson, Sheriff and ex-officio Tax Collector for Trinity County, without my approval.

The claimant was the defendant under an indictment for misemeanor in the United States Circuit Court for selling foreign miners' licenses as Sheriff of Trinity County; the decision of the case involved an adjudication upon a conflict between the laws of the government of the United States and those of the State of California.

The case was regarded as a test of the right of the State to impose a tax on foreign miners under the law of Congress commonly known as the Civil Rights Bill. A penalty of a fine of twenty dollars was imposed and no costs adjudged against the defendant.

The bill under consideration appropriates five thousand dollars to pay the defendant for his expenses and damages in the suit, and exempts the appropriation from consideration by the Board of Examiners. If the State had any interest in maintaining the supremacy of her own statutes over the laws of the United States, or in the settlement of the question of a conflict of laws, she had a law officer in the person of her own Attorney General, commissioned, sworn, and paid for that purpose. His entire competence to discharge that duty is not doubted, and he had a contingent fund under his control and could employ additional counsel whenever in his opinion the dignity of the State or importance of the case demanded it. That he recognized and discharged his duty in this matter is evidenced by his report to the Governor, wherein he states that he considered it his duty to defend the suit and did defend it.

The proceedings of the Court and the judgment rendered show that the trial involved a question of law rather than of penalty; and, after the decision, the present bill seems to me to convert a penalty for a violation of a law of Congress into a premium.

NEWTON BOOTH, Governor.

On the question, "Shall this bill become a law, notwithstanding the objections of the Governor?" the roll was called with the following result:

AYES—Messrs. Andrews, Burckhalter, Connolly, Cooper, Dannals, Eagan, Ellis, Henshaw, Little, Luttrell, Mathers, Mott of Los Angeles, Munday, Rector, Reed, Schrack, Sensabaugh, Slaughter, Tinnin, Walker, Ward, Whiting, Wilcox, and Mr. Speaker—24.

NOES—Messrs. Aldrich, Bacon, Baird, Barker, Barklage, Barnes, Bell, Bradley, Bockius, Brown, Center, Chalmers, Coleman, Crane, Days, De Haven, Edgar, Everett, Franck, Freeman, French, Galloway, Goodall, Gray, Harvey, Hayes, Hopper, James, Johnston, Jost, Lee, Lofton, Long, Meeker, Mott of Sacramento, McCullough, Pardee, Rice, Russ, Sammons, Sargent of Santa Clara, Sargent of San Joaquin, Seibe, Spencer, Splivalo, Turner, Welty, Wheaton, Whitney, Woodward, and Wright—51.

Also, the following message was taken up for consideration:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, April 1st, 1872. }

*To the Assembly of the State of California:*

Assembly Bill No. 552—An Act to amend an Act entitled an Act for the regulation of sailor boarding houses and shipping offices in the City and County of San Francisco, approved the tenth day of March, eighteen hundred and seventy—is herewith respectfully returned to your honorable body without my approval.

It was the intention of the Legislature, in creating the Marine Board of the Port of San Francisco, to establish a check upon that class of landlords designated in the Act, to protect sailors and shipmasters from growing and constantly recurring evils, and reform abuses which had become notorious.

To effectually accomplish this, it is necessary to inhibit any and all interference with a vessel or its crew, entering the harbor, from boatmen, runners, shipping agents, or landlords, before such vessel is made fast to the wharf. This is fully provided for in the Act of eighteen hundred and seventy.

The bill under consideration modifies this essential restriction to such an extent as to make the entire Act one of questionable utility. It is a provision which requires, from its nature and its relation to other portions of the law, to be precise in its expression, stringent in its terms, and unavoidable in its consequences; and to render it inoperative would be to withdraw from the sailor his surest existing protection, and subject the shipmaster to the most serious of those evils which the law was designed to remedy.

The various other amendments contained in the bill are good ones, and are perhaps necessary to the better working of the law; but the bill as a whole would, in my opinion, operate to injure rather than to improve the present law.

NEWTON BOOTH,  
Governor.

On the question, "Shall this bill become a law, notwithstanding the objections of the Governor?" the roll was called, and the veto was sustained by the following unanimous vote:

AYES—None.

NOES—Messrs. Aldrich, Andrews, Bacon, Baird, Barker, Barklage, Barnes, Bell, Berry, Bradley, Bockius, Brown, Caldwell, Center, Chalmers, Coleman, Crane, Dannals, Days, De Haven, Eagan, Edgar, Ellis, Everett, Franck, Freeman, French, Galloway, Gibson, Goodall, Gray, Harvey, Hayes, Henshaw, Hopper, James, Johnston, Jost, Lee, Little, Lofton, Long, Luttrell, Mathers, Meeker, Mott of Los Angeles, Mott of Sacramento, Munday, McCullough, Pardee, Reed, Rice, Sammons, Sargent of Santa Clara, Sargent of San Joaquin, Schrack, Slaughter, Spencer, Splivalo, Stillwagon, Timmin, Turner, Walker, Welty, Wheaton, Whiting, Whitney, Woodward, and Wright—69.

#### MESSAGE FROM THE GOVERNOR.

The House took up for consideration the following message from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, April 1st, 1872. }

*To the Assembly of the State of California:*

Substitute for Assembly Bill No. 228—An Act to provide for the payment of damages caused by changing the grade of Second street, in the City and County of San Francisco—is herewith respectfully returned to your honorable body without my approval.

The object of this bill is to compel the City of San Francisco to pay damages to property within certain limits, occasioned by the Second street cut.

The great hardship suffered by the owners of property on Rincon Hill is fully recognized. If the State, however, is to compel the city to pay the damages in this case, does not equity and fair dealing demand that the law should be broad enough to cover all cases which differ from this only in the amount involved?

It has very often occurred, in making street improvements in San Francisco, that the value of a portion of the property assessed to make such improvements has been depreciated or destroyed thereby. The system of making street improvements by assessments upon the property lying along the street has been long established. If any change is desired, it should be a radical one. It is true that the grading of Second street was under a special Act of the Legislature; but the Act under which other streets have been opened and graded alike fails to give any remedy to those whose property may be damaged—even though the damages amount to confiscation.

NEWTON BOOTH, Governor.

On the question "Shall this bill become a law, notwithstanding the objections of the Governor?" the roll was called, with the following result:

AYES—Messrs. Baird, Barker, Burckhalter, Caldwell, Center, Gibson, Goodall, Gray, Henshaw, Meeker, Munday, McCullough, Rector, Reed, Schrack, Sensabaugh, Stillwagon, Wheaton, and Mr. Speaker—19.

NOES—Messrs. Aldrich, Andrews, Bacon, Barklage, Barnes, Bayley, Bell, Berry, Bradley, Bockius, Brown, Coleman, Cooper, Crane, Dannals,

Days, De Haven, Eagan, Edgar, Everett, Franck, Freeman, French, Gal-  
loway, Harvey, Hayes, Hopper, James, Johnston, Jost, Lee, Little,

BARKER, for Committee.

On motion of Mr. Wilcox, the House took a recess for ten minutes to prepare for the interesting ceremonies about to ensue.

#### PRESENTATIONS.

On coming to order, Mr. Wilcox approached the desk, and standing before a magnificent silver tea service, placed thereon, thus addressed the Speaker:

Of all the pleasing duties which I have been called upon to perform during the present session of the Legislature, I am now assigned the discharge of one, of all the most agreeable and delightful. We are now upon the eve of closing what is perhaps the most eventful session that has ever been held in this State. Whatever of good or of bad we may have done passes with this night into the history of the legislation of our State, and it is to be hoped that the good has exceeded the bad. At any rate, I can say for myself—and I believe I speak the sentiments of almost every member on this floor when I say that which I now propose to do—I believe the members of this nineteenth session of the California Legislature have striven with all their ability, and with unimpeachable honesty, to advance the public interests and to direct our legislation for the public good. I say, then, gentlemen, that among all the pleasing duties which I have been called upon to perform here, the most satisfactory one of all is presenting, in the name of the Assembly of the Legislature of this State, to him who we have elected to the high, honorable, and important position of presiding officer, a token of our profound esteem and regard for the manner in which he has discharged the arduous duties of his station. I say it is an exceedingly great pleasure for me to perform this duty. I as a Democrat; I as one of the minority, and a small minority at that, declare that it is a pleasure to me emphatically to give my voice on this occasion in complimentary testimonial to the man whom the majority elected to be our presiding officer, and to dictate such rules and regulations as he deemed best for our government. And now, on behalf of all the members of this Assembly, Democratic as well as Republican—but more especially on the part of the members of the Democratic party, the minority, who have received at your hands so many courtesies—in the name of the representatives of the people in this body at the nineteenth session of the

Legislature, permit me, Mr. Speaker, to present to you this elegant set of silver, as a small testimonial of their appreciation of the firmness and kindness with which you have discharged the duties of your position. And now, on the eve of our disbanding, to meet no more together in this world, perchance—for the probabilities are that this Assembly will never meet together again—let me, in their name, present to you their kindest regards, and their hope for your future welfare and prosperity.

Mr. Shannon made the following

#### RESPONSE:

*Gentlemen of the Assembly:*

I shall imitate somewhat my distinguished friend, Mr. Wilcox of Mariposa, in his opening remarks, when he referred to the fact that it was one of the most pleasant duties of the session to be able as an exponent of the wishes and sentiments and feelings of members toward myself. This, to me, is one of the most agreeable and pleasant occasions of the session, when I believe that each member of this House sincerely and honestly entertains for me as their presiding officer those feelings and sentiments which have been so ably and eloquently expressed by the gentleman from Mariposa. It is, therefore, to me the most gratifying portion of the proceedings of this Assembly. And as a token of those feelings and opinions, I accept in the spirit in which it is offered, this magnificent gift from your hands as a token or manifestation of the honest convictions of each and every member of the House. You will pardon the egotism in my saying this, for I believe it to be true, that through all the administration as presiding officer, I have aimed to do impartial justice. I may not on all occasions have succeeded, but on any occasion of failure, it was an error of the head and not of the heart. I went into this chair upon the commencement of this session with a full determination that I would enforce the rules rigidly and impartially, and treat all members upon principles of broad equality. Whether I have succeeded or not is for you to determine. I therefore accept this present—this magnificent present—as a token of your regard and of your appreciation. Had I the language to express the real gratitude that prompts me to say this, I should no doubt make you all feel that I entirely realize and appreciate this great compliment that you have bestowed upon me.

TO MARCUS D. BORUCK.

Mr. Gray then approached the lower end of the desk, whereon were another silver tea set and costly silver tankard, and thus addressed the Chief Clerk:

Just four months ago we came to this place strangers, from all localities, from various localities; and each deeming the wants of his own county paramount and far ahead of those of any other place. All were somewhat selfishly disposed; and yet every one was zealous to serve the State faithfully. Our term of service is about to expire. We are about to retire to our homes; and it is very proper just now to briefly revert or glance at our record. We can congratulate ourselves upon the harmony with which this body has been characterized. And while we, upon this floor, have differed among ourselves, yet when the question has been

decided, we have yielded our differences and have submitted to the verdict of the Assembly, and have again become as friendly as we were before. And our Speaker has always succeeded on every occasion of apparent or threatening difficulty, in his administration as a presiding officer. He has been equal to every occasion, and we have in our retrospect no time to look back upon when anything has happened in this House which we must remember with regret. Further: in the selection of members of this House to take his position, the Speaker has shown a wise discretion, or at least I think he has been exceedingly happy in his choice. We have had the unruffled and amicable Hopper in that seat, we have had the precise Days, we have had the impartial and good natured Andrews, and we have had the impetuous Wilcox. And all have governed well. And all have succeeded in maintaining good order; and nothing has happened to mar the harmony of this House. But while we must acknowledge all this, there is one other whom we must not forget; and one to whom is due a great deal of credit for his contribution to the concord and business dispatch which has characterized the records of this Assembly. And I refer to the Chief Clerk of this Assembly. We find his department is well up in the business which he was appointed to superintend. The Journals are all complete. The Appendix has all been copied, and while on former occasions—I believe on every occasion within the last six years—there has been a heavy bill for copying the Appendix and other documents after the close of the session, we find to-day all work of this kind has been perfected. And while the Senate file on this night of adjournment contains some seventy or eighty bills, ours has but five, and three of those are Assembly measures. All of which shows the utmost dispatch and punctuality on the part of our Chief Clerk. To-morrow we shall go from here, and these halls will be vacant. After to-morrow we shall no longer have Berry with his call for the ayes and noes; no Whiting to call for the previous question; nor Pardee nor James to move for an adjournment. But all will be quiet here. We can no longer listen to the sarcasms of a Spencer; or the annihilating speeches upon minority representation and mortgage taxation delivered from Father Meeker's scrap-book; nor shall we hear any more in regard to swamp and overflowed lands from our friends Harvey and Berry. Nor shall we have the land laws of this country and the nations of Europe expounded to us by Mr. Days; nor will the outrages of the Second street cut be recited by our friend Mr. Aldrich; nor shall we hear any more the earnest speech and admonition in behalf of the Bank Commissioner from Mr. Splivalo. Nor shall we have anti-railroad and anti-subsidy speeches, interlarded with a reference to that amiable Committee on Corporations, from Andrews and Luttrell. All this will be past, and we will be private citizens, and no more Assemblymen in session in the Legislature of California. Nor yet, shall we hear from Alameda County propositions to reduce the salaries and fees of the Sheriff of Mariposa. Mr. Mott, of Sacramento, will no longer interest and convince us by his statistics of the Committee on Claims; nor shall we be astonished in regard to the Chaplain question by the gentleman from Tulare, Mr. Burekhalter; and Mr. Wheaton can have the floor as he likes. Mr. Speaker, before we leave it is my pleasant duty to tender to our Chief Clerk, Marcus D. Boruck, a testimonial of the high esteem in which he is held by the members of this Assembly. We have contributed to purchase a piece of silver, which we now present to him. It is the silver pitcher upon the desk. We know that our Chief Clerk has often-

times been severely tried in the administration of his office. We know that we have often asked him to repeat the reading of bills which were lengthy and tedious in their construction, and perhaps difficult to decipher in their chirography. We know that we have called for the roll repeatedly after a long and wearisome debate, and yet we remember that all though this the duties which have been imposed upon him he has always been found not only an efficient and faithful but courteous servant. Therefore it is with pleasure that now, in the name of the members of this Assembly, I desire to present to him the piece of silver to which I have pointed upon that table.

#### ADDITIONAL PRESENTATION TO MR. BORUCK.

Mr. Wheaton:

I claim the floor probably for the last time this session. I heartily indorse all that my colleague, Mr. Gray, has said in behalf of the eminent services of the Speaker of this House and the Chief Clerk. And I rise to say that the services of Mr. Boruck have not only been appreciated by the members of this Assembly, but also by the attachés and clerks who have been subordinate to him. And I have been selected as the medium through which to tender, in their behalf, a token of their appreciation of his kindness to them, a set of silver at the left hand of the desk, which I have the pleasure of presenting on their behalf.

#### RESPONSE BY MR. BORUCK.

Mr. SPEAKER: With your permission, sir, and that of the members of this Assembly, I come forward to express to you my gratification at this evidence of your appreciation of my conduct in the position which I have had the honor to fill during the nineteenth session of the Legislature. I came here through an ordeal which few have ever been compelled to experience in order to reach this position. And I find, after having served here four months, that your verdict has been such as to lead me to suppose that you have always reposed entire confidence in me. The beautiful present which the members of this House have given me, intrinsically is nothing; but it is the fact of their offering it in the manner they have which gives it a significance of which any man might feel proud. The clerks and attachés of this House have also contributed to place me under lasting obligations to them, for the evidence of their good feeling towards me as the Chief Clerk of this House. And whatever ability I may possess for the faithful and correct discharge of the duties of this place, without the concurrence of the excellent clerks which this House placed at my command, my efforts would have been comparatively unsuccessful in meriting and obtaining your approval. To them—to my Assistant Clerks—I am indebted for much of the success which has crowned my endeavors here as the chief clerical officer of the House. And when I say that I shall never forget them, and the confidence which they have shown in me, and the liberality which they have shown to me, I mean precisely what I say. I desire to announce to this House, in connection with this presentation, the receipt of an official letter which has been sent me by my Copying Clerks. And, with the permission of the House, I will read the communication:

ASSEMBLY CHAMBER,  
April 1st, 1872. }

M. D. BORUCK, ESQ., *Chief Clerk of the Assembly:*

SIR: We are pleased to inform you that the copying of the Assembly, for this, its nineteenth session, including the writing up of the Appendix, has been entirely completed, and no copying now remains on hand to be performed after the close of the session.

Very respectfully yours,

ISAAC AYER,  
F. CREQUE,  
Copying Clerks of Assembly.

There will be no deficiency for the twentieth session of the Legislature to pay for copying work which was done or ordered at the nineteenth session. To be brief, and not to detain the House and yourself, Mr. Speaker, I again return my sincere and heartfelt acknowledgments for the compliments which have been paid to me this evening.

#### PRESENTATION TO MR. HOPPER.

Mr. Mott of Sacramento:

As one of the Committee on Claims, I would claim the floor, while in a quiet and conversational way I address my friend and colleague, and the Speaker pro tem of this House, Mr. Hopper. Mr. Mott remarked that one of the first acts of the Speaker pro tem during the session, was perhaps inadvertently alluded to in the character of the gift which he was about to offer—in pairs—a pair of goblets and a pair of napkin rings. Mr. Mott said that the House appreciated the impartial manner in which the Speaker pro tem had discharged his duties; and the members trusted that long life and happiness and prosperity would be the portion of Mr. Hopper. He presented, in behalf of the Assembly, the two silver goblets and the beautiful napkin rings which stood in the center of the Clerk's desk.

#### RESPONSE OF MR. HOPPER.

Gentlemen will allow me to return my sincere thanks for the kindly feeling you have manifested towards me. I am sure I reciprocate this sentiment towards every member of this Assembly. We have had some pretty long speeches during this session of the Legislature, and certainly this is not the time for protracted remarks. I only wish, in returning to you my thanks, to add the hope that prosperity may be your lot, and that you may have all the happiness which your hearts could wish, and all the honors to which you may reasonably aspire. If in any of my rulings I may have seemed to any one to have committed injustice, believe me it has been unintentional, and could I be made aware of the fact it would be regretted. I am grateful for the uninterrupted courtesy which has been shown to me during the present session by members of this House. And I hope that the same feeling and conduct will be manifested between the members of this Assembly in all our intercourse hereafter, and so long as we may live. Repeating my sincere thanks, I gratefully accept your gift.

## PRESENTATION TO THE ASSISTANT CLERK.

Mr. Splivalo:

With the permission of the Speaker I will address the Assistant Clerk, Mr. Dixon. Mr. Dixon: You were appointed, after a well contested struggle, Assistant Clerk of this House. During this session, from that desk you have witnessed the contrary and opposite votes of the two Sargents, and the onslaughts of annihilation from Father Meeker. We, on our side of the House, have been watching you also. And after due deliberation this Assembly has come to the conclusion that you deserve a good caning. This is the cane which we mean to give you—not to apply to you! If ever hereafter, in the course of years, you should feel in the darkness of the world, or that it was closing its doors upon you as against any of your good intentions or ambitions—which I hope will not be the case—you then can look back, with the aid of this reminder, to the past, and reflect upon the many warm friendships which you have made in this House during this session. And we hope that this cane will act as a magnet to lead you in the right way, and secure you in a successful progress through life. Accept, Mr. Dixon, this cane, in the name and on behalf of the members of this Assembly.

## RESPONSE OF MR. DIXON.

Mr. Speaker and gentlemen of the Assembly: I do not propose to bore you with a long speech. Allow me simply to return my heartfelt and sincere thanks. I can truly say that I have passed many pleasant hours with you here, and in general association with the members. If I have done my duty here—as I believe I have—I am satisfied with my work and your approbation. I thank you for this token of your regard.

Mr. Mott of Los Angeles offered the following resolution, which was adopted:

Shortly before midnight the Secretary of the Senate came into the Assembly Chamber and informed the House that the Senate had transacted all its business, and was about to adjourn sine die.

Mr. Wilcox, from the committee to wait on His Excellency the Governor, reported that the committee had performed that duty, and that the Governor informed the committee that he had no further communication to make.

#### VALEDICTORY.

The hour of twelve o'clock having arrived, the Speaker addressed the House as follows:

*Gentlemen of the Assembly:*

When human nature and human wisdom shall have attained perfection, unobjectionable legislation may be anticipated. Until then, conflicting interests and geographical antagonisms will assert themselves in the State councils, and divide men into parties and subdivisions of parties.

As the hour of final adjournment has arrived, in obedience to custom, I am expected to make some remarks to those with whom I have been associated, and over whose deliberations I have presided.

Some of our determinations have not seemed to meet with universal approbation, and yet I apprehend that experience will demonstrate that no positively mischievous or oppressive measure has passed into statute this session. A watchful press has notified the people that much has been done in this direction; while little credit is vouchsafed for the inauguration of measures which must exert an influence favorable to the development of our resources and the equitable adjustment of the burdens of government.

We have taken such action in relation to revenue laws as must tend towards a more just equalization of taxation, and, consequently, to reduce taxes. The reduction of harbor dues lightens restrictions upon commerce, and greatly reduces charges heretofore burdensome upon the agriculturist and manufacturer. We have relieved those sections of the State demanding its repeal from the operations of the so-called Five Per Cent Law, and retained its provisions in an improved and guarded form

for those growing and expanding districts whose people demanded its retention with a pronounced unanimity that no faithful representative could afford to ignore.

We have responded to the voice of the metropolis, and placed within her power and control the means of securing such railway connections as her position and necessities require, and as are calculated to further her interests if judiciously used. If in years past similar provisions had been made for terminal purposes, a whole community would have been spared the anxiety of the past few days, and probably the taxable property of San Francisco would have been many millions in excess of its present standard.

A code of laws has been enacted, in the preparation of which much time has been employed. The Legislature has assumed that it comprised a system adapted to the requirements of the community, and the good or bad results which future experience shall develop, will mainly rest upon the Commissioners charged with its preparation. I apprehend that in the main it will be found to work well. If not, subsequent legislation can readily remedy defects, guided by the intervening experience under its workings.

I must be indulged in reprobating that selfish and narrow spirit which combined to defeat a new legislative apportionment. Since the last apportionment the agricultural and commercial centers have steadily advanced in wealth and increased in population, while in the remaining sections of the State the reverse is the rule. The disposition to cling to power is natural, but in this instance its exercise, and as exercised by one branch of the Legislature, is to deny the right of representation. It is the assertion of the right of taxation without representation. It is indirectly the revival of colonial subordination. No free and intelligent people will submit to so plain and palpable an outrage; and time will avenge this gross wrong, unless there is a called session to enforce obedience to constitutional rights.

In conclusion, I recur with great pleasure to matters personal to myself. The uniform kindness extended to me places me under obligations to each member of this body. Gentlemen, you have my thanks, and best wishes for your health and prosperity in life.
